Request ACP Now

Request ACP now. Now is the time for those farmers not participating in the 1969 AC program to visit the county office and request assist-

ance to seed a winter crop. Be a good sport in the woods this year. Give your dumb friends a break, and a chance to crimson clover and fescue and barley. These crops can be grazed with good management, but cannot be harvested for any other purpose.

1969 approvals for winter cover will be limited to the total acreage approvals issued in 1969. So don't wait and get left out. Come see us now.

WHAT'S IN A FRAME?

Nondescript pictures take on new importance as decorative accessories when framed and matted properly, the Picture and Frame Institute points out. Take a careful look at the pictures that now decorate your walls. If any pictures are not doing their job decoratively, consider brightly colored mats or reframing them. You'll be suprised and pleased with the results.

We know that the less one knows the easier one forms an opinion. Not many men work for principle without expecting to receive interest.
