Also Mrs. Tilson noted that the music, literature, art, food, clothing of the countries we seek to explore should be good background information for better understanding of these foreign policies.

The Louisburg Branch plans to study the policies for

In Fashion

Bags with shoulder straps have regained popularity this season. Heretofore such bags were used with sport and travel clothes but now we have strap bags with evening clothes.

One of the designers is featuring printed long sleeve blouses with solid color jumper dresses.

Pockets are in this season and they can be useful as well as ornamental.

A smart touch on a tailored dress can be a flat bow at the side of the wastline.

This is the month of the meteors but, so far, we have had little luck in seeing them as they pass through the skies.

More Important

"Good heavens! How terrible!" cried the professor as he finished reading the note left behind by his daughter who had run away.

"What, whatever is the matter, dear?" asked his wife.

The professor handed her the letter.

"So, she's eloped with that Kelly fellow," was the wife's calm comment. "Well, I can't say it's a complete surprise."

"But, she spells 'eloped' with two l's," wailed papa.

LUXURIOUS—Two bright ideas for after-bath wear: Japanese style kimonos in rich cotton terry. One is a screen-printed butterfly design in luscious colors and the other is a bold black and white motif that says "I love you" in Japanese. Both were created by Hanase Mori for Royal Robes from the original towels she designed for Martex.

Health And Beauty

Do you feel discouraged? Are you depressed? If so, how can you change your mental outlook?

Go out of doors and commune with nature; there is nothing more soothing and interesting. It is delightful to watch the bees flying up to the flowers with such a business-like air about them and burying themselves in their sweet depth to steal the honey.

Little do they know that wise old Mother Nature sent them there for a great purpose. They carry off the pollen on their bodies, and in this way fertilize the next flowers that they visit and so assure a crop of seeds or fruit. Thus they are engaged in making the honey that is necessary to their existence, and is an important food for the animal kingdom.

All nature is busy. Solomon said, "Go to the ant, thou sluggard; consider her ways and be wise." The ants do not spend their days in idleness expecting the government to support them. They do not have that kind of government. Each member of their commonwealth is expected, even required, to carry his own burdens. If he is too lazy or indifferent, he is either driven out to starve or he is put to death.

The Bible says, "If a man won't work neither shall he eat." Though the ants never studied theology, instinct has taught them that one must work and carry his own share or responsibility in order that all may prosper. Right here it is difficult not to do a little philosophizing.

When we were pioneers, men and women worked to support themselves and develop the country. Now, there are so many drones who are encouraged by our government to ride on the backs of the overburdened taxpayers, that our whole civilization may collapse.

In the days of our pioneer ancestors in this country not many people suffered from mental depression, not very many were neurotics. It was because they were too busy earning a living for themselves and their large families.

(Cancer, June 22-July 22)

The spoon chrysanthemum is the flower of those born under the sign Cancer, moss agate their birthstone, and emotion their main characteristic, according to FTD florists.

Cancerians have a well-

developed protective streak, and if female are instinctively drawn to domestic life. Male Cancerians have strong feelings about preserving the family unit and home.

It's not at all surprising that Cancerians beautify their homes throughout the year with colorful flowers.

Cancerians are protective and tenacious, and this is why they must guard against clinging too tightly to others for security.

Sad Case

"Now, what do you do in a case like that?"
"Like what?"
"They tell me to strike and my wife tells me to keep on working."

Real Nice

Mike: "This is a great country, Pat."
Pat: "How's that?"
Mike: "Sure, th' paper sez yez can buy a folve dollar money order for eight cints."
