

CITY OF NEW YORK.
We have seen a letter from New York, which states that such was the unprecedented demand for houses, on the 1st instant, in that city, near 300 families assembled in the Park, having no home in which they could deposit their furniture, and shelter themselves. The letter further states that in the evening, the prison doors were thrown open for the reception of the houseless, and many availed themselves of the privilege of a night's abode there. Some of the most respectable inhabitants were glad to get possession of houses which were so unfinished as not even to have the sashes fitted or chimney pieces fixed.

Some weeks ago a black fellow from New York, hit upon an excellent plan for filling his own pocket, at the same time relieving the anxiety of those colored people in this city whose friends had emigrated to Hayti. Having ascertained the names of those who had emigrated, and those of the friends they had left behind, he had a number of letters written, and duly signed, folded, sealed and directed. The poor blacks seized on them with avidity, and cheerfully paid the sum of 37 1/2 cents, which was demanded for postage. It was a painful trade, for four letters could be distributed a day, and these produced one dollar and fifty cents, or fifty cents more than the fellow could have earned by carrying the hod, or by working on the wharves.

Dreadful Hail Storm.—A section of this county on the N.E. side of Little River, to extent about half a mile wide, and 8 or 10 miles in length, was visited by the most alarming hail and rain storm ever experienced in this county. Much injury has been done to the crops of wheat, (which was eared out in bloom,) corn and cotton—the stock much bruised, and the poultry killed; besides much other damage in broken windows, &c. One of our informants says, the hail where it drifted along the fences, was nearly half leg deep, and that some of the stones were literally as large as a common size man's fist.

At a late court of Oyer and Terminer, held at Buffalo, N. Y. three brothers, named Thayer, were convicted of the murder of John Love, and were all ordered for execution on the 17th June. Since the trial they have made a full confession of their guilt. The father of the Thayers was also arrested, and though no proof appeared that he had participated in the atrocious deed, he is still detained in prison as an accessory after the murder. Love and the Thayers had been long intimate.

Recent accounts from Fort Atkinson, Council Bluffs, state that an expedition was fitting out there to ascend the Missouri, consisting of 500 men, four companies of the first regiment and six of the sixth regiment United States Infantry, under the command of Gen. Atkinson, provided with six months rations. It was to start about the 1st of May, and to proceed as far as the Falls, near 2000 miles above the Fort, where it was proposed to make treaties with the different tribes of Indians.

A public dinner was given to Commodore Barron, at Philadelphia, on the 17th inst. on the occasion of his departure to take command of the Norfolk station.

Such has been the demand for Cotton-Seed in the neighborhood of Cheraw, S. C. for the purpose of planting an increased quantity, that it is selling at five dollars per bushel.

An accidental discovery has lately been made of the properties of the cocoa-nut in Cumana, and communicated by a lady to the Royal Patriotic Society of Cuba. A marble mortar had been by accident left in a tub of cocoa-nut juice, which had been extracted from the fruit, and was found as soft as warm wax, and its shape changed. Oh being exposed to the air, it was restored to its original state, and regained its original hardness. An experiment was then made on a piece of marble that had been disfigured with paint, &c. and which could not be cleaned. It was left in cocoa-nut juice for ten days, and taken out perfectly cleansed.

Mr. Barber: Please send me, until further orders, six papers weekly, so that I may be able to serve five of my rich neighbours at once, and have one paper for myself and family.

A Friend to the printer

On the 23rd of April, a company of armed citizens set out from Mount Sterling, Kentucky, and proceeded to the camp of a nest of counterfeiters, about 30 miles from that place, in a mountainous part of the country. These wretches had a small paper mill to go by water, and had made about 6000 dollars, principally on the banks of Tennessee, South-Carolina, and New-Orleans. Two of the party were taken, and three made their escape; the two ringleaders Sturdevant and Allen, also made their escape, but it is expected they will be taken. The money is so well executed as to be considered genuine.

A work has recently been published in France, suggesting the formation of a company of swimming soldiers to every regiment, and describing sundry very important duties of which they would be capable.

The Palladium of Friday last states "Leonardi da Vinci, the celebrated painter, had a violin made of silver"—to which might have been added, the late Doctor Elarg, of Boston, had a violin made of leather.

Remarkable Fact.—The Baltimore Morning Chronicle mentions that the wife of Mr. Davis, who resides near that city, has had, by two husbands, twenty-nine children in thirty years—her youngest is but 7 months old. Such breeders as Mrs. Davis are rare in any country. Ireland cannot produce her equal.

The turnpike road from Hagerstown to Boonsborough, a distance of ten miles, connecting with the great national road to the West, has been done according to M'Adams' system, and is pronounced decidedly the best road in the United States—cost about \$68,000 for the whole distance, and it is said already it divides three or four per cent to the proprietors.

Major Andrews, of the War-Department, arrived in town on Tuesday morning, on his way to Georgia. It is supposed, from the high standing of Maj. Andrews at Washington, and his connection with the War Department, that he has been deputed to visit the Indian territory, to ascertain the causes and extent of the late disturbances there. He was detained here during Tuesday, as the stages for Georgia leave here but thrice a week, on Mondays, Wednesdays and Fridays.

At a meeting of the Ohio Canal Board of Commissioners, it was resolved that the ceremony of breaking ground, be fixed for the 4th of July next, and that the President of the Board be instructed to invite by letter, His Excellency De Witt Clinton to be present and deliver an address on the occasion.

A treaty of peace, amity, navigation and commerce, between the United States of America, and the Republic of Colombia, is published in the Nat. The General Assembly of the Presbyterian Church in the U. S. rose at Philadelphia, on the 26th inst. after a session of 13 days. This body consisted of about 150 members, from every section of the U. States. Among the many resolutions passed, was one approving of the objects of the African Colonization Society, and recommending to the churches throughout the Union to take up contributions on the 4th of July, or on the Sabbath immediately preceding, for the benefit of the society.

The General Assembly also resolved to establish another Theological Seminary, to be located in the West; they appointed a committee, of which Gen. Jackson is a member, to report on the most suitable site.

The Cape Fear Navigation Company held a meeting in Fayetteville on the 5th inst.; at which a dividend of 4 per cent. on the capital stock was declared; twice that amount might have been declared, but it was thought expedient to reserve a portion to meet contingent expenses. Jas. Mebane was elected President of the company, in place of Robert Strange, resigned.

TRIBUTE OF RESPECT.
The citizens of Philadelphia, in token of their respect for the splendid talents and distinguished character of his Excellency De Witt Clinton, (on a visit to that city) gave him a dinner on Saturday, the 4th inst.; among the many toasts drunk on the occasion, was the following volunteer:

By Judge Peters.—De Witt Clinton, the Father of the most distinguished Public Improvements—The gratitude of our nation should be his merited reward. (Three cheers, Standing.)

(To this compliment the Governor made an appropriate reply, and gave a sentiment in return.)

Something New.—The mails between Philadelphia and New York are hereafter to be transmitted twice a day—one at 5 o'clock in the morning, and another in the evening—except on Sundays, when it is to go but once a day, as heretofore. This is the first instance in the U. States, of the mail being transmitted on the same route oftener than once a day.

Destructive Storm!—The late storm seems to have been most awfully destructive in some sections of the Union. The village of Burlington, in Ohio, was literally swept from the ground, and totally destroyed; but what seems miraculous, is that only three persons were killed. Almost every animal in the country was destroyed; on many farms of two and three hundred acres, not a standing tree was left—they were all prostrated with the ground. Particulars in our next.

The Philadelphia Freeman's Journal says, that during the storm on Saturday night, the 4th June, inst. the ground in that city was covered with snow! Might it not have been hail?

Mr. Noah, Editor of the New-York National Advocate, himself a Jew, has purchased Grand Island, in the Niagara river, belonging to the state of New-York; where he intends inviting his brethren from Europe, and forming a colony of them on Grand Island. This step has no doubt been taken by Mr. Noah as a kind of set-off to the great efforts made by a society in New-York to christianize the Jews, by colonizing them in this country. An auxiliary society to the above, was, it will be recollected, formed in this place, some two years since; and subscriptions taken up and forwarded on to New-York.

The Markets.—Our Fayetteville and Charleston mails failed to arrive last week; we are consequently obliged to omit the prices current at those places.

An arrival at New Orleans from Alvarado, brings information that a body of Mexican troops, stationed at the Island of Sacraficos, mutinied on the 30th of April, and put all their officers to death. All in one day.
I WOULD be drawn in the city of Baltimore on the 27th next month, (July,) by the Improved Mode, secured by letters patent under the seal of the United States.

COHEN'S OFFICE, Baltimore, June 2, 1825.

The Improved Mode of drawing having been universally and so decidedly approved by the public, as evinced by the unprecedented sales in the late State Lottery, the Commissioners appointed by the Governor and Council, have again adopted the same plan in the following scheme, which we have the pleasure now to present, viz: GRAND STATE LOTTERY OF Maryland, No. 5. Highest Prize 40,000 dollars.

Superb Scheme.
1 prize of \$40,000 is \$40,000
1 prize of 10,000 is 10,000
1 prize of 5,000 is 5,000
10 prizes of 1,000 is 10,000
50 prizes of 100 is 5,000
50 prizes of 50 is 2,500
200 prizes of 20 is 4,000
250 prizes of 10 is 2,500
500 prizes of 6 is 3,000
20,000 prizes of 4 is 80,000
21,048 prizes \$160,000

40,000 Tickets. More Prizes than Blanks.
Every Prize payable in CASH, sixty days after the drawing—subject to a deduction, of 5% ten percent.

MODE OF DRAWING.—The Numbers will be put into one wheel as usual—and in the other wheel will be put the prizes above the denomination of Four dollars, and the drawing to progress in the usual manner. The 0,000 prizes of \$4 will be awarded to the odd or even Numbers of the Lottery (as the case may be) dependent on the drawing of the capital prize of Forty Thousand Dollars—that is to say, if the 40,000 dollar prize should come out to an Odd number, then every Odd Number in the Scheme will be entitled to a \$4 prize. If the 40,000 dollar prize should come out to an Even number, then all the Even Numbers in the Scheme will be each entitled to a prize of Four dollars.

Odd Numbers are those ending with 1, 3, 5, 7, or 9.
Even Numbers are those ending with 2, 4, 6, 8, or 0.

This mode of drawing not only enables the Commissioners to complete the whole Lottery in ONE DRAWING, but has the great advantage of distributing the small prizes regularly to every alternate number in the scheme, so that the holder of two tickets or two shares of tickets (one odd and one even number) will be certain of obtaining at least one prize, and in the same ratio for any greater quantity.

A Ticket drawing a superior prize in this scheme, IS NOT RESTRICTED from drawing an inferior one also; (many tickets therefore will necessarily obtain TWO PRIZES EACH.)

THE DRAWING will take place in the City of Baltimore on Wednesday, the 27th JULY, and will finish on the same day.

The Brillancy of this scheme is ALTOGETHER UNPRECEDENTED. Adventurers will remark the low rate of tickets—the very trifling risk incurred, (there not being one blank to a prize) and that the capital prize of FORTY THOUSAND DOLLARS, is of a magnitude hitherto unprecedented for so small a sum invested—above all, however, is the CERTAINTY OF OBTAINING AT LEAST ONE PRIZE by the purchase of two tickets or two shares—(one odd and one even number) and in the same ratio of certainty in the purchase of a greater number of tickets or shares.

Whole Tickets, \$5.00 | Quarters, \$1.25
Halves, 2.50 | Eighths, .625

To be had, in the greatest variety of Nos. [Odd and Even,] at

COHEN'S
Lottery and Exchange-Office, 114 Market-street, BALTIMORE.

Where in the late State Lotteries, were sold the Great Capitals of 100,000 dollars—40,000 dollars—two of 20,000 dollars—three of 10,000 dollars, besides no less than twelve capitals of 3,000 dollars, &c. and where more capital prizes have been obtained than at any other Office in America.

Orders from any part of the United States or Territories, enclosing the cash or prizes in any of the Lotteries, (post paid) will meet our accustomed prompt attention.

Addressed to J. I. COHEN, Jr.—Baltimore, Baltimore, June 2d, 1825. 2164

South Yarkin Bridge.
THE undersigned, commissioners appointed by the County Court to inspect, and reject or accept, the new Bridge across the South Yarkin, having yesterday visited the Bridge, feel gratified in announcing to the public that it will be completed by the 2nd day of July.

On that day, the Commissioners will again meet for the purpose of receiving the Bridge from Mr. Lemly, the contractor; when, it is hoped, that as many of the citizens of the county as can spare time from their accustomed avocations, will assemble there to see whether their money has been squandered in erecting another useless skeleton of a Bridge, or judiciously expended on a fabric that will adorn the county, facilitate the immense intercourse between the fertile section of country above, and that below the river, and long stand a monument to the public spirit that caused its erection, and of the faithfulness and skill of our fellow-citizen who built it.
