Resolved, That we deprecate the present Tariff, as onerous, because it imposes a high tax upon the necessities of life, and heavy burthens upon our foreign commerce, as unequal, because these burthens fall principally upon the agricultural interest, as unjust, because the protection it affords the manufacturer, is a tax laid upon the agriculturalist, enriching the former and impoverishing the latter, as unnecessary, because it is not demanded by the wants of the government; there being an excess of revenue annually in the Federal Treasury.

Resolved, That we value the Union, as we value our individual happiness and the happiness of our families, as we value our civil and religious liberty, as we value the security of our lives, liberty and property, and as we value our national independence and the noble sacrifices that have achieved it.

PROPOSALS For publishing in the City of Washington, two Weekly Newspapers, (in pamphlet form,) ONE TO BE ENTITLED THE MECHANIC'S REGISTER, THE OTHER THE FARMER'S REGISTER.

A PORTION of the Daily Telegraph will be devoted to Agriculture and the Mechanic Arts. Having the matter in type, we propose to make up two weekly royal sheets to contain sixteen octavo pages each; one to be entitled—The Farmer's Register—the other, The Mechanic's Register.

The price for these will be one dollar and fifty cents per annum, paid in advance. As this sum cannot be remitted by mail, any postmaster is authorized to receive it on account, and the paper will be forwarded on his receipt.

The Editor is willing, where one individual will obtain eight or more subscribers, and remit one dollar and twenty-five cents for each, to forward these papers at the rate of one dollar and twenty-five cents per volume. Each volume to contain fifty-two numbers.

The object of both these works will be, to place a cheap newspaper within the reach of every citizen; and, at the same time, to make it doubly interesting, by giving important information, suited to the avocations of those for whom it is intended.

Our subscribers and Agents are respectfully desired to promote the object of this address, and Editors with whom we exchange, are requested to give it an insertion in their respective papers. When they take into consideration the extra expense incurred by us, in furnishing them the report and proceedings of Congress, the request will not appear unreasonable.
