

### Meat Is Reduced In Point Values

#### Other Point Reductions In Processed Foods; Cheese And Fish Go Up

Washington, Dec. 1.—The Office of Price Administration today announced new ration point tables featuring a substantial slash in meat values, 15 point reductions among processed foods, no change in the value of butter and marked increases in the worth of cheese and most canned fish.

The latest monthly point revisions, effective Sunday, constituted the best food news for the nation's housewives since rationing began early this year.

High Points in the changes:

1. The full list of beef cuts, ranging from porterhouse steak to hamburger, is cut two to three points.
2. Both butter and margarine remain at present values of 16 and six points a pound, respectively.
3. Grapefruit juice and other citrus juices will be sold ration-free, as will canned sauerkraut and ready-to-serve soups.
4. Fairly sharp hikes in values for all types of cheeses will take effect, reflecting a precipitate seasonal decline in November production.
5. All canned fish except canned oysters will be raised four points to 16 points a pound because demand has been outrunning civilian supply.
6. All ham and most bacon cuts will be increased one point, keeping half the mid-November emergency reduction.
7. Lamb, mutton, veal and many pork cuts will stay at November levels for the most part.
8. Reductions of one to 10 points will occur in green and wax beans, soybeans, all varieties of canned dry beans, carrots, spinach, dry frozen beans and some other frozen fruits and vegetables.
9. Only three items—tomato soup and the two tomato sauces—will be raised in value on the processed list.

### Negro Soldiers Dispersed by Police at Vance Jail

Henderson, Nov. 28.—Police Chief J. E. Parks said today that a group of Negro soldiers from Camp Butler came to police headquarters here shortly before last midnight and demanded release of three Negro soldiers who had been jailed earlier in the evening.

Several hundred Negro soldiers from the camp attended a dance here, and three were taken into custody by police who said their conduct was boisterous.

The number who came to demand release of the three was estimated at 50. Chief Parks ordered the men to disperse and leave as other policemen, armed with riot and sub-machine guns, lined up in front of the building.

Officers said some of the soldiers muttered as they left that, "We'll be back," but Parks said they never came back and there was no further trouble.

Camp Butler authorities were notified, and soon a truck-load of military police arrived. The three Negroes held by the police were turned over to military authorities.

### Fortresses Raid Industrial Town

London, Nov. 30.—American Flying Fortresses, winding up the Eighth Air Force's best operational months of the war, today bombed the Ruhr city of Solingen, east of Duesseldorf, by daylight in the first Allied attack on that target, site of a high-grade steel plating mill and a plant making metal alloy for German fighter planes.

The big four-engined American bombers, accompanied over their target by Thunderbolts and Lightnings and covered in withdrawal by RAF, Dominion and Allied Spitfires and Typhoons, had an unusually strong escort for the mission, which brought the month's total of American heavy bomber attacks from Britain to a record 11.

Two heavy bombers and five fighters were lost, while seven enemy aircraft were shot down, six by the withdrawal-covering fighters and the seventh by a Fortress.

With a population of 150,000, the city was described in an Eighth Air Force report on the raid as "one of the most industrialized cities of the Rhineland" and the home of the largest non-ferrous metal casting foundry in Europe. The foundry's production was used in building German fighter plane engines.

Solingen, three miles square, lies 1 mile southeast of Duesseldorf. It was well-known for the manufacture of cutlery and weapons even in peacetime, and was celebrated in the middle ages for its sword blades.
