

An idea is one thing; putting it into words so that everyone will understand it is another.

It is amazing how much time two people can waste trying to shift one person's work between them.

Open Monday Thru Friday Until 6 P.M.
OPEN SATURDAY TILL 6 P.M.
BLACK BELT

Not every man gets to wear the Black Belt.

Black Belt is made for men who don't have to prove anything to anybody. They know their power. And that's that. After Shave and Cologne. Some men will wear Black Belt. Some won't.

After Shave \$2.50
Cologne \$3.50

Bunn FHA Cares'And Shares'

As a part of the year's F.H.A. theme "To Care is to Share", the Bunn F.H.A. girls went to work to share Christmas joy with others by collecting toys for over fifty children who might otherwise not be provided for, announces Doris Wilder, F.H.A. reporter. April Chamblee was appointed chairman of the committee.

These toys were brought into the home economics department where the students reconditioned them and made them ready to present to the Social Service Department during an assembly Thursday afternoon.

Mrs. M. M. Person, a social service agent, was present to speak to the assembly and to accept the gifts.

Spreading Christmas joy are, reading left to right, President Anita Gay, Secretary Jane White, Treasurer Ann Greene, Reporter Doris Wilder, Chairman April Chamblee, Pam Asque, Peggy O'Neal, Jackie Driver and Sharon Moody.

Test Defogging Chemical

Seattle, Wash. - A moisture-slurping chemical called polyelectrolyte may end the pea-soup predicament of America's foggiest airport and save airlines a lot of money. In a test recently, a specially equipped DC3 dumped 300 pounds of the flour-like substance over fog-shrouded Seattle-Tacoma International airport and officials said it cleared an air corridor, 6,000 feet high.

Everyone likes to hear the "truth" about someone else in whispered form.

BLAZING A TRAIL THROUGH THE ICE

The S.S. Manhattan sails through temperatures of 50 degrees below zero.

In preparing for the recent voyage of the S.S. Manhattan through the "ice-olated" Northwest Passage to the newly discovered oil field of northern Alaska, Humble Oil, sponsor of this history-making mission faced up to the task of compensating for conditions which included temperatures of 50 degrees below zero for weeks on end.

The vessel, largest United States merchant ship in service, was actually cut apart and put together to form an oil-tanker-icebreaker capable of carrying 38 million gallons of oil on the unprecedented 4,500-mile voyage. Half of this distance was over Arctic ice that can soar in ridges 25 feet above the water and project 60 feet below.

The most striking modification was the addition of a completely new type of bow, a feat which added 65 feet to the vessel. High-strength propellers and shafts and rudder protection devices were also installed at Sun Shipyards, Chester, Pa.

Because the first exploratory voyage did not entail returning with a cargo of oil, only the essential deck piping was insulated to maintain required services. A factory-assembled system, consisting of external aluminum jacketing, vapor barrier and Thermobestos insulation was snapped over bare pipe and held in place with straps and stainless steel bands. Called

Special insulation is required to protect pipes.

Metal-On®, it was supplied by Johns-Manville and applied by Philadelphia Asbestos Corp. Services protected included fire mains, water supply lines, steam lines to deck winches, heating supply lines to occupied spaces, sanitary lines and compressed air.

Success of this historic effort, one of the most impressive launched by private industry, will have a tremendous effect on the shipbuilding industry, as well as the oil industry. Reports are that an estimated 25 or 30 tankers may eventually be constructed for service in the Northwest Passage trade. One oil company alone has revealed that it will require six tanker-icebreakers by 1975, each of 250,000 deadweight tons. Obviously, such vessels will be designed and constructed initially to provide the structural and mechanical protection that had to be refitted into the Manhattan.

ALL NEW FROM GOODYEAR

9TH YEAR OF A GREAT CHRISTMAS TRADITION

20 Great Christmas Songs
10 Great Artists

Great Songs of Christmas

20 CHRISTMAS FAVORITES

\$1.00

A rare holiday treat for your home. A new collection by today's top artists in a limited edition album of festive Christmas music. Available only at your Goodyear Service Store and most Goodyear Dealers - just \$1.00. Playable on stereo or monaural equipment.
