ONE HAND BEATER WHIPS UP EXCITEMENT

A one hand beater whipped up a lot of excitement at the recent National Housewares Show in Chicago. The beater, a gem of a gadget from the Ekco Housewares Company, is characterized by a modernistic wing design and strong, tension spring action that makes mixing, beating or whipping almost effortless! Constructed of bright sturdy polypropylene, the beater is not only dishwasher proof, but it is non-damaging to Teflon surfaces. That means you can whip away to your heart's content without fear of scratching your favorite cookware. The one hand wonder comes in a choice of three colors: black, pineapple and avocado; and it costs only \$1.00. So why not whip on down to your favorite housewares department and treat yourself to a one hand beater and a bit of the good life. On second thought, why not buy two? ... One for each hand!

I like work; it fascinates me, I can sit and look at it for hours.

Ports Of Call

By Edward H. Sims

This is the perfect time of year to visit Florida if children are grown and not a limiting consideration concerning travel plans. The big influx of winter tourists doesn't begin until December, or late November at the earliest; the biggest migration comes after Christmas.

But by then the weather is colder, both in Florida and in southern California. October and early November in Florida are actually more pleasant than summer. It isn't overly hot every day-and swimming is excellent, the water being quite warm. Nights are cooler and better for going out or sleeping.

The hurricane threat is not what many think it is in Florida. Even if there are one, two or three hurricanes a year, they add up to heavy rainfall in most cases, and one gets ample notice of the approach of these storms nowadays.

The Gulf coast is delightful in fall. It never is the honky-tonk paradise of Miami, at any time of the year, and in fall it is even more quiet with children in school. The area from Tampa to Fort Myers has special attractions for shell hunters, swimmers and fishermen, and the beaches along the Gulf coast are without doubt the most beautiful in Florida.

On the east coast one finds equal charms of course. There one has to surf, more and older resort stops, a little less fog and a little more sunshine-according to some charts-and a little of everything. There are wide Atlantic beaches like that at Daytona and though the sand isn't really sugar-white like that on the Gulf, there is more sporting action in the rougher water. There may be a slightly greater variety of fish to be caught.

Prices are a big inducement at this time of the year. They rise about December 15th, or maybe December 1st, but until then-and the weather is better between now and then-one finds the best sea resort bargains in the United States.

And in Florida one can eat well for very little; perhaps nowhere else in the country

can one enjoy such well cooked food at similar prices. The roads throughout the state are good and driving a pleasure and on the super highways and turnpikes one can average seventy or slightly above for miles and miles at a clip.

PARTY CLEANUP BLUES

You buy a rug, have a party to show it off, and then a guest spills coffee on the new carpet. The secret to getting up the spilled liquid before it spots your prize is to blot as quickly as possible with Kleenex paper towels which absorb up to seven times their weight in liquids. Place towels over the spot, and blot hard, pressing down with your fingers. Never rub or you might spread the stain. Change towels from time to time until no more moisture is absorbed. Then lay a half-inch thickness of dry towels on the spot, weighted down with heavy books, for at least eight hours. Afterwards, lightly brush up the carpet with a clothes brush. You won't believe there was ever an accident!

READY FOR RAIN - Count Romi conjures up a fashionable look for rainy days. In water-repellent cotton velveteen, the bold-printed coat comes with a matching umbrella.

FISH-IN: FUN ON A BUDGET

If you think food prices are getting out of sight, make your next party a Fish-In.

Let appetizing Booth fish sticks and steaks hold center stage. Their crispy, crunchy, home-style breading makes them popular with tots, teens and grown-ups. And they cost only a fraction of what you would spend for hot dogs or hamburgers.

Here's a complete buffet menu for your Fish-In. Vary it by age-group. Provide teenagers with aerosol cans of cheese spread. They can decorate fish sticks and steaks with protest slogans, symbols and flowers. Adults will enjoy beer or ale with this hearty fare.

FISH-IN BUFFET

Heat Booth fish sticks and steaks as directed on packages. Set out platters of fish with bread and rolls. Condiments such as tartar sauce, mustard, ketchup should be on hand, along with butter, and mayonnaise. Tomato and cheese slices are attractive layered alternately on a tray. Provide lettuce, cole slaw and sliced cucumbers crisped in vinegar. You may wish to include hot scrambled

eggs and/or hot potato salad too.

Encourage your guests to make their own combinations, or suggest one of the following:
 Fish Stick Scramble - Spread rye bread with butter. Top with lettuce, hot scrambled eggs and a Booth fish stick.

Hearty Combo - Spread Vienna bread with mustard and lettuce. Top with caraway cheese slice, Booth fish steak and canned asparagus spears.

Cucumber Crunch - Top Vienna bread with lettuce, thinly sliced cucumbers and a Booth fish steak. Garnish with cherry tomatoes.

Potato Salad Supreme - Top rye bread with lettuce, hot Potato Salad and Booth fish sticks.

Notice

There will be a National Farmers Organization meeting in the county agricultural building Thursday night, October 2. All interested persons are urged to attend.
