CALVARY PRESBYTERIAN CHURCH, WILSON, N. C., RAISES \$1207.20.

In a financial campaign just brought to a close the Calvary Presbyterian church, of Wilson, N. C., realized \$1207.20. In this supreme effort the members and friends worked most admirably to the end that the standard of Calvary might not be lowered. The official body cannot be commended too highly for its careful and prayerful planning of the campaign, and following it up with unrelenting toil and endeavor. Nor can one forget the tremendous sacrifice made by the officials and the bulk of the members. In this period of retrenchment there was a little doubt as to whether the church

could maintain its past standard. "We strengthened our stakes; lengthened our cords; and enlarged our plans and gifts." A new standard was set. to clear some outstanding obligations and to pave the way

for the erection of a manse in the near future.

The basket ball team is rapidly getting in shape and hope to play many games before the eason ends.

The students of the Normal Department¹ have organized a society known as "The Research Society." The aim of the organization is to do research work, declare war on slang and bad English, and advocate wholesome and decent literature.

Miss Beatrice Wilson, a member of the second year Normal, on account of continued illness, has been forced to give up school for a while and has gone to her home in Georgetown, Ky., to take treatment under her family physician. We hope for her an early recovery and return.

Miss Kinchlow and Miss Caliman both teachers in Fee, spent Thanksgiving in Bowling Green and Richmond, Ky., respectively.

Much surprise as well as much joy was given us a few days ago when Rev. McNair announced that he had added a new feature to Fee. He stated that after seeing some local friends, he has been able to make the following offer: that the girl finishing the Normal Department with the highest honor, provided her average in deportment is not below 98 per cent and her average is not below 75 per cent in any one subject will have her way paid through some institution during the summer, and will have the honor of being one of the teachers in Fee the coming term. He states that he hopes to give some of the exceptionally bright girls an opportunity to teach in Fee, but not until they have done extra work in some noted school. Since this announcement every girl has determined to win this honor. Mrs. McNair has begun to practice the primary and grammar grades for an exercise to be had during the Christmas holidays.

The Quartet sang for the Baptist church last Sabbath and gave a good account of them11

Our friends have already begun to speak of our site as "College Hill," and we hope this is only an indication of what the future has in store for the school.
