### Cutback On Bases

Washington, D. C. -- Robert McNamara, Secretary of Defense, said that the closing of the 95 military installations, great and small, will not diminish the fighting ability of the armed forces. Over the last four years 574 United States military bases have been closed around the world. The Pentagon chief said these bases "have outlived their usefulness for military mission."

## Epsom Teams Split With Zeb Vance

A fourth quarter rally by Epsom high boys was good for a 66-56 victory over the Zeb Vance High Rebels, while the Rebels got an even break for the evening as the girls won a 29-27 thriller over Epsom lassies in the opener. The non-conference basketball doubleheader was staged on the hardwood at Zeb Vance last Wednesday night.

Each team had three boys in double scoring figures. Leaders for Epsom were Linwood Patterson, with 16 points, Mike Smith, with 15, and Nelson Hedgepeth, with eleven. For Zeb Vance it was Allen Stone, 18, Steve Satterwhite, 15, and Carl Satterwhite, who added ten.

The battle was nip and tuck until the final quarter. The Rebels were out front by 11-10 in the first stanza, then Epsom's Tigers recovered for a 26-24 halftime margin. In the

third period Zeb Vance regained the margin, 44-42, but the Tigers again rallied in the fourth quarter to move away by ten points.

Zeb Vance girls avenged an earlier loss to Epsom lassies by pulling out Wednesday night's decision, 29-27. Now each holds a perfect record for the season except for one loss to each other.

The skirmish went down to the wire before the outcome was decided. The halftime count was 14-13, with the Rebels on the big end.

In the final two minutes of play, Zeb Vance trailed by 27-23, then forward Mildred Keith was fouled twice and made all four free throws to knot the count at 27-27. With the clock showing four seconds to go, Keith connected on a floor shot to provide the winning margin.

Building College Baseball Field

## Louisburg College To Get Athletic Field

Work has begun on a new athletic field for Louisburg College, it was announced November 30, by college officials. The college owns approximately eighteen acres of undeveloped land on the west campus, part of which will be used for baseball and track in the coming spring. All work on the project

is being donated by interested friends. Gregory Poole, Jr., college trustee, of Gregory Poole Equipment Company, Raleigh, N. C., is supervising the work and donating the use of heavy machinery with operators for grading the area. Drag-line operations were recently completed by Radford's

Drag-Line Service of Centerville, N. C., with Lonnie and Edward Radford donating their services and equipment to the college.

After grading is completed the college plans construction of bleachers and lighting facilities as well as a spacious parking area. The Athletic Depart-

ment of the college will seed the field for baseball use, and prepare the track.

Friends interested in assisting with this segment of the development of Louisburg College should contact the office of the Director of College Relations.
