 LOUISBURG, NORTH CAROLINA
 SAFEST FOR SAVINGS

On Many Application
 Forms of Employment

IS THIS QUESTION

DO YOU SAVE MONEY?

Importance of this question to the employer is that if you have not learned to manage your own affairs, it is not likely you will be wanted to manage his.

It seems to be the felling of all employers that if a man cannot save for himself, it is hardly probable he can save for them.

Takes Hoover on Good Will Trip

This dreadnaught, the U. S. Maryland, one of the most powerful battle-ships in the nation's navy, was chosen to take Herbert Hoover, president-elect, and his party of friends on a good will cruise. Stops will be made at "certain Latin-American countries."

This picture of the Maryland was taken from the Brooklyn Bridge as the battleship cruised up the East river.

**Speedy Relief
 For Sore Throat**

Safe Prescription Requires No Gargling

No longer is it necessary to gargle or to choke with nasty tasting patent medicines or gargles to relieve sore throat. Now you can get almost instant relief with one swallow of a famous doctor's prescription called Thoxine. It has a double action, relieves the soreness and goes direct to the internal cause not reached by gargles, salves, and patent medicines.

Thoxine does not contain iron, chloroform or dope, is pleasant-tasting, harmless and safe for the whole family. Also excellent for coughs; stops them almost instantly. Quick relief guaranteed or your money back. 35c, 60c, and \$1.00. Sold by Beasley Bros., and all other good drug stores.

**HOME TRAINING SHOWS
 IN CLUB BOY'S RECORD**

Raleigh, Nov. 26.—Like his famous grandfather, Bobby Schaeffer, 4-H club boy of Newton, proved his knowledge of Jersey cattle at fairs this fall and won \$128 in premiums with his pure bred heifer.

"Bobby is the grandson of R. L. Shuford, master farmer and Jersey breeder of Catawba county," says J. W. Hendricks, county agent. "He is also a member of the Catawba county calf club and this fall he showed his animal at Hickory and at the Catawba, Cleveland and Gaston county fairs where he won a total of \$128 in premiums. At each of the four shows, the heifer won a blue ribbon and was once made Junior Champion."

Just to see Bobby, one would think he is too small to handle a calf states Mr. Hendricks, but once in the show ring, he handles himself well. Not only does he take an interest in his own calf, but he usually spends much of his time after-school in working with his grandfather's herd. When milking time comes, he takes a regular place and is efficient at the job.

This fall Bobby not only showed his calf in the single classes but also as a part of the Jersey herd from Mr. Shuford's farm. The calf helped to make up a county herd to be exhibited out of the county and was exhibited in several groups such as the Get of Sire, Get of Dam, Calf Herd, Exhibitors Herd and Graded Herd. This gave Bobby and opportunity to win more money.

The calf is named "Oakwood Golden Bell" and is a double granddaughter of the South's only silver, gold and medal of merit bull, Oakwood D's Fox. Mr. Hendricks says that Bobby is proud of his calf and gives her the best of attention and care.

**MAKE FALL PLANTINGS
 OF TREES AND SHRUBS**

Raleigh, Nov. 26.—While November is probably the best time to plant trees and shrubs in North Carolina, there is yet time to set the orchard or to prepare for beautifying the lawn by planting desirable trees and shrubs.

"Fall planting is desirable in this State because it gives the cuts a chance to heal and the roots an opportunity to start growing before hot weather begins," says Herbert L. Whitesell, landscape specialist at State College. "Spring planting, especially when done late, does not permit this and is therefore undesirable. To have complete success in planting one must realize that a plant is a living body and requires definite, favorable conditions for growth and development."

When plants have been dug, care must be used to prevent the roots from drying. Where planting cannot be done at once, heeling-in is advised by Mr. Whitesell. This should be done in a protected place and each plant so placed that its roots will come into contact with the soil. Never heel-in great bundles.

Badly injured roots should be removed and all wounds made smooth so as to facilitate healing. No pruning must be done until the trees are planted. It is easier then to determine the foundation branches, says Mr. Whitesell. It is hardly ever necessary to add water but when this is done, the water should be poured into the hole before the plant is set. Pack the soil firmly about the roots. This is essential. Mulching the ground about the plant with well rotted manure is the best fertilizer. Mr. Whitesell advises, however, against allowing the manure to come into contact with the plant.

In all plantings, he urges that the hole be sufficiently wide and deep that none of the roots are crowded.

Two additional cars of fat hogs have been shipped from Beaufort county making 115 cars for this year. The animals were shipped cooperatively by about 450 men.
