Edward Best played Bunn Tuesday night. Edward Best girls won, and Bunn boys won. Tournaments start next Monday and last through Saturday night. All of you be sure to go and support your team.

Last week end Frankie R., Buddy O., Ricky E., Al B., Mike P., Chris B., and Butch S., went to Skateland in Henderson. Heard you boys really had a time, especially you, Buddy. Want to tell us about it, Buddy?

The students of Louisburg School had a nice little vacation Monday. Because of the electricity being off, the school was like a "block of ice." Since it was so cold school was dismissed early so everyone wouldn't "freeze to death." It was very uncomfortable, but it was worth it to get out early. Hope no one has a cold from it.

Word has it that Fes Cannady from Franklinton is in the Air Force and is stationed in Colorado. He has been sent to Denver to a technical school to study electronics. He says that it is very difficult there and he has to study very hard. It will be about the second week in May before he can come home so I'm sure he would appreciate all the mail he can get from home. His address is: A3C John F. Cannady, Box B910, Lowry AFB, Colorado.

William Rowe from Louisburg has become an honor guard in Washington, D. C. Jimmy Chesson has become an uncle again. His sister, Nancy, and her husband, Nick Perry, have a new little girl. Congratulations go out to you, Nancy and Nick.

If some of you are wondering where to go this week end, remember Lake Donna in Youngsville. They usually have very good combos there on week ends.

Louisburg College plays Roanoke in Roanoke Saturday night. Louisburg is the number one team in the Cavell-Tar Conference. Congratulations!

The thought for the day is: "The way to cheerfulness is to keep our bodies in exercise and our minds at ease."--Steele

Kittens

Two kittens were watching a tennis match. One said to the other, proudly: "My mother is in that racket."

WILL CHILDHOOD BE THE ONLY FREEDOM THEY WILL KNOW?

Personal freedom can slip away a little at a time, as quietly as children grow. It can be destroyed by forces from within our borders. Subtle forces—like the steady expansion of Federal Government in business, and the effect it has upon our daily lives.

Already our Federal Government owns many thousand businesses. In the field of electricity alone the output of Federally owned electric plants has now increased to more than 15% of the industry's total. And there are those who would put

the government even deeper in business. When any government owns business, it can control both goods and jobs. When it does that, it can tell you where to work, where to live, even what to do or say.

In the light of this, can you see any reason for our government to own and manage any business like electric power and light, where it is not needed? Isn't it best to leave that to companies like CP&L who have proved that the American traditions of individual effort are what give our nation strength?
