Work is progressing nicely on the New Louisburg to Raleigh road.

Louisburg's Tobacco Market is getting the price for the farmers on tobacco again this year.

Although the trouble between Germany and Czechoslovakia seems to have been settled, peace in Europe is not assured by a lot. Later developments show Poland and Hungary are demanding the same consideration as Germany.

It will be quite a relief to many of the friends of the Armory project to know that the idea of providing space for a City Hall and offices, fire house and county offices has been discarded, the TIMES, is informed by high authority, and only sufficient space for the Armory will be provided. It is estimated this can be done for \$30,000 to \$35,000. Just what effect this action will have on the amount of the bond issue is awaited with interest by the voters.

Lions Celebrate Gets Wild Turkeys At Franklinton

New Civic Club Gets Its Charter From International; Many Visitors

Franklinton, Sept. 15.—Approximately 150 Lions, Lionesses and guests gathered last evening in the gymnasium of the Franklinton school for the "Charter Night" celebration of the new Lions Club of Franklinton. Lion clubs throughout this section of the State were represented. District Governor Charles A. Lano, of Sanford, presented the official charter of the International Association of Lions Clubs; and it was accepted by President Wallace H. Green of the Franklinton club. Inspirational addresses upon the principles and objectives of Lionism were delivered by immediate past District Governor Mack M. Jernigan, of Dunn, and V. J. Ashbaugh, of Durham, also a former District Governor. Lion Jernigan spoke on the history of Lionism; and Lion Ashbaugh told of the big civic organization that numbers more than 100,000 members and in excess of 3,000 clubs in the international domain.

President Clarence B. White, of the Lions Club, of Henderson, which sponsored the Franklinton Club, called the banquet session to order. The meeting place was decorated with the Lions colors of purple and gold and favors were at each table place. Lions paper hats and noise-makers added to the festive appearance of the celebration.

The Rev. J. T. Biddle, member of the Franklinton Club, pronounced the invocation; and Deputy District Governor Sam Alford, of Henderson introduced Neil Heister, past president of the Lions Club, of Raleigh, as toastmaster. Lion Tamer Grover B. Harris made the address of welcome on behalf of the Franklinton Club; and Deputy District Governor W. M. Rogers, of Wilson, who also is president of the Lions Club, of Wilson, delivered the response.

President Daniel L. Bell, of the Lions Club of Pittsboro, welcomed the Franklinton Den into the fold of Lionism in District 31C, which embraces the eastern half of the State. Lion Alford also entertained the audience with an exhibition of sleight of hand tricks.

Following the banquet, dancing was enjoyed in the CCC camp recreational hall, with Hal Thurston and his orchestra furnishing the music.

In addition to President Green, officers of the Franklinton Club are: First vice president, W. H. M. Jenkins; second vice president, A. B. Allen; third vice president, John J. Joseph; secretary-treasurer, H. E. Pearce, Jr.; Lion Tamer, G. B. Harris; Tall Twister, P. P. Purnell; directors, W. W. Cooke, P. H. Massey and Everett Moore.

The Franklinton club begins its career with a charter membership of 16.

PRODUCTION UP

Although the number of milk cows in North Carolina decreased 1 per cent in the past year, the average daily milk production jumped from 12.9 pounds per cow in 1937 to 13.2 pounds in 1938, says John Argy, extension dairyman at State College.

One can sense a general wish that the distillers would pick on each other instead of beating up smaller and helpless neighbors.

Gets Wild Turkeys To Stock Farm In Gold Mine Township

Mr. Ben F. Wood informs the TIMES that he has succeeded in getting an allotment of Wild Turkeys to be used in stocking his farm and the surrounding territory, in Gold Mine township. These turkeys will be delivered by Mr. R. B. Armstrong, of the State Game and Fisheries Commission on Friday, September 23rd, at which time he would like to have as many of his neighbors as possible to be present at 2:30 o'clock to meet Mr. Armstrong and learn how to assist in restocking this section with wild turkeys for future sports. He is very anxious to have the cooperation of all the citizens in this section and requests all who should see these birds to not molest them and give them time to propagate. He requests that should one come to your home that you drive it back to the woods.

This shows a very fine spirit in Mr. Wood who is going to much expense and trouble to build up this feature of sports and it is hoped he will get the cooperation of all the citizens in that section.

Deane's Certification Assured

The State Board of Elections has the power to go behind county primary returns to correct fraudulent and illegal ballots, the Supreme Court ruled yesterday in an opinion apparently assuring C. B. Deane of Rockingham the eighth district Democratic nomination for Congress over W. O. Burgin of Lexington.

Holding that Judge W. C. Harris erred in granting Burgin a writ of mandamus forcing the State board to certify him as the nominee, the high tribunal also declared the Deane certification invalid because no "legal" returns from Richmond and Davidson Counties exists, but the way was cleared for legal certification of the Richmond County man.

Amended at the direction of the State board, returns from the two counties were signed by two members of the county boards and supposedly without the knowledge of the third member.

Calling Board Meetings The State board is expected immediately to call the county boards into session and compel certification of returns identical with those that gave Deane a 23-vote majority over Burgin, who led by 75 votes in original returns from the July 2 runoff.

TO PURCHASE COTTON The Federal Surplus Commodities Corporation has been authorized to purchase up to 50,000 bales of raw cotton and up to 14,000,000 yards of cotton fabric to be donated to welfare agencies in various states for making mattresses and comforters for relief families.

The value of crimson clover in improving the water holding capacity of soil has been demonstrated by F. A. Barnhardt, of Concord, route 3, for the past two years. Cotton planted after the clover has withstood the dry weather without losing its fruit or leaves.

Wilson County farmers with late crops of tobacco are reporting considerable damage from horn worms and flea beetles.

BASE-BALL

Louisburg College opened fall baseball practice Wednesday afternoon with 33 men reporting. This is the first time Louisburg has ever had baseball practice in the fall. "Fightin' Man" Relaxes

LYNCHBURG, S. C. — Senator E. D. Smith, dean of Senate Democrats, who scored a victory over the "New Deal Purge" in the recent South Carolina primary, finds relaxation from the vexations of the campaign which he said was the "dirtiest I've ever been called to endure," by hauling up a cool drink from the well of his old plantation.

MISS LYDIA PERSON SHARES PARTY HONORS
