Smith was proud of his golf, and that morning he brought his mother-in-law along to watch him play.

"Don't be a fool," snapped the other. "You'll never hit her at that distance."

### In Fashion

The hard look for hair is definitely out. The sprayed lacquered look is last year's trade mark.

Hair should have body and there are products on the market that make a head of hair seem luxurious yet soft and shiny.

Long hair, piled high on the head, is good for evening wear with cocktail or formal type dresses. A loose tendrill about the neck or temple adds a feminine touch.

A little prominence does not go to the head of a really prominent person.
