A-North Carolina Rogue in New York, NEW YORK, Sept. 2.—The police department received a telegram from North Carolina yesterday asking that Rose Nesbitt alias McElvery, mulatto, be arrested upon her arrival. The charge against her was embezzlement. She was found on board of the steamer Gulf Stream, and together with her daughter brought to police headquarters. Instead of sending her down stairs she was handed over to lost children, and a policeman placed View. A train on the road was deon duty outside of the door of her room. She soon investigated her prison and found that the closet in her room had two doors, one of which opened a way to freedom. She used it and walked down the stairs leading to the street with head erect. The officer at the main entrance, thinking that she had called for the missing child, asked her if she had found her little one. She answered in the negative and passed out into the street. She was not missed until this morning when there was quite a commotion at the central office, which has always been believed to be safe from the schemes or wiles of law-breakers. The daughter of the escaped prisoner was left behind. Explanations all round are in order today.

## TARIFF REFORM

DEMOCRATIC HARMONY ON THE SUBJECT.

-Henry Villard is coming to the ALL WINGS OF THE PARTY TO WORK TO-GETHER-VARIOUS CONFERENCES ON THE QUESTION-ACCORDING TO A WASHINGTON PAPER-OTHER TELEGRAPHIC NEWS.

> Washington, Sept. 2.—The Evening Star this afternoon publishes the following: "There will be a measure brought forward by the tariff reformers as soon as Congress convenes which will likely have the endorsement of the administration. The President, Secretary of the Treasury and Speaker Carlisle have been considering the matter since Congress adjourned, and it is not improbable that the present visit of Mr. Carlisle to the President at Oak View will result in the culmination of their plan. It is possible that the Speaker's visit ashington at this time was expressly for the purpose of consulting with the President upon this subject.

It is expected at the treasury department that Secretary Fairchild, who is now on his vacation, will soon return to Washington. It is probable that he comes to meet the President

and Mr. Carlisle.

The result of the Allentown convention is quite satisfactory to the tariff reformers. They propose to take advantage of the situation and present a plan for the reduction of the revenues. The plan being prepared will conform strictly with the tariff resolution there adopted as it is construed by the President. It will abolish the tobacco tax but leaves the whiskey tax where it is and will make a large reduction in the customs duties on the necessaries of life in accordance with the President's utterances on the subject. The internal revenue feature is admitted as a compromise and will be tolerated only in provides connection with very positive reduc-tions of customs. There will be no acknowledgment of protection. It is likely that the reduction of cusoms will be more sweeping than Randall would agree to, though it is certain that the party can be brought to work together harmoniously. The Floods in Texas.

CHICAGO, Sept. 2 .- A Times special from Waco, Tex., says: Every bridge in Hill county was washed away by the recent rains and the damage to the crops and farms will not fall short of \$100,000. In Bosque county and along the line of the Santa Fe railway the damage is also very heavy. Of the little towns here, Iredell, Whitney, Hico and Aquila have suffered most. The railroad companies have suffered severely. It is believed the Central & Missouri Pacific roads are the heaviest losers. The Missouri Pacific has a force of nearly 1,000 Matron Webb, who is in charge of men at work on the line near Grand tained between Itasea and Grand View from Monday night until yesterday evening. It was out on the prairie 9 miles from any house and many of the passengers suffered for the lack of food.

As there is so much said through the papers in regard to the expense of running the State prison of N. C. enterprises of the Baltimore & Ohio I have, after some reflections in regard to this matter, concluded to ask for some information in regard to this expense. In the first place are not all the bonds that the State receives for convict labor returned to the railroad companies when the roads are completed? If so which party receives the benefit of this labor, the State or the railroad corporation. In the second place are there not men now employed by those corporations who are boarding their children from the State commissary without any thing to show to the State? Has the State any vouchers to show for the board of those families? Have not some of the overseers on the Western extension of the C. C. Railroad even boarded their wives at the expense of the tax-payers? A Sad'Accident. Purham Tobacco Plant.

Last Wednesday a colored man iving near Roxboro, hired his nephew, a boy about twenty years old, to drive a wagon to Durham. He was accompanied by a boy ten or twelve years of age. Returning from Dur-ham, the driver is supposed to have had a fit while the small boy was asleep, and fell from the wagon on to one of the stay-chains, which caught him under the chin, and held him in this position until a wagoner, coming from the other direction, met the wagon, stopped the team and extricted the unfortunate fellow, who was in an insensible condition—his throat almost cut from ear to ear, and badly bruised about the body. He was put into the wagon in this condition and driven by the little boy till he came where Mr. Rencher Flinton was working the road with some hands, Mr. Flintom sent one of the road hands, with the wagon home. The boy was in a critical condition.

Fatal Shooting.

A fatal accident occurred near the Chatham line last Thursday afternoon. John Jordan, of Chatham, and David Brown and his brother, of Alamance, were out hunting.
