LIME UNDER SOYBEANS INCREASED CORN YIELD

Raleigh, May 21.—Lime under soybeans will not only increase the yield of hay when the crop is cut from the land, but when the soybeans are turned

under for soil improvement, the yield of corn following is also materially increased.

For two years, H. E. White, county agent in Surry county, working with one of his local banks, has conducted a number of soil building tests with

some of his best farmers. These demonstrations had for their purpose to show the effect of liming soybeans and the injurious effect of removing the vines when the land was to be planted to corn. Lime was used at the rate of one ton per acre on some plots and no lime was used on the other plots. Four hundred pounds of an 8-3-3 fertilizer was used under the crops.

As a result of his tests, Mr. White states that in plot one where no lime was used, the soybeans produced 5040 pounds of hay per acre. The following year an average of 21.6 bushels of corn was produced on the same land. On plot two where the soybeans were limed and cut for hay, 6080 pounds of hay were produced and the following year 24.7 bushels of corn per acre was made on this land. On plot three where the land was limed and the soybeans turned under for soil improvement, an average of 30.9 bushels of corn per acre was secured. On plot four, where the unlimed soybeans were turned under, only 22.6 bushels of corn per acre was produced.

SALE OF VALUABLE REAL ESTATE

Under and by virtue of the power of sale contained in that certain deed of trust executed by H. C. Kearney and wife to E. H. Malone, Trustee, dated March 22, 1926, recorded in book 250, page 192, Registry of Franklin County, N. C., default having been made in the payment of the indebtedness thereby secured and demand for foreclosure having been made upon the undersigned by the holder of the bonds representing said indebtedness, the undersigned trustee will on Monday the 14th day of May, 1928, at or about the hour of noon at the court house door of Franklin County, N. C., offer for sale at public auction to the highest bidder for cash the following described tracts or parcels of land:

Those two certain tracts or parcels of land, situate in Fanklinton township, Franklin County, State of North Carolina, and described as follows:

FIRST TRACT: Being Lot No. 4 of the Norman Long lands, containing 75 1-2 acres, more or less, the same having been conveyed to Oza D. Kearney by deed of E. A. Long and wife, recorded in Book 162, page 146 Registry of Franklin County, N. C. and to A. M. Scales, Trustee, by deed of trust of Oza D. Kearney and husband, I. H. Kearney, recorded in Book 230, page 4, said Registry, and by A. M. Scales, Trustee, conveyed to Oza D. Kearney by Trustee's Deed Recorded in Book 233, page 507 and 508, said Registry.

SECOND TRACT: Bounded on the North by the lands of Rosa Williams, on the East by the above described first tract, on the South by the old Hammer Road and the land of R. L. Conyers and on the West by the lands of H. C. Kearney and being the tract conveyed to Oza D. Kearney by R. L. Conyers.

Both of the above described tracts having been conveyed to H. C. Kearney by deed dated March 22, 1926. This April 14th, 1928.

E. H. MALONE, Trustee.

The above sale was continued by consent of all parties to Monday, May 28th, 1928, at or about the hour of noon.

This May 21st, 1928.

E. H. MALONE, Trustee.
