#### CIST VOLUME

Like an individual the passing of a hirthday with an enterprise brings a pleasant thrill. With this issue the RANKLIN TIMES begins its 61st clume. It completed sixty years of service with its last issue. During this time it has endeavored to be a factor of value to Louisburg and Franklin County. Quite a bit of pleasure is experienced by reflection in observing the realization of many of its aims and advocations. Adding to this pleasure is the liberal patronage it has received from the business interests of Franklin County, making it possible for it to prosecute its pro-gram more effectively.

It does not lay claim to having been right in all things. It is directed by the element of human activity. But it has made an honest effort to re right, and consistent, and hopes to be of service to Franklin County many more years.

#### WELL WORTH CONSIDERATION

The suggestion that the merchants in Louisburg are not co-operating in the interest of the buyer and to convince him that he can buy at home to better advantage than elsewhere, made before the Louisburg Kiwanis Club last Friday night by Mr. F. W. Wheless, Jr., should be taken seriously by the merchants of Louisburg and result in some real honest-to-goodness common action that will meet this condition. The public has seen these conditions for some time and wondered why it was to their advantage to buy at home when the home mer-chants traded elsewhere. Mr. Wheless, as one of Franklin County's youngest merchants, is proving him self a leader in mercantile thought. His suggestion in this particular runs in harmony with that made by David Ovens, Manager of Ivey's Stores, at a banquet recently given by the merchants at Greensboro when he said, "if you expect to live and compete you've got to be scientific in your husiness, advertise, clean up your stores and give the people service." Mr. Wheless recognizes that the time has past when a town can, so to speak, sit still and wait for business to come to it, and the individual merchants working in antagonistic atti-tudes towards each other. Mr. Wheless is eternally right in his position that if a town expects to succeed it must wake up, the merchants must co-operate, clean up, give service and boost the entire town, and so conduct their affairs as to create confidence in their trade at home arguments.

## Two Babies Colds Externally CHICK

You would not feed your own baby a porter-house steak and expect it to live. Neither should you feed your baby chicks the strong, heavy feeds that only laying hens should have.

FEED

Millions of baby chicks die before they are a month® old. They should be fed as carefully as human babies are.

#### Happy Chick Starting Mashes

There are two systems of feeding baby chicks. One is the All-Mash Starter method. The other is the combination Chick Grain and Mash method.

Happy All-Mash Chick Starter is specially suited for broiler production and battery feeding. It promotes quick growth and meets all other modern feeding conditions.

If you prefer the Mash and Scratch method, then feed the old stand-by chick ration—Happy Chick Starting Mash and Happy Chick Grains.

Come in or 'phone us for a copy of the Baby Chick edition of The Happy Idea. It is chock full of baby chick information.
