CHICAGO'S BOODLERS. Feveriah Interest in Their Case. CHICAGO, ILL., August 1.-There was a tremendous clamor by crowds of people this morning for admission to the court where the trial of the boodlers is proceeding. An hour be-fore the time for opening the doors hundreds of men were in line for admission and with hundreds of others completely filled the hall-ways. thronged the elevators and extended far out on the sidewalk. The absorbing question was whether any of the eleven defendants would surrender unconditionally and throw themselves on the mercy of the court. Plainly a majority of the crowd expected some such move, but many thought it was too late and that the defendants' only hope now was to fight to the last in the belief that some accident would favor them. As the hour for the opening of the court approached the interest grew absolutely feverish. At last, above the buzz of voices, was heard the sound of many footsteps. The boodlers were coming in. Without exception their faces were set and white. The expectation that more of the defendants would plead guilty was not realized. After Mr. Grinnell said, "The State rests," Alexander Sullivan, attorney for the defense, immediately began the introduction of testimony as to the char-acter of the men on trial. The very

first witness was millionaire Nelson Morris, a packer. He swore that Mc-Carthy and Lynn had good reputations. Morris was not cross-exam-The Ameer and the British. CALCUTTA, August 1.-Advices from Candahar state that the Ameer of

SHARP. THE OLD MAN SUFFERING MUCH PAIN-HIS CONDI-TION SERIOUS.

COMPELLED TO LIE ABED-OTHER NEWS BY WIRE.

NEW YORK, August 1.-Jacob Sharp suffered much pain at the Ludlow Street jail last night. He was this morning exhausted from loss of sleep. Early this morning the aged prisoner's condition was considered so serious that his physicians were summoned. Sharp complained all night of pains in the stomach and dizziness of the head. At the usual time for arising he was too ill to take his accustomed place in his easy chair, but lay uneasily on his bed.

No More Delegations.

WASHINGTON, August 1 .- The President said today that he felt it to be an absolute necessity that he should, in every case, request those cities which proposed to send delegations to Washington, conveying invitations to visit them on his western trip, to forego that formality and forward their communications by mail. He has a full appreciation of the cordial spirit which prompts such courtesy and which is most gratifying; but it seems to him unnecessary that such journeys for such a purpose at this heated season of the year should be undertaken. In addition to this consideration, he said it had been his purpose to feel free to absent himself from the Capitol and the White House as he should feel disposed during this month and to make no engage-

ments which would require his presence at any stated time. It is probable that he will leave here durneapolis, Milwaukee, Chicago, Nashville and Atlanta. The St. Louis and Atlanta dates being fixed, it will not

THE ATLANTIC AT MOREHEAD SOLD. Dr. Blacknall the Purchaser. ATLANTIC HOTEL, MOREHEAD CITY., August 1. Dr. Blacknall, for himself and associates, bought the Atlantic Hotel property for \$18,500. There was great applause when it was announced that the Doctor was the purchaser.

Weather Crop Bulletin.

WASHINGTON, D. C., July 31 .-- The following is the weather crop bulletin of the signal office for the week ending July 30:

Temperature-During the week the weather has been warmer than usual from the southern New England and Middle Atlantic States westward to the Rocky Mountains, the average daily excess being about three degrees. It was slightly cooler than usual in the eastern portion of the cotton States, and from Dakota westward to the Pacific coast. During the month of July the average daily temperature appeared and a pleasant breeze pre-Ameer invites the rebels to return to their homes, and says he will only between the citics named and the citics name was about three degrees above the vails, which will soon dry up the normal throughout the northern streets. FLOODS. DO GREAT DAMAGE TO AU-GUSTA, GA. THE LOSS PLACED AT ONE HUNDRED THOU-SAND DOLLARS-THE LOSS TO THE

PLANTERS ON THE SAVANNAH BEYOND LSTIMATE-OTHER TELEGRAPHIC NEWS.

AUGUSTA, Ga., August 1 .- There are two breaks in the canal; one on First and the other on Third streets. The damage will probably shut up the factories for some days. The loss to the city from high water will reach a hundred thousand dollars. The loss to planters cannot be estimated. It involves almost a total destruction of the crops in the Savannah valley. The river is falling rapidly. Augusta has narrowly escaped a great calamity; more than threefourths of the city was covered with water from one to six feet deep. The greatest damage is to the streets and sewers, and not much to property in the city. Some industries suffered and there will be a loss from the stopping of the mills; but it is impossible to estimate the loss to different interests. The city will be the greatest loser in the damage to the canal and to the streets. The water is receding rapidly from the main streets except upper Greene street, where the break occurred in the third levee of the canal.

The business portion of the city was not flooded at all. All fears have disappeared and every one is thankful that there has been no loss of life and comparatively small damage to property, when the extent of the calamity threatened is considered. All day Sunday the inundated portions of the city were navigated by boats. Ferries were established at the street corners and boatmen did a profitable business in rowing citizens from one part to another. The indications now are favorable The clcuds have disTROUBLE AMONG IRON WORKERS. House of Commons first, then in the

Tupiets Of Con

The Most Serious for Years. PITTSBURG, Pa., Aug. 1.-Today inaugurated what, from present indica-

tions, will be the most serious misunderstanding that has arisen for years between the Amalgamated Association of Iron and Steel Workers and the manufacturers. Already a number of mills in the Mohoning Valley have been closed down and nearly 5,000 iron workers are

out of employment, while the indications are that before many days there will be a still larger number of idle workers. The trouble is caused by an at-

tempt on the part of the Amalgamated Association to enforce an old law in their constitution which provides vides that no man shall hold two jobs at a mill. At the recent annual convention of the iron workers, an amendment stigmatizing the holder of two jobs as a"a black sheep" was passed and it was decided to enforce the law after August, 1st. The members of the Assembly who were notified of the action taken, as a rule gave up their extra jobs, but the trouble arose over the non-members who refused. At the mills of Painter & Sons, Brown, Bomrell & Company, Mohoning Valley Iron Compa-ny and Cartwright, McCurdy & Company of Youngstown, Ohio, the mill owners refused to discharge these men and the mills closed down this morning. The same trouble is expected at the Solar Iron Works in this city and at the iron works at Akron, Ohio and Girard, Pennsylvanis. The manufact rers refuse to recognize the law on the ground that it was not included in the agreement of the scale of wages they signed. Both sides are determined to maintain the

stand taken and unless an amicable settlement is reached soon, several thousands more mill workers may be out of employment.

Damaged by Lightning. EASTON, Pa., August 1.-About wenty houses in Northampton county, Pennsylvania, and eight in by lightning yesterday. Many cel-lars were flooded by the heavy rains. The damage to streets and pave-ments in Easton and South Easton by washouts is estimated at \$12,000. of the highest reputation, North and by washouts is estimated at \$12,00

NO. 30

Senate until the year 1880. His uniform success testified to the possession of high qualities. He was not a frequent speaker; it was only upon questions affecting his own constituency, or upon some question of great public importance that he addressed the body. The clear sense and singleness of purpose which per-vaded his speeches never failed to secure for him a favorable re-ception. Whenever he spoke he was listened to with interest, his force of character, strong sense and known integrity giving great, weight to his views, and making him one of the most influential members of the body. He was one of the council of state of Gov. Ellis; he was a member of the Secession Convention of 1861, and again of the Constitutional Convention of 1865. When the times demanded it he was always

called to the front. His circumstances placed him in creditor relations with many of his neighbors. Nothing could have been more generous than his conduct in this regard. After the war, knowing the loss and ruin which it had inflicted, he asked what they could pay and accepted it without demur. Throughout life his conduct was of a piece with this. He was alwas kind and considerate. To the poor he was ever a sympathetic but discriminating friend. Always fortunate, he was peculiarly so in his marriage. He married Miss Martha Helen, daughter of John Somerville, of Warren county. This lady was as lovely in character as she was beautiful in person. Her influence upon her husband was most marked, particularly in all that was elevating and refining. Above all it was under her gentle ministrations that he became a Christian and attached himself to the Episcopal church. She was loved and admired by all who knew her in every class of life, and presided most gracefully over the ever hospitable home of her husband. He had the misfortune to lose her some eighteen months before his death. It was a Warren county, N. J., were damaged great shock to him, one indeed from which he never recovered. He became abstracted, melancholy and

Suspended From Office.

PALATEA, Fla., August 1.-Wm. F Ford, clerk of the Circuit Court register of deeds, county auditor secretary of the board of county commissioners, chairman of the democratic county executive committee and son of an ex-Circuit Court Judge and a leading wholesale merchant has been suspended by the Governor, on charges of malfeasance, embezzle ment, mutilation of records and various private disreputable transactions, involving, as estimated by by his friends, \$25,000. No county funds are involved. The treasurer's accounts are entirely straight. Embezzlement under the law of Florida is declared to be larceny. This alleged crookedness covers nearly the whole term of the officer.

Cotton Futures in New York.

NEW YORK, August 1.-Greene & Co.'s report on cotton futures says: It has been generally a stronger cotton market and there is an advance shown for both old and new crop options. August appeared to go up, because there was very little offering, and every call made acted as a stimulus, especially as a portion of the demand seemed to be new buying orders. On later months strength was mainly induced by advices of damage by rains to a portion of the crop,

been increased. which alarmed the shorts and led to more or less covering; though the gain was greatest on September and unfavorable for staple crops in many October. As against Saturday evensections. Excessive rains and severe ing August advanced 20 points and local storms have probably resulted other months 11a13 points, closing in injury to the cotton crop from Alafirm with shorts evidently timid.

A Murder Trial.

PETERSBURG, VA., August 1.-The trial of Frank Langston (colored) for the murder of John H. Ruffin on April fourth, commenced here today. The prisoner is a son of John M. Langston, formerly U. S. Minister to Hayti, and Ruffin was a prominent politician. Langston was indicted by the grand jury in April, but the court today quashed the indictment. holding it to be invalid because the foreman of the jury was the owner of a grist mill and not eligible as a juryman under the laws of Virginia. A new jury was summoned and a new indictment found and the case proceeded. An exciting contest has been in progress over the selection of

jurors, only three or four having been
