Eight Months 1.00
Six Months .75
Four Months .50

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Entered at the Post Office at Louisburg, N. C., as second class matter.

We welcome you to Louisburg today.

Charles Evans Hughes has been elected by the League of Nations to fill an unexpired term of Judge John Bassett Moore, resigned.

That you may thoroughly enjoy your visit to Louisburg today is the sincere wish of every business man or woman in Louisburg.

Louisburg is all set and ready to go with its tobacco opening for next Tuesday. We hope the results will be such as will bring you back again.

The Anti-Smith Democrats in Texas have bolted the party. In other words they are trying to destroy the party that has protected them so long.

The State of Maine went Republican this week by approximately 80,000 majority. But this means little as Maine is a rock ribbed Republican State.

Federal officers made big raids around Wilson recently. The Federal Court don't do much more with blockaders and bootleggers than our State or Recorder's Courts.

Sen. Joe T. Robinson, Vice-Presidential nominee of the Democratic party, was heard in his speech at Raleigh Tuesday night by many radio enthusiasts who seem agreed upon the fact that it was a great speech and a strong political document.

Views Of An Idle Fellow

I'll tell you what folks, I'm surely proud of my radio set. I enjoy it more and more all the time and don't see how I could do without it. I hear so much good music and get all the conventions and political speeches. I even got the quiet State Convention in Raleigh.

I can keep up with things that are taking place in the world that otherwise I would know nothing of, since I am forced to stay at home.

May the Lord bless you for giving it to me.

I noticed in a speech that the Rev. "Anti" Upchurch said that no Republican could get in the anti-Smith club unless they sneaked in and that they were not wanted. I wonder if the good brother is peeved because the Republicans have said they didn't want the anti-Smith's in their party. And, I wonder if there will not be some of the anti-Smith brethren trying to sneak out of their club before November 6.

To my mind Judge Sinclair has sounded the keynote. Upon being asked how he stood on the political situation, he replied: "I am a Democrat and a white man and my fingers have never learned to scratch a Democratic ticket." A man of this type would look well in the Senate Chamber in Washington.

It is a pity some of the Protestant leaders cannot follow the example set by the Catholics. Just suppose a Catholic priest were to organize an "anti-Hoover" club in North Carolina like Bishop Cannon and others have organized "anti-Smith" clubs. And suppose a priest should tour the South slandering Hoover like John Roach Straton is trying to do Smith. There might be reason then for the good brethren to accuse the Catholics of wanting to run the government. But some people don't know anything about consistency.

This will conclude my broadcast for today. I will be on the air again next week.

WM. D. JACKSON.

EDWARD BEST HIGH SCHOOL "DYNAMO"

For the past two years the Edward Best High School has published a weekly paper, "The Edward Best Weekly." This year the school has charge of a page in the Franklin Times. This is the first time we have published a page in the county paper and we hope for the best.

We have planned to make each article interesting to the whole county. Our plans for the year may be larger than we can handle, but we are going to try to make each article really helpful, instead of just words to fill up space. With the help of Mr. Johnson the school has high hopes of making the page successful.

Organization of New Staff

The editor in chief of the Edward Best Weekly came from the Junior Class, but this year the editor in chief and associate editor comes from the Senior class. Each other class has two reporters and the clubs have one reporter to cover all programs.

The Senior class elected two editors, and the school chose the name of this page. The editor and reporters hope to make the page well worth while all trouble spent on it. A page that will be a help to the school and county.

School opened Monday morning.

September 3, 1928, in a downpour of rain. Everything was in confusion for a while. But it did not take long to get settled down to work.

There are 140 in roll and new pupils are still coming in. There has been a change in the faculty, the members are: Miss Irene Gupton, Miss Doza Upchurch, Miss Ina Chapel, Mr. James L. Armstrong, Mr. John J. Wolfe, Mr. T. H. Sledge, Mrs. T. H. Sledge. Mrs. John Insoe is the seventh grade teacher.

New Bell System

Mr. Armstrong has installed an electric bell system, which, although it isn't very expensive, aids greatly in running the school. Last year the bell was a cow bell contributed by Josephine Ball. Mr. N. C. Rowland gave the wire for the new bell and the school appreciates this very much. This is one of the many things for which the school is indebted to Mr. Rowland.

The bell is a simple push-button bell, run by hot shots too weak to use on the trucks. There are four bells, one on each corner post around the hall. The button is in Mr. Armstrong's room, on the left of the door as you enter—but you'd best not touch the bell—Mr. Armstrong is official bell ringer and he might give you a few raps on the head.

The school has a larger bell on top of the building at the back entrance. This bell is used to ring when the pupils are out of doors. This bell is also in charge of Mr. Armstrong and it is rung by pulling a plow line—otherwise a cotton rope.

Organization of Clubs

The majority of the clubs organized last Friday. In the list of clubs are: The Young Tar Heel Farmers, under the direction of Mr. J. J. Wolfe; Home Economics Club, under Miss Chapel; The Glee Club, under Mrs. T. H. Sledge; the Dramatic Club, under Miss Doza Upchurch and the Literary Club under Miss Irene Gupton.

This is the first year the school has had a Dramatic Club, but the members seem to like it and are hinting of pleasant surprises for everybody. The other clubs have planned to do more real work this year than before.

The Classes

Besides the four regular high school grades, the seventh grade from several elementary schools still stays at the high school. The Senior and Sophomore classes are the only grades organized. Glycerine Turnage is president of the Senior Class; Vivian Cook, vice-president; Martha Fowler, secretary; William Southall, treasurer. The class motto is, "Climb, Tho the Way Be Rugged," class colors, green and white, and class flower, sweet pea. Miss Doza Upchurch is honorary member.

The Sophomore officers are: Alma Rice, president; Berteen Harris, vice-president; Lucille Stokes, secretary; Cora Haymon, treasurer. Class color, blue and white; motto, "Climbing Every Day;" class flower is the red rose.

The other classes hope to organize soon.

Seniors Order Rings

Last Tuesday the Senior Class ordered their class of '29 rings from the H. W. Peterson Co. Last year the class of '29 bought their pins from the same company. The rings are expected about November 1st.

Book Contest

Miss Gupton is supervising a book contest among the students in an effort to get more books for the library. Either books or money will be accepted and will help the class or person win in the contest.

The contest is to last two weeks from September 6. A prize will be given the class getting the most money and books, also the individual winning will receive a prize. The prizes will be awarded at the end of the two weeks. The ninth grade is now ahead in the contest. Get busy class mates.

Athletics

The boys under Mr. Armstrong are planning to have a better year of basket ball than ever before. When the association organized they appointed a committee, which will help a great deal in advertising games. The boys seem to have more interest in basket ball and are more experienced after the other years.

The girls are planning to have class games before the regular basket ball season opens. This is the second year they have had class games. Last year the 10th grade won the cup, this year it is hard to tell just how the games will be. The girls who have won black B's are not permitted to enter the class games. The class games are to develop new material, get more girls interested in basket ball and to interest the school in both class games and school basket ball.

New Basket Ball Manager

The Girls Athletic Association elected Margaret Smith manager of the Association. Margaret is going to have plenty of work to do if she will not get lazy. She's very capable of holding down the job and with her help the athletic activities are going to be more interesting this year.

Somebody suggested opening a hospital for the benefit of the sick and afflicted—don't know why there are any sick and afflicted, maybe the teachers gave them too big and bitter doses of this year's work.

New Truck

The school has seven trucks, three Chevrolet trucks and four Ford trucks. One of the Chevrolet trucks is brand new and William Southall is chief engineer. The trucks are in good condition and the new system of arranging the trucks in the evening prevents much confusion. The pupils are very proud of the new truck and of the other trucks. The drivers rate very well as good drivers, so we expect to have a pretty good year in the truck line.

Chapel Exercises

We have chapel just before twelve

High Speed Motors

need this oilier oil because it's a tougher more durable oil that's specially processed to stand the gaff and do its job under all conditions

"STANDARD" overcomes friction at higher speeds. A special friction machine is used in Standard Oil Co. of New Jersey laboratories to study the ability of different lubricating oils to overcome friction. It is operated with different quantities of oil, at various speeds, and with varying loads.

In one series of tests, the weight of the load was kept at 175 lbs. per square inch. The quantity of oil supplied was 12 drops each minute. With "Standard" Motor Oil the machine operated perfectly at 700 revolutions per minute. With other motor oils used by motorists today, the machine became over-heated and the oil failed at from 300 to 400 revolutions per minute.

"STANDARD" MOTOR OIL

"Standard" Greases, Transmission Oil and Gear Compound are made with the same care as "Standard" motor fuels and motor oils.

or the noon hour, because sometimes the trucks are late and would prevent having chapel first thing in the morning. We have had interesting chapel exercises and the teachers promise

surprising as well as interesting exercises through the year. Mr. Armstrong plans to give us a good habit every time he has chapel. The other teachers programs are going to be

just as interesting. Self feeder number 46 and 47 have been built by hog growers of Person county.

Give your hens this fifty-fifty chance to molt

FEED half Quaker Ful-O-Pep Growing Mash and half Quaker Ful-O-Pep Egg Mash. These two feeds combine to bring hens through the molt in wonderful condition, and helps them get right back to work delivering large, uniform, marketable eggs. We have both of these fine feeds for you.

L. P. HICKS, Louisburg, N. C.

Recent wet weather is causing tobacco to mold in the pack houses to add to the woes of the eastern Carolina grower.

J. R. Nipper of Wake county has a lespedeza pasture which he seeded five years ago and he states that it gets better every year.

for Economical Transportation

This Tag is Your Assurance of Honest Used Car Values

If you are in the market for a used car—come in and learn how completely we protect your purchase when you buy a used car from us!

Our used car department is operated under the famous Red O.K. Tag system—developed by the Chevrolet Motor Company to protect the used car buyer. Under this plan, we attach to the radiator caps of all our reconditioned cars the famous Chevrolet Red O.K. Tag—showing exactly what vital units

have been checked O.K. or reconditioned by our expert mechanics.

We believe that no fairer system of used car merchandising has ever been worked out—for it assures the customer honest value as well as a dependable, satisfactory car.

Come in today and inspect our stock of O.K.'d used cars. You are sure to find the car you want, at a price that will please you—and our terms are exceptionally easy.

USED CARS with an OK that counts

A Few of our exceptional Used Car Values "with an OK that counts"
