V FOR VICTORY TOWN COMMIS-Nature Leaves Another : SIONERS MEET Mean Much

A most interesting freak of nature was discovered in Louisburg Tuesday by near-by residents, in the shape of a perfect V underscored by heavy line. This V was made of snow and was left on the

of snow and was left on the trunk of a tree in the front yard of Mr. John S. Howell's residence on Church Street, left by the melting snow that afternoon, Neighbors say the underscore line was perfect. as was the V. The TIMES reporter saw this freak of na-ture on Wednesday morning and found it as represented except that the underscore line was almost gone. The V was about 12 inches across the top and about the same in length. While it could have been made by an artisan it showed no signs. In fact it gave all evidence of an at-mospheric and weather freak. 8,000 3,500 2,500 1.200 1,300 1.000 mospheric and weather freak. This has caused much spec-

ulation. The one mostly sug-gested, and of couse the most naturally desired, is that it means a war victory this year. For the sake of satisfying our greatest desires lets accept it and hope for its fullfillment. However occurrences of this kind need not be a freak to be laughed at except through ignorance. There is hardly any doubt but that **Providence has its own ways** and methods of giving us messages. The unhappy part is that we are not enough enlightened along some course of life to understand them. It may be just a natural freak, even though it was a

perfect one. Yet it can also be a great message from the great beyond to us here on

earth.
