

MISS FULLER IS BRIDE OF W. H. HORTON, JR.

Miss Elizabeth Perry Fuller, daughter of Mr. and Mrs. W. D. Fuller, of Wood, and Mr. W. H. Horton, Jr., were quietly married Saturday evening, November 11, at 8:30 o'clock in the First Baptist Church in Louisburg. The Rev. A. Paul Bagby, performed the ceremony. The bride, who was unattended, wore a traveling suit of blue trimmed with fur, with matching accessories. Her flowers were a shoulder corsage of Talisman roses and valley lilies. Mrs. Horton is the only daughter of Mr. and Mrs. Will D. Fuller. She received her education at Mars Hill College, and the Southern Conservatory of Music, Durham. She taught piano, voice and public school music in the schools of Franklin County for a number of years. For the past several years she has been bookkeeper and office assistant to Dr. Herbert G. Perry in Louisburg. Mr. Horton is the son of Walter Herbert Horton and the late Mrs. Harriette T. Horton, of Bunn. He received his education at Bunn High School, and for the past 12 years has been connected with the Texaco Refining Company of Louisburg. Immediately after the wedding, the couple left for a short wedding trip. They will be at home in Louisburg.

PARENTS' DAY

Charleston, S. C., Nov. 14.—The Citadel, the Military College of South Carolina, will hold its annual Parents' Day on November 18. Parents' Day, always an outstanding event of the college year, will be more so than ever before. The parents and guest of cadets will be able to visit any part of the campus that they desire to visit. Barracks, which ordinarily are closed to visitors, will be open for inspection. Also on the program will be the academic buildings, Bond Hall, Engineering Hall, the new Administration Building, new armory and gymnasium, and other points of interest on the campus, including the Cadet Chapel. In the morning parents will register and be received by members of the faculty in Alumni Hall. Literature concerning The Citadel will be available at registration buildings. Luncheon will be served for guests in the Mess Hall. General Summerrall, president of The Citadel, and former chief of staff of the U. S. Army, will address cadets and their guests following the meal. In the afternoon, parents and guests will be invited to attend the football game between Sewanee, The University of the South and The Citadel. On Sunday special Chapel services for various denominations and a general service will be held in the Cadet Chapel, and parents and guests will be invited to attend.

PAUL P. SHEPARD

Funeral services for Paul P. Shepard, 534 North East Street, were held at 11 o'clock Saturday morning at the Tabernacle Baptist Church with the Rev. Forrest C. Feezor, pastor, officiating. Burial was at Oakwood cemetery. Mr. Shepard, for 33 years an engineer for the Seaboard Air Line Railway and a former employee of Norfolk and Western Railway in Ohio, died at his home

Thursday night at 8:30 o'clock after a brief illness. He was a Shriner, Mason and member of Division 339, Locomotive Engineers.

Survivors are Mrs. Sophia Wilder Shepard, his widow; Paul P. Shepard, Jr.; a sister, Mrs. W. A. Spencer, of Guinea Mills, Va.; and three brothers, H. W. and E. B. Shepard, of Guinea Mills, Va., and Sam W. Shepard, of Cumberland, Va.

Pallbearers were J. M. Lowe, P. S. Sargeant, J. C. Van Landingham, J. L. Martin, W. H. Kitchen and A. K. Pearce. Members of Division 339, Locomotive Engineers and Firemen, Lodge 881, attended the funeral.—News-Observer.

Surveys on rural power lines for Richmond County have been continued and prospects for these lines look unusually bright, says Assistant Farm Agent J. P. Choplin.

But It's True

The servant, executed for murder, was immediately operated on by friends who were interested in medicine. He suffered no bad effects beyond a sore throat. You probably have seen little bits of coiled dirt lying on the surface of the ground. These have been disgorged there by worms, which eat the dirt standing in their way as they attempt to proceed through the ground. It just happened that the fathers of the four girls all died before the births of their children, and the mothers all succumbed immediately before the births of the children.

MAIN LINE BUSES

(Continued from Page 1)

express this Board's views and requests with respect to the granting of such applications and installation of such service, which, in the opinion of this Board, is very much needed in this section of the State, which does not now have the transportation facilities that they should have in order to encourage communication between the people in this community and the other sections of this state.

The Town of Warrenton and the County of Warren also adopted the resolutions asking for the same action as will be seen from the following article taken from the Warren Record:

"Resolutions requesting the Utilities Commission to grant the Carolina Coach Company's application to operate buses from Louisburg to Warrenton and on to Roanoke Rapids were adopted on Monday by both the Board of County Commissioners and the Board of Town Commissioners.

"Drawn up and presented to the town and county governing bodies in their regular sessions here Monday by Frank H. Gibbs, the resolutions pointed out that to grant the application would materially improve transportation facilities in Eastern Carolina and afford the public generally a service that it much needs at this time and has needed for some time in the past.

"Members of both boards commented on the benefit and convenience of bus service over the proposed route and readily agreed to approve the resolution and forward a copy to the Utilities Commission.

"The application to operate passenger buses from Raleigh to Conway by way of (Louisburg) Warrenton, Littleton and Roanoke Rapids was filed with the Utilities Commission recently by the Carolina Coach Company. It is not known when a hearing will be heard on the question."

This action is not to be con-

strued as against the present bus accommodations given by the Greyhound Lines, as the people of Louisburg and vicinity are very appreciative for this service and will wish its continuance. There is no reason why one should conflict with the other as they will use jointly only about seven miles of road with otherwise different routes and destinations except in the long distance, which even now exist.

CARD OF THANKS

We wish to express our deepest appreciation and thanks to those who were so kind to us during the recent death of our father and husband. They will be long and tenderly remembered.

How To Relieve Bronchitis

Bronchitis, acute or chronic, is an inflammatory condition of the mucous membranes lining the bronchial tubes. Creomulsion goes right to the seat of the trouble to loosen germ laden phlegm, increase secretion and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding that you are to take the way it quickly allays the cough or you are to have your money back.

Make More Money in 1940

IT IS NOT too early to be making plans for more profit from your crops next year. Start now, while this year's results are still fresh in your mind, to provide for the use of plenty of potash to insure greater yields and quality in 1940. Rusted cotton, low yields and poor quality of tobacco, corn, vegetable, fruit, and legume crops result if the soil and fertilizer do not supply enough potash. Wherever legumes are grown, more potash is needed because of the large amounts removed by these crops and to balance the nitrogen and organic matter supplied when legume crops are turned under. Talk over with your county agent or experiment station your yields this year as compared with what you can expect from your soil if given the right amounts of plant food. Use the high analysis fertilizers recommended. They are cheaper per pound of plant food. Ask your dealer or manufacturer about fertilizers high in potash. You will be surprised how little extra it costs to apply enough potash for the crops which you will plant next spring.

Write us for further information and literature on the profitable fertilization of Southern crops.
