Our oil was good enough for everybody. Except us.

People thought Dino Supreme was about the best oil you could buy. But it still wasn't good enough. For us! So we set up some new standards. Even above those of the car makers. And developed a new 10W-40 oil. Then we tested this newly formulated oil against four top multi-graded motor oils. We came out ahead. In protection against sludge formation. It proved we were good enough for ourselves. And better than good enough for your car. If your car had a mind of its own, it wouldn't run without us.
