

Useful Tips About The Home

When decorating a hall, living room or dining room, you have to plan schemes that will please everyone in the family. In decorating a bedroom, it's different—please only the person who uses it.

This goes for children's rooms, also. Don't worry if Junior's taste runs to bottled snakes or Sister's taste in ruffie seems a bit-too-too. Children's tastes will develop as they grow.

Pastels have long been popular for bedrooms because they are restful. However, don't hesitate to use dark green or brown if that's what the occupant wants. Just be sure the room has good light and use plenty of light colors with the dark.

To make a small bedroom seem larger, try papering one wall with a bright paper and paint the other walls in a solid color. Try the bed against the

papered wall. The effect is usually very attractive.

The floors in the children's rooms take a beating, so why not try linoleum or tile here? It will be attractive and easy to clean.

Today it's not necessary to buy a matched suite of bedroom furniture. Old chests and shelves also box springs and mattresses mounted on legs can be made to look very smart. In the meantime, you can be buying the good bedroom furniture piece by piece as you can afford it.

For the not-too-large bedroom that must be shared by a couple, twin dressers pushed together under one big mirror and twin beds with one large headboard are just right.

Even if the worker is worth his pay there are people who dislike paying him.

Health And Beauty

Far more than anything else (other than your complexion) your teeth are responsible for your good looks. It is true that people with very good teeth and beautiful teeth take them for granted and even abuse them.

Your teeth are responsible for the younger or older contour of your face. They determine the pugnacious jaw or the sadly receding chin. They even determine whether you will develop the aging habit of pulling your upper lip down over your teeth when you do smile.

Many older people who have had unsightly teeth all their lives have to be taught to smile after a dentist has capped their teeth. If you don't think an attractive smile is important, just think how many songs have been written about the effects of a smile.

We are told the emotional benefits of cosmetic dentistry are so startling that the capping of unsightly teeth has accursed people get well more rapidly.

Dentists and orthodontists have all kinds of newly developed techniques up their sleeves. Front teeth which are too long for an attractive appearance or proper bite, can be skillfully filed to proper size in a matter of minutes.

Your teeth may not be perfect, but you like them just as they are. If this is lucky you, all you will need to do is to take the proper care of them with regular dentist visits and proper foods.

Wrong Customer

A man rushed into a bar and asked the bartender, who was busy wiping the bar, if he knew anything that would stop hiccups. The bartender's answer was a slap across the man's face with the wet bar towel.

Surprised and furious, the stranger demanded the reason for such action.

"With a placating grin, the bartender replied:

"Well, you haven't got any hiccups now, have you?" "I never had any," the man said indignantly. "I wanted something for my wife. She's out in the car."

In Fashion Now

Swimsuits this season come in a variety of styles. A feature of the new suits is the uncovered shoulder--only one is covered with a strap or bow. A favorite material is stretch nylon.

Bareness is also apparent in other beachwear. One outfit with a long skirt has one uncovered shoulder and a bare midriff.

Short shifts are used to cover bikinis--crepe or sharkskin are two favored fabrics.

Pastor Sentenced

Greensboro, N. C.--When the Reverend Nicholas M. Staras ran a red light, Judge Benjamin Miles dismissed court charges provided he would preach one sermon a year on traffic safety. The 45-year-old pastor of the Greek Orthodox Church said he would.

Differences of opinion are the stimuli that lead to honest conclusions if anybody wants to be intellectually honest.

The man who admits a foolish act is to be trusted. The "wise guy" who is never wrong is a fool; leave him alone.
