**Big Larceny**

Ending a lecture on the atomic theory, the physics instructor wrote an equation on the board and stated a certain number of electrons were involved. From this he developed an entire board full of equations, winding up at the bottom with, "So you see we have five less electrons than at the start. What has become of them?"  
 Not a sound from the class. The instructor asked again, "Students, where are those electrons?"  
 Then, from a rear seat came a gruff command: "Don't nobody leave dis room!"
