

# Gold Sand Downs Franklinton In Four Overtimes

The theme of the holiday tournament at Franklinton last Thursday night might well have been, "We could have played all night." It took almost this much time for the Gold Sand Blue Devils to down the Franklinton Rams in four overtimes, 77-74.

Franklinton led at the end of the first period, 16-11, and stayed ahead through the third period at halftime of 31-27 and a comfortable 41-30 lead entering the final period. However, the Blue Devils came roaring back in the final frame, outscoring the Rams 22-10, to tie the score at 59-all.

Each team, of course, scored the same in the first three

overtime periods, with Gold Sand edging out the victory by outscoring the Rams 4-1.

Bill Hight led the victors with 19 points, and Tom Cooke hit 30 for the Rams. In the other holiday festival game, the Wakelon Bulldogs outlasted the South Granville Vikings, 77-70.

Play resumes in the Franklin County League tonight with the Rams meeting the Blue Devils again at Franklinton. The holiday games did not count in the standings.

**WAKELON 77**  
**SOUTH GRANVILLE 70**

Score by periods:  
Wakelon - 16 17 19 25--77

# Louisburg, Bunn Get Wins

The two Franklin County teams of Bunn and Louisburg fared well in the first Louisburg Invitational Holiday Festival held here last Wednesday and Thursday nights.

Louisburg downed Littleton Wednesday night, 66-50, and took the measure of Gaston Thursday night, 65-60. Bunn topped Gaston in the first night's play, 66-49, and downed Littleton Thursday night, 63-49.

Donnie Southerland led the Bulldogs against Littleton with 19 points, and Glenn Woodlief was tops against Gaston with 16. Hurdle led Littleton against Louisburg with 17, and Johnson was high for Gaston.

Thomas Lewis and Jones led Bunn against Gaston with 16

points each, and Lewis was tops against Littleton with 20. Talbert, with 22, led Gaston and Hurdle, with 22, led Littleton against the Bunn Bulldogs.

Bunn and Louisburg resume conference play tonight when they clash at Bunn.

## ASC Manager Writes Producers

Dear Producer:

The purpose of this letter is to give you some information concerning ASCS programs for 1966. It is impossible to discuss all of the programs in detail, but I hope the following information will help you to better understand the various programs. If you have any questions concerning these programs, please stop by the County ASCS Office and we will be glad to discuss them with you.

**SIGNUP DATES FOR 1966 PROGRAMS:** The signup period under the 1966 Cotton, Feed Grain, Wheat, and Cropland Adjustment Programs will begin on Monday, January 17, 1966. The closing date for producers to enroll in these programs is April 1, 1966.

**1966 PREMEASUREMENT:** Premeasurement will again be available to producers who request it. Requests will be accepted on a first-come, first-served basis with no limit to the number of requests accepted. The County ASCS Committee has established the following charges for premeasurement services:

Rates of \$1.20 per acre for tobacco and \$.80 per acre for other crops with a minimum of \$9.00 per farm.

**AGRICULTURAL CONSERVATION PRACTICES:** The county office will begin accepting requests for government assistance for agricultural conservation practices beginning January 3, 1966. Practices for which government assistance is available are as follows: permanent pasture or hay, tree planting, forest improvement, sod waterways, winter cover, farm ponds (Excavated and Water Impounding Dams), terracing, vegetative cover and crop rotation, lime on eligible farm land, permanent pasture or hay improvement, land smoothing, stripcropping.

**1966 COTTON PROGRAM:** The new cotton program is similar to the 1965 Feed Grain and Wheat Programs in that producers who sign up to take part in the program and plant some cotton can expect to receive diversion and price support payments. Producers with allotments in excess of 10.0 acres must divert 12.5% of the allotments if they wish to be eligible for all the benefits. A producer with an effective allotment of 10.0 acres or less can plant the entire allotment and receive diversion and price support payments provided he signs an agreement during the sign-up period. Also, he may actually divert up to 35% of his allotment and receive another diversion payment. The maximum acreage any producer may divert is 35% of the farm's 1966 allotment. It is very important that every cotton producer understand that he must sign up at the county office during the sign-up period if he wishes to receive any of the program benefits.

**1966 WHEAT AND FEED GRAIN PROGRAM:** The 1966 feed grain and wheat programs will be very similar to the program available for 1965. Farmers may earn diversion payments and become eligible for price support payments and price support loans by diverting a portion of their feed grain and wheat.

**CROPLAND ADJUSTMENT PROGRAM:** The cropland adjustment program is a voluntary program to help farmers to divert cropland from the production of crops into conserving uses. Under this program, farmers may sign up any one or all of their allotted crops, feed grain, and non-allotment base. Farmers signing up will receive annual adjustment payments each year for the five- to ten-year period. Payments will be based on the farm yield for the commodity. Payments for the various commodities in North Carolina are as follows:

Cotton per pound, \$.08; flue-cured tobacco per pound, \$.12; wheat per bushel, \$.56; corn per bushel, \$.47; grain sorghum per bushel, \$.37; barley per bushel, \$.36; non-allotment bases, \$.450 per acre.

The acreage diverted under this program must be seeded to an approved cover. Cost-sharing will be available to share the cost for carrying out the practice.

**1966 TOBACCO LEASE AND TRANSFER PROGRAM:** Under the new program, producers need not concern themselves with farm normal yield differences since tobacco will be transferred on a pound-for-pound basis. A producer who wishes to know the maximum poundage that can be transferred to his farm may determine this by multiplying his farm's normal yield by 5.0 acres. Lease agreements will be for one year only and forms are now available at the county office for producers who are interested in transferring to-

## College Resumes Play Tonight

The Louisburg Hurricanes swing back into action this week after a two-week holiday lay-off with three games. They travel to Mount Olive College tonight, go to Hargrave Military Academy Thursday night, and meet Newport News Apprentice at Louisburg Friday night.

The Hurricanes have a three-game winning streak going, having beat Mt. Olive, Danville, and Newport News in their last three outings. Louisburg has a

1-1 conference record and will have one of the most important games of the year Jan. 11 when they meet Ferrum College, the conference leader. The Ferrum club has an 8-2 record, their only defeat being 110-109 to Rockland Community College of New York in a holiday tournament and 92-90 to the Virginia Frosh at Virginia. They are led by Junior College All-American John Quinn, with a 24.2 average.

## Glenn's Appointment

Washington, D. C.--In a White House announcement, President Johnson has appointed former astronaut John H. Glenn, Jr., a retired Marine Colonel, as a member of the National Air Museum Advisory Board. The board advises the President on how to memorialize the development of U. S. aviation and also collects objects for museum display.

Children would probably be much better if they didn't have the example of adults to follow.

## Behavior Code On Moon

Washington, D. C.--President Johnson has been asked to seek international agreement on "a code for human activity on the moon" to prevent it from becoming a military base for any nation. The proposal was made by a citizen's committee of scientists, space experts and educators.

The real art of living includes the art of loafing.

Flat statements are usually made by flat-headed people.
