DO YOU LIKE THE FUZZY PEACH SKIN?

Lots of people love peaches, but can't stand to bite into that fuzzy skin. It gives them the shivers.

There's a solution that heats laborious peeling. Dip the peach into boiling water for 20 or 30 seconds. Then plunge it immediately into ice water. And presto, the skin will slip off easily. Isn't that good news, peach-lovers?

Here's more good news. Right now, your A&P has piles of peaches... plump, well-filled-out, juicy peaches... the kind that make the best eating.

So, peach-lovers, now that the fuzzy skin problem is solved, you can buy them by the basket-full.

If you buy a lot, remember, peaches ripen rapidly at room temperature. If they're to be held, keep them in the refrigerator.

One more thing you should know. A&P is a peachy place to shop for more than just peaches.
