The Senior class at L.H.S. has been selling subscriptions to The Franklin Times this week. This is one of the many money-making projects for the year. We need all the money we can get, so if a Senior comes by selling something, buy it if you can. Please let me know if you have any news. Call me at GY 6-3066.

This week must have been predestined in the stars as "sales week" or money-raising and money spending week. The Junior class is selling magazines to finance the Jr.-Sr. banquet. I'm sure the Juniors will appreciate any subscription you might take.

The Annual Staff and Senior Class are selling subscriptions to The Franklin Times. In order for the '68 Phantom to be the "best yet", we need to sell as many subscriptions as possible.

Then, of course, we have all those chances to be sold by the younger ones for prizes at the Halloween Carnival. Tickets for the P. T. A. Barbecue-Brunswick Stew Supper are also on sale.

This is also the final week in which to buy ads for the annual.

The Juniors have been busy discussing class rings and all the problems and aspirations of making deposits on them.

By the way, how do you like the new art objects in the library? No, I didn't mean the librarian sitting on the table!

Talk about finally getting in the swing of things, how about basketball and cheerleader practices, annual staff meetings, Student Council meetings and unprepared for "pop" tests for a starter? Really got the ball rolling, eh? "Can't stop now baby, let it all hang out."

Monday morning started off with a bang, didn't it Tommy? Never can tell what might happen!

Seen around Youngsville lately include Jimmie Keith, Janice Pearce, Wiley Brown and Jones Winston.

Birthdays wishes go to Darline Cooke.

Don't forget to send in five dollars for the SAT by October 26 if you plan to take it December 2.

To Work With Blind

Raleigh--Miss Emma Ruth Bartholomew, a sophomore at Meredith College and daughter of Mr. and Mrs. Harvey Thomas Bartholomew, 510 East Nash Street, Louisburg, has been selected to work with the Blind School Project for the Meredith Christian Association this year.

The purpose of the project is to provide a friendly link for the children at the school with the community. The girls are divided into two groups with one group visiting the children every Thursday for an hour. One special group of six girls goes every Thursday to work with Club Scouts.

The Car Got The Worse Of It

A group of Louisburg College students pose in the traditional Sadie Hawkins Day attire here Friday. The youngsters decorated the automobile with names of their instructors and proceeded to hammer the vehicle to pieces as one of the new innovations of the Day. Also featured was a parade downtown, the traditional chase by the girls, the marriage ceremonies and a greasy pig race.

KNOW YOUR RIGHTS

If you collide with another driver at an intersection, who's entitled to collect--you or the other guy? If you know your rights, you'll be able to help practice and preserve American freedoms that are yours by law and heritage. One basic freedom is the right to know; presently, you can look at government lists of American car owners, beauticians and the like, but if some people had their way, you would be denied this freedom!

What?

Joe--I met a girl last week who does not drink anything stronger than pop.
Moe--And what does pop drink?

When you get rid of the idea that your mission is to regulate other people you are in a position to improve yourself.

In Fashion

Long sleeveless dresses of wool for evening are being featured in some shops. They may have jeweled necklines or have side panels decorated with buttons or glitter.

Side closings on street or evening clothes seem to be a popular trend in the new clothes.

Another feature of some garments is the single box pleat in the front of the skirt--usually beginning from a belted high waistline.

Belts are being used in different ways. They may cross over the back of a coat, disappear under a front panel or circle the waistline.

How to Make Exciting New Decorative Thread Flowers

Colorful new decorative flower pom-poms, made of gay spools of Talon thread, are a unique way to give your home a sparkling new look.

Stunning centerpiece, using styrofoam base, can be made by grouping colorful thread pom-poms with interestingly shaped leaves, ferns and other greens in their natural color or with greens sprayed gold or silver.

Thread pom-poms are so easily made. All you need are spools of the thread, single edged razor blade, green pipe cleaners or florist's wire and florist's tape.

1. Cut thread across spool with blade.
2. Remove thread from spool in one complete section and tie in center with matching thread.
3. Loop pipe cleaner over center of thread; secure tightly in place. Shake thread, and flower is complete. OR...Use florist's tape and tape string (used to tie thread together) to wire. This prevents separation in middle of flower.

Gay thread flowers give a festive air to home decor the year 'round and are a real conversation piece when used to decorate for special occasions.

It's such fun to see them "burst into full bloom" you'll think of any number of creative ways to use them.

Bake Sale

Mrs. Forrest House issued a reminder today about the Sandy Creek W. M. U. Bake Sale and Bazaar. It will be held Saturday, October 28, 1967 from 9 to 5 p.m. at the Centerville Fire House.

Lots of people, in this modern age, will be surprised after death if they find out that there really is a devil.

Thanks

Words cannot express our appreciation of friends and neighbors who shared our sorrow during the illness and death of our beloved mother. We wish to thank all for their kind deeds and beautiful floral tributes to her memory.

The Family Of The Late Mrs. Martha Massenburg

Obviously, so important a job is never done

To many people who live in remote areas, the convenience of electric power is an exciting new experience brought to them by a rural electric cooperative.

Last year alone more than 150,000 new consumers were served by rural electric power lines. Many of them were getting electric power for the first time.

In addition to serving many new consumers each year, rural electric must keep pace with the growing demand by existing consumers. In the past ten years the average monthly load on rural electric lines has nearly doubled--from 263 kilowatt hours in 1956 to 507 kilowatt hours last year.

If rural America is to continue to grow and prosper, the increased power needs must be met now and in the future.

Yes, the convenience that comes with the flip of an electric switch is commonplace to so many of us. But until all of us--rural and urban dwellers alike--enjoy that same convenience, there is an important job still to be done.
