

**Thanks**

May I use this media to thank my friends and relatives for their many deeds of kindness shown me during my recent illness. Your prayers, cards, flowers and visits were instrumental to my recovery. Also to my doctors and to the staff of Franklin Memorial Hospital, I would like to express my sincere appreciation for the attentive care given to me while I was a patient there. I shall always be grateful to each of you.

G. Ernest Hayes

**In Fashion Now**

The Chanel-type suit continues to be a favorite in the new spring collections. English designers seem to favor the gray suit with a white blouse. Some of these blouses have floppy collars, others have bows. Skirts are short. Fancy hose, some of black or white lace are being shown with spring cottons. Polka dots are in the picture and may be the design for blouses or dresses. Other creations are fashioned of gayly printed materials, principally used for home and sports wear.

**1965 FEED GRAIN PROGRAM:**

Monday, February 8, the 1965 Feed Grain Program began and will continue through March 26, 1965. Basic requirements to participate:

1. It is a voluntary program and feed grain producers must sign an application during the sign-up period.

2. At least 20% of the feed grain base must be diverted. The largest acreage on which payment can be made for diversion is the larger of 50% of the base or 25 acres (farms with base acreages of 25 acres or less may divert all of their base acreage).

3. There are two diversion-payment rates. If the minimum or 20% of the base is diverted only, the smaller rate will apply. If more than 20% is diverted but not as much as 40% the smaller rate will apply to the first 20% and the larger rate will apply on the remaining acreage diverted. If as much as 40% of the base acreage is diverted the larger rate will apply to all of the acreage diverted.

4. A producer with a feed grain base on more than one farm may limit his participation to one farm. However, he must stay within the feed grain base on any other farm in which he has an interest. The County ASCS Office started accepting applications from feed grain producers Monday, February 8.

**1965 COTTON PROGRAM:** Cotton producers whose 1965 allotments are 15.0 acres or less will not have to sign an application under the 1965 Domestic Allotment Program during the sign-up period, February 8 - March 26, 1965. This means that the majority of cotton farms in Franklin County are exempt from this sign-up.

Cotton producers whose 1965 allotments are more than 15.0 acres should come by the ASCS Office during the sign-up period and have the program explained. A price support payment of 4.35¢ per pound will be paid on normal yield on planted acreage provided they agree not to plant more than the larger of 65% of their acreage allotment or 15.0 acres.

Each cotton farmer has received a notice of the domestic allotment on his farm and the price support payment rate. If your allotment is over 15.0 acres, it will be to your advantage to come by the ASCS Office during the sign-up period. The price support payment you will receive on planted acreage will more than offset the acreage you will have to reduce to be eligible for the payment.

**Thanks**  
Mrs. Mattie White Perry and family wish to thank those who showed kindness and sympathy in the loss of her daughter and son-in-law, Mr. and Mrs. Harris Williams.  
May God bless you.  
Mrs. Mattie White Perry and Family

The Best There Is

After six great years like this what could Pontiac possibly come up with next?

**The 1965 Pontiac: Car of the Year! That's what!**

We had to reach a climax somewhere along the line. And what better climax for a car than to win Motor Trend's Car of the Year Award for 1965? Nothing could please us more, except maybe the way people are buying our cars. And they are. Drive one and find out why. First thing you know, you'll buy one, too.
