Governor Pattison at Last Takes Decisive Action—The Move Has a Subduing Effect on the Rioters—A Committee of the Amalgamated Association Confers With Mr. Frick.

By Telegraph to the News-Observer.

HARRISBURG, Pa., July 10.—The entire division of the National Guard of Pennsylvania, about 8,000 men, has been ordered to Homestead to support Sheriff McClary in suppressing the riots at that place. This action of the governor was taken on receipt of the following dispatch:

PITTSBURG, Pa., July 10. TO ROBERT E. PATTISON, GOVERNOR, HARRISBURG:

The situation at Homestead has not improved. While all is quiet there, the strikers are in control and openly express to me and to the public their determination that the works shall not be operated unless by themselves. After making all efforts in my power, I have failed to secure a posse large enough to accomplish anything, and I am satisfied that no posse raised by civil authority can do anything to change the condition of affairs, and that any attempt by an inadequate force to restore the right of law, will be only to result in further armed resistance and consequent loss of life.

WILLIAM H. McCLARY, Sheriff.

Gov. Pattison, as commander-in-chief of the National Guard, at once issued the following order: George R. Snowden, Major General commanding National Guard of Pennsylvania:

Put the division under arms and move at once with ammunition to the support of the sheriff of Alleghany county, at Homestead. Maintain the peace—protect all persons in their rights under the constitution and laws of the State. Communicate with me.

ROBERT E. PATTISON, GOVERNOR.

To Sheriff McClary the following telegram was sent: William H. McClary, Sheriff of Alleghany County, Pittsburg:

Have ordered Maj. Gen. George R. Snowden, with the division of the National Guard of Pennsylvania to your support at once. Put yourself in communication with him. Communicate with me further particulars.

ROBERT E. PATTISON, GOVERNOR.

Gen. Snowden, with the adjutant general and quartermaster general, at once proceeded to formulate the orders for the mobilization of the guard. Some troops will be under way early in the morning.

Late tonight Maj. Gen. Snowden issued the following order to Brig. Gen. Robert P. Dechert, Philadelphia, commanding the First Brigade: In compliance with orders of the commander-in-chief you will concentrate your command in camp at Mount Gretna by tomorrow (Monday) afternoon, and there await further orders, battery-horsed. Take with you three days' rations and all the ammunition on hand. First troop mounted will move on first train available on Pennsylvania Railroad bound west.

An order was issued to the Second Brigade to concentrate at a point Gen. Snowden declined to make public (presumably Homestead) and await orders. The Third Brigade was ordered to concentrate at Lewistown and move west. Telegrams were sent to all the regimental commanders.

HOMESTEAD, Pa., July 11.—"All is quiet at Homestead" is the watchword which has literal significance and is without irony in its application in this little burg to-day for the first time since the beginning of this great labor rebellion. The indications of reviving respect for the law of the State of Pennsylvania and the rights of individuals are once more observed. The effect of Governor Pattison's calling out the troops is already marked in the radical change that the past six hours have wrought, and personal freedom this morning is practically unrestrained. It is true that now and then some over-zealous individual assumes to himself the right to investigate and catechize persons as they step from the train but such instances are rare and the profound respect that would have been accorded to such person is signally wanting today.

PITTSBURG, Pa., July 11.—There are signs of activity in and around the armories of the National Guard this morning. The men began mustering early in the morning and making preparations for a journey, but it will be late this evening or early tomorrow morning before all arrangements can be completed, and the troops assembled at Brinton.

The action of the Governor in ordering out the militia brought the strikers in Homestead up with

a round turn and made them realize fully that the arrival of troops meant a loss to them of the control they have exercised over the town, and a committee from the Amalgamated Association was appointed to go to Pittsburg at once and entreat Mr. Frick to consent to some method of adjustment of the differences.

The committee called at the Carnegie office in the Chronicle Telegraph building during the forenoon. Down town the militia were gathering at several headquarters. Crowds gathered around the armories of the 18th and 14th regiment, and of the battery B to watch the soldiers as they came in to await marching orders. It is not expected that the troops will move before two o'clock this afternoon.

HARRISBURG, July 11.—The Ninth, Twelfth and Thirteenth regiments are on the road and will reach Lewistown about noon. The Eighth and Fourth regiments of the same brigade were early under arms and only waited transportation. The second brigade was reported under way before noon and will be concentrated at Brinton, about three miles from Homestead. The third brigade will be sent forward to Lewistown this afternoon and before dawn tomorrow over 6,000 soldiers will be massed in the vicinity of the scene of the trouble. The first brigade is expected to reach Mt. Gretna this afternoon and be held as a reserve corps till further orders.

HOMESTEAD, Pa., July 11.—It is given out unofficially that at the meeting of the advisory committee, called after midnight, it was decided to offer no resistance to the militia's occupancy of the town or the Carnegie property.

HOMESTEAD, July 11.—The hostilities are over. At a meeting of the strikers this evening it was decided by a unanimous vote and great enthusiasm that the militia should be welcomed to the city by a brass band and other ceremonies appropriate to the occasion. It was also resolved that any striker who should hoot the militia or otherwise fail in proper respect to the States' representatives should be ducked in the river, and a committee was appointed for that purpose. The burgess was requested to invite all citizens having no business in Homestead depart as it was feared some unwise and anarchistic sympathizers with the strikers might seek to perpetuate the trouble. All the leaders made speeches and three brass bands of the city tendered their services in welcoming the ceremonies to the militia. No one doubts that all will be peaceful henceforth.

PITTSBURG, Pa., July 11.—The committee of workmen which called on Mr. Frick this morning was not from the Homestead strikers as at first supposed but a committee from the city mills of the Carnegie company appointed at a meeting of the Amalgamated Association of Pittsburg last night to ask the committee to confer with the strikers. The scale has been signed between the men and the committee. The committee disclaimed that they were there for interference, and wanted it expressly understood that they called solely in the interest of peace.

Secretary Lovejoy of the Carnegie said: "No, the committee was not from the strikers, but from our own men who are at work. We would not receive the strikers' men. As the members of the Amalgamated Association called to ask us to confer with the Homestead strikers, we declined to do it. The strikers have taken possession of our property and have murdered our watchmen, for which they will have to answer to the district attorney. We will not see them."

"Did the committee make any suggestion about making an agreement with them and not meeting the homestead strikers?"

"No," was the answer. "We can not make an agreement with the city men about the Homestead scale."

These remarks of Secretary Lovejoy show it to be the purpose of the Company to make the Homestead men answer through the courts for their actions and explains if an explanation were really needed why the strikers have been extremely cautious in not admitting personal responsibility as an advisory committee?

PHILADELPHIA, July 11.—Within twelve hours after the issuing of the order to mobilize the first brigade at Mt. Gretna 1,900 men or within a couple of hundred of the brigade's full strength, armed and equipped to take the field, had left the city. The last of the military to leave was Battery A and the city troop of cavalry who departed at 1 o'clock. The Third regiment was the first to reach the railroad station. It had 410 men in line-out of 500 on the roll. The First regiment came next with 608 men out of 630 enrolled. The Second regiment started with 500 out of 632. The battalion of State Fencibles and a separate company of colored men had forty-eight men in line out of an enrollment of sixty.

Two regiments left the station at 11 o'clock and another regiment with fencibles, a colored company and battery, got away at 12:30, followed immediately by two car loads

of belated members of the regiments which had already started at 5:45 this p. m. Two additional car loads of laggards started to join their commands. Dispatches from all over the State show that all the militia organizations in the State have been equally prompt. Some of them started for the rendezvous as early as 8:30 this morning with their ranks as well filled as the Philadelphia commands. The time for the annual summer encampments is close at hand and a spirit of rivalry has been at work for some months among the militia organizations to make the best possible record at the encampments. Owing partly to this circumstance the militia are in better condition than ever known before. Orders for the summer encampment have been revoked. At 2 o'clock this afternoon Maj. Gen. Snowden commanding and staff left Harrisburg bound West, the destination supposed to be the vicinity of Homestead.

THE NEWS AT WINSTON.

A Proposed New Road of the Seaboard Air Line.

WINSTON, N. C., July 11.—The Seaboard Air-Line are talking about building a road from Monroe to Winston-Salem. A corps of surveyors are now at work on the route. A preliminary horseback survey has already been made. The company was so well pleased they decided to make further investigations. The road will open up a new country with a practically inexhaustible supply of timber and a vast water power. It will put Winston in direct connection with the cotton-fields. A free right of way into Winston-Salem is all the company asks.

Delegates will leave here tomorrow for the Democratic Congressional convention at Wilkesboro. It is generally conceded that W. H. Bower, of Caldwell, will receive the nomination on the first ballot, if not by acclamation.

Alarm at Mt. Etna's Eruption.

CATANIA, July 10.—A further eruption of Mount Etna occurred today. The mayor of Nicolosi declares that a terrible volcanic outbreak is impending. The inhabitants of the city and the surrounding country are in a state of consternation.

The eruption assumed alarming proportions during the night, though less grand than the eruption of 1886. Huge quantities of lava have been thrown out of the volcano, and have formed a double stream, which is advancing rapidly toward Nicolosi and Belpasso. The lava is already within six kilometers of Nicolosi. Great damage has been done to the surrounding country. A severe earthquake was felt in the immediate vicinity of the volcano during the night.

Today the populace of Nicolosi assembled outside the cathedral and knelt on the ground in prayer, being afraid to enter on account of the continuous shocks and subterranean rumblings, which are like the noise of a storm. Twelve houses and a portion of a church have been destroyed. The eruption is still active.

YESTERDAY IN CONGRESS.

PROCEEDINGS IN BOTH THE SENATE AND HOUSE.

Senator Washburn Delivers an Address Upon the Anti-Options Bill—The World's Fair Amendment Again.

By Telegraph to the News and Observer.

WASHINGTON, July 11.—SENATE.—Mr. Butler (according to the notice heretofore given) moved that the Senate take up the bill to transfer the revenue marine service to the navy.

Mr. Sherman demanded the yeas and nays. The bill was laid before the Senate by a vote of yeas 35, nays 24.

Mr. Allison moved that the bill be laid aside the consideration of the sundry civil appropriation bill might be resumed.

After discussion the bill was laid aside informally.

Mr. Quay in compliance with the agreement made last Friday presented a statement of the Homestead employees for publication in the Congressional Record. A motion to take up the sundry civil bill was withheld, so as to give Mr. Washburn an opportunity to submit some remarks on the anti-option bill. Washburn spoke for more than 2 hours, but did not at the close of his speech move to take up the bill for action. At the close of Washburn's speech further conferences were ordered on the naval appropriation bill.

The Senate then resumed consideration of the sundry bill, the pending question being on committee amendments as to the Columbian Exposition and Mr. Quays amendment to it requiring the exposition to be closed on the Sabbath day. Discussion on this amendment occupied the remainder of the afternoon session and without coming to any action on the amendment or even closing the discussion, the Senate at 5:45 o'clock adjourned.

HOUSE.

On motion of Mr. Bullock of Florida, the bill passed extending the provisions of the act for the immediate transportation of dutiable goods to the port of Fernandina, Florida.

The Speaker appointed Mr. Herbert, Mr. Lawson, of Virginia, and Mr. Dolliver as conferees on the naval appropriation bill. Mr. Wheeler submitted a conference report on the military academy appropriation bill.

On motion of Mr. Bextley, of New York, the bill passed appropriating \$250,000 for the publication of the eleventh census.

A session was ordered for tomorrow night for the consideration of private pension bills. The House then adjourned.

A caucus of the "friends of free coinage" was called to meet this afternoon at 7:30.

Death of Mr. S. F. Arendell.

On Sunday morning at Wakefield, this county, Mr. S. F. Arendell, formerly of Durham, died after a long and painful illness. He had been for many years troubled with a bronchial affection which grew into consumption, destroying his vitality and finally ending his life. He was a genial, generous man, liberal almost to a fault, and was exceedingly popular with a large concourse of acquaintances and friends. He was about 40 years of age and unmarried. For nearly three years he has been almost an invalid, and his sufferings have been intense. His death was not unexpected, but it has nevertheless sent a pang of deep sorrow to the hearts of his aged mother, his two brothers and a large circle of kindred and friends.

Imitators and Impostors.

The unequalled success of Alcock's Porous Plasters as an external remedy has induced unscrupulous parties to offer imitations, which they endeavor to sell on the reputation of Alcock's. It is an absurdity to speak of them in the same category as the genuine porous plaster. Their pretensions are unfounded, their vaunted merit unsupported by facts, their alleged superiority to or equality with Alcock's a false pretense.

The ablest medical practitioners and chemists and thousands of grateful patients unite in declaring Alcock's Porous Plasters the best external remedy ever produced.

Beware of imitations, and do not be deceived by misrepresentation. Ask for Alcock's, and let no solicitation or explanation induce you to accept a substitute.
