### COLORED GRADED SCHOOL

We are about to end our fourth school month with a reasonable amount of accomplishments to our credit. The conduct of our boys and girls has been commendable with no serious trouble in department.

The boys and girls are gradually seeing the real value of being studious. We have quite a few enrolled who are unable to purchase any books whatever. In this connection we would appreciate and use to an advantage any books, pamphlets, or magazines that our white friends may give us. Mrs. W. E. White contributed some very helpful books which the High School students have carefully used for reference work. We take this opportunity to extend our personal thanks to her. Special attention has been given that spelling, reading, writing, punctuating are done correctly even in the High School Department. If these fundamentals are properly instilled in each boy and girl, all other things will come easily because they will have a firm foundation upon which to build. Experience in teaching has shown me that High School and College students do not always learn these fundamentals as they should and are handicapped.

Each day periods are given to writing and spelling even in the High School Department, and on the whole, the High School students are making remarkable progress. After our morning devotions, during this week, we have given a period to the discussion of proper home training stressing the necessity for our boys and girls being polite not only to those in our race but to all of our white friends and associates.

We certainly do feel grateful to our loyal Supt. and the honorable board of trustees for the interest they have always shown in us and the school.

Our children are in a good comfortable, well arranged school building. We take a pride in seeing that the buildings are kept clean and that the walls and furniture are not cut, scratched or marked on by the boys and girls.

Both of the teachers in the High School Department are well trained and have good common sense. The teachers in the grades are doing good work and take a special interest in the welfare of the boys and girls under their care.

So far this school term, I have picked up forty-seven wayward boys on the streets and carried them to the school. The most of them are doing good work.

The average attendance for the school has been very good.

### HELP THRIFT INSTITUTIONS

Two of North Carolina's best known institutions are practicing thrift in a manner that is as unusual as it is interesting. Wishing to acquire equipment that has been needed for a long time, these institutions are collecting Octagon soap coupons, thus making it possible for all those interested in the welfare of such a worthy cause to help without inconvenience other than sending to these institutions the coupons from their soap.

The Methodist Children's Home at High Point and the Black Mountain Orphanage, at Black Mountain, both are saving Octagon Soap coupons for refrigerators. Coupons sent to either of the two will be furthering a cause worthy of every North Carolinian's support. The Franklin Times is only too glad to endorse such a worthy thrift plan and urges all those who have been throwing away the wrappers from their Octagon soap to save them and mail them to any of the above mentioned institutions. Here is an example of thrift that bespeaks careful and economical management.

During the present business depression when house wives are refraining from the purchase of many things they really need, no better and simpler plan could be employed than to save Octagon coupons for household articles. Nearly every conceivable article may be "purchased" in this manner, and without need for change in the family budget.

## REASONS WHY ZEPHYR FLOUR

is better than any other Flour handled in Franklin County, although a dollar to a dollar and a half cheaper than some others. Mill advantages as follows:

- 1st. Unlimited Capital.
- 2nd. Located in best wheat section of the World.
- 3rd. Owns large number of Public Wheat Elevators scattered throughout that section with chance to buy from the farmer before the wheat is withdrawn for shipments to Markets.
- 4th. Owns large line of Private Elevators for storing their wheat till needed.
- 5th. Their main business is developing generating and selling Water & Electric Power. Always having a surplus which costs nothing. (Look at name of Mill on each bag.)
- 6th. Flour is water ground. (Look on each bag.)
- 7th. No other flour on the market with as strong guarantee printed on each bag. (Look for it on each bag.)

Compare the taste of Zephyr with flour, made by any other mill, and sold here. None of them have that sweet nutty taste. The wheat it is made of is full of gluten or protein, and this is where you get your food value and good taste. The others as a rule use wheat which is full of starch, white, flat taste, and no food value.

We have many merchants to tell us, "People who have used this flour will have no other." Sold by nearly all the merchants in the county. Call for it. If one merchant does not have it, his neighbor has.
