Ballots To Be Mailed By September 5

Community committee election ballots will be mailed to all known eligible voters around September 5. The voted ballots must be mailed and postmarked or returned to the County ASCS Office by September 16. Any person who thinks he is eligible to vote and does not receive a ballot shortly after September 5, should contact the County ASCS Office. The voted ballots will be publicly tabulated by the County Committee in the County ASCS Office on September 19 beginning at 9:00 A.M. The newly elected community committeemen will meet in a county convention in the County ASCS Office on September 25, for the purpose of nominating and electing persons to fill the vacancies on the County Committee.

- The 1970 Wheat Program announced by Secretary of Agriculture Hardin, contains five important features:
1. The national average support-level will be \$1.25 per bushel. This is unchanged from recent years.
 2. The diversion payment rate has been increased to 50% of county loan rate times projected yield.
 3. A 12 percent reduction in farm allotments.
 4. Wheat Marketing Certificates will be paid on 48% of the projective production.
 5. The option under which a producer can substitute the planting of wheat for feed grains or feed grains for wheat in any combination, will be available.
- This new program is aimed at strengthening the U. S. position in world markets and at continuing the effort to bring wheat production into line with needs.

Nearly every problem can be solved by persons not involved; consequently, if we could shift the world's people around, there would be no problems.
