

AAA OFFERS FARMERS OF COUNTY \$317,698.00

Farmers of Franklin County can earn \$317,698.00 in Agricultural Conservation payments under the 1939 Triple-A Farm Program, it was announced by E. Y. Floyd, AAA executive officer of State College. Last year they earned \$211,881.00 by complying with acreage allotments and carrying out soil building practices.

Floyd said that farmers who expect to qualify for payment in this year's program should sign an individual farm plan before June 15, if this has not already been done. To determine whether this requirement has been met, a producer should check his records to see if he has a copy of the Farm Plan. Floyd stated County Farm Agents and local AAA committeemen are prepared to assist every farmer in understanding his soil-depleting acreage allotments, in working out a goal for soil-building practices, and in otherwise earning his maximum payment.

In addition to the payments for carrying out soil building practices and complying with soil depleting acreage allotments, a Cotton Price Adjustment Payment is available in counties where cotton is grown. This county's maximum Cotton Price Adjustment payment for 1939 is \$2,965.00.

Floyd said that two soil building practices being encouraged this year are the application of triple-superphosphate and ground limestone. Payments may be earned for applying phosphate in connection with the seeding of perennial or biennial legumes, perennial grasses, annual ryegrass, winter legumes, lespedeza, cotularia, or permanent pasture (except in connection with soil-depleting crops). Limestone can be applied to any crop, except that applications of less than 1,000 pounds per acre on peanuts, flue-cured tobacco, and commercial vegetables will not be counted.

The Triple-A is making triple-superphosphate and ground agricultural limestone available in all counties as grants-of-aid; that is, the material is being furnished now with the cost to be deducted from soil building payments next year. County farm agents are prepared to help all farmers obtain the phosphate and lime as grants-of-aid.

TAXES

Whether taxes are or are not business deterrents depends to a large extent upon whether government activities are necessary activities, whether they are efficiently performed, and whether government policies as a whole are sound. Given a certain amount of revenues to be raised, however, for whatever reason, it is obvious that certain ways of raising them will have a more deterrent effect on business than others. What the present advocates of tax revision are now advocating is merely the adoption of the least harmful ways of raising the existing level of revenues and the repeal of the most harmful ways. That problem should not present insuperable difficulties. In fact, there is remarkable agreement among the tax revisionists concerning the necessary program.—New York Times.

HOSTESS AT BRIDGE

Mrs. J. M. Allen II was hostess to her Contract Club Friday. The following club members playing, Mrs. H. J. Lewis, Miss Lucy Timberlake, Mrs. F. W. Whelless, Jr., Mrs. Hill Yarborough and Miss Elizabeth Timberlake. Visitors, Mrs. Mack Stamps, Jr., and Mrs. Frank Rose.

Delicious sandwiches and tea were served by the hostess, assisted by Mrs. H. J. Lewis and Mrs. P. W. Elam.

High score prize was awarded to Mrs. F. W. Whelless, Jr., for club members and Mrs. Frank Rose for visitors.

SAFETY SABBATH SET FOR SUNDAY, JULY 2nd.

Charlotte, N. C., June 6.—Citizens of the two Carolinas are being urged to participate in the fourth annual "Safety Sabbath", sponsored by the Carolina Motor Club in an effort to reduce highway accidents, which will be observed throughout the two states Sunday July 2.

"Ministers, the press, radio, public officials and civic organizations are expected to exert a powerful influence in molding public sentiment against careless and reckless driving at all times and the observance of Safety Sabbath has been set especially before Independence Day in hope that the holiday death and accident toll of 1938 will be materially lowered," Coleman W. Roberts, president of the motor club, stated today.

"Last Year 475 people were killed and over 10,000 injured throughout the nation on July 4. In the Carolinas, 24 lost their lives, 10 dying as result of automobile accidents. Lack of caution and regard for the 'other fellow' were the principal causes of the fatalities."

Suggestions for Safety Sabbath programs, research data and safety facts have been compiled by A. M. Huggins, safety director of the Carolina Motor Club, and are available to all interested parties. Mr. Huggins anticipates unusual cooperation from public spirited citizens and has hopes that the Carolinas will show great improvement this year.

"In 15 years of war there were 244,357 casualties compared with 441,912 traffic deaths in 15 years of peace", Mr. Huggins points out. "In war, soldiers die for a purpose but what purpose can there be in killing hundreds of thousands on the highways of our peaceful country? This slaughter is worse than war and public sentiment is the most rapid and sure way of curbing this disgraceful condition."

Safety information may be secured from Mr. Huggins at his office in Carolinas Motor Club headquarters at Charlotte.

What would Hitler say if agitators started a movement in Germany asking Britain and France to step in and take the country. It might not be a bad idea, at that.

Manton Is Convicted

Ex-Judge Faces Prison In Bribery Case.

New York, June 3 — Former Federal Circuit Court Judge Martin T. Manton was convicted by a Federal court jury tonight of conspiracy to obstruct justice and to deprive the United States of his impartial services.

He faces a maximum penalty of two years in prison and a \$10,000 fine.

George M. Spector, former confidential agent for the late Promoter Archie M. Andrews, was convicted of the same charges.

Three other original co-defendants pleaded guilty at the start of the trial.

The jury, ten men and two women, received the case at 6:15 P. M. (E. S. T.) after a trial of 11 days and returned their verdict about four hours later, after taking an hour out for dinner.

Benjamin Golder of Manton's counsel, asked that bail be continued for Manton pending the filing of a motion for a new trial or notification of intention to take an appeal to a higher court.

Manton's bail is \$10,000. His co-defendant Spector is held in \$17,000 bail.

WEEKLY TOBACCO NEWS REPORT

Henderson, N. C., June 3.—Warm days and nights with a one inch rainfall over all but a few scattered sections of this territory have allowed growers to put ninety percent of their plants in the field through this past week. Crop conditions may be classed as very good, taken as a whole. Sections which did not receive rain continued transplanting, and plants are growing well. In more advanced sections of territory, tobacco is already being worked. Some additional land has been prepared during the past week, with a few growers setting out more than they had at first anticipated. Insect damage reports are very few and well scattered, with growers in all sections very well pleased with crop outlook for the 1939 season. The above report covers Vance, Warren, Granville, Wake, Franklin, Nash, Edgecombe

and Halifax counties, taken as a whole and not individual sections. —Fred M. Allen, Jr., Supervisor of Sales, Henderson Tobacco Market.

Mother—Do you know what happens to little boys who tell lies? — Johnny—Yes, mother; they travel for half-fare.

BETTER SHOWING

Farm agents of the State College Extension Service in mountain counties say pastures and meadows limed and phosphated in the past two years hold up better during dry periods than untreated land.

DO YOU ASK Why Some People Do Big Things?

To definitely differentiate the successful person from the less fortunate has not as yet been explained. What quality is it that accomplishes the desired difference? The answer is still vague. But

Authorities have largely agreed that the successful person is one possessing an outstanding mental and physical vigor or energy.

Many persons who think they are in "top form" in relation to health do not realize their nerve force is partially hindered, not enough to produce or cause an immediate illness but enough to hinder or handicap functions that use the energy.

Leaders in varied activities have found by experience that the Natural Chiropractic therapy and Drugless treatment have served them advantageously in being classed out of the "Just Ordinary" average classification. It is an aid to Nature.

Chiropractic is not advanced as the final and ultimate solution in every case; nor is it pretended as a "cure-all". However, in a majority of instances, success of Chiropractic recommendations when properly followed by the patients has been observed.

FIX UP YOUR HOME

MONEY FOR YOU

We are glad to announce to the farmers and home owners of Franklin County that we have received appointment as Agent for the F. H. A. in Franklin County and can offer you plans whereby you can repair and remodel your home and surrounding and install most any electrical equipment desired. This will include water systems with bath room and lavatories, water heaters, covering or painting houses, building fences, garages or adding rooms. The payment for this is extended over a three-year period at low interest without mortgage, no down payment and farmers do not have to make any payment until the fall.
