To the first half-million new Ford owners

To THE half-million men and women who have received new Fords in the last eleven months, there is no need to dwell on the performance of the car.

You have tested its speed on the open road. In traffic you have noted its quick acceleration and the safety of its brakes. You know how it climbs the hills. On long trips and over rough stretches you have come to appreciate its easy-riding comfort. Continuous driving has proved its economy of operation and low cost of up-keep.

This is an invitation to you to take full advantage of the service facilities of the Ford dealer organization so that you may continue to enjoy many thousands of miles of carefree, economical motoring.

The point is this. You have a great car in the new Ford. It is simple in design, constructed of the best materiais and machined with unusual accuracy. It is so well-made, in fact,

that it requires surprisingly little attention. Yet that doesn't mean it should be neglected. Like every other fine piece of machinery, it will serve you better and longer if given proper care.

One of the best ways to do this is to take your ear to the Ford dealer every 500 miles for oiling and greas-ing and a checking-up of the little things that have such a great bearing on long life and continuously good

Such an inspection may mean a great deal to your car. To you it means thouands upon thousands of miles of motoring without a care-without ever lifting

Ford dealers everywhere have been specially trained and equipped to service the new Ford. You will find them prompt and reliable in their work, fair in their charges, and sincerely eager to help you get the greatest possible use from your car for the longest period at a minimum of trouble and

expense. That is the true meaning of Ford Service.

SAFEST FOR SAVINGS

On Many Application Forms of Employment

IS THIS QUESTION

DO YOU SAVE?

Importance of this question to the employer is that if you have not learned to manage your own affairs, it is not likely you will be wanted to manage his.

It seems to be the felling of all employers that if a man cannot save for himself, it is hardly probable he can save for them.
