BY GEORGE D. PRENTICE.

Alone I walked the ocean strand; A pearly shell was in my hand, I stooped, and wrote upon the sand My name, the year, and date, As onward from the spot I passed One lingering look behind I cast, A wave came rolling high and fast And washed my lines away.

And so, methought, twill quicky be With every mark on earth from me. A wave of dark oblivion's sea Will sweep across the place Where I have trod the sandy shore Of Time, and, and been to me no more Of me, day, the name I bore, To leave no track or trace.

And yet with Him who counts the sands And holds the water in his hands I know a lasting record stands.

Inscribed against my name, Of all this mortal dart has wrought, Of all this thinking soul has thought, And from these fleeting moment caught, For glory or for shaule.

- From the Charleston News. THE WORM THAT DIETH NOT-A

FEROCIOUS PARASITE TAKEN-A MAN'S LEG. A short time ago a sailor went to the City Hospital from the British bark Georgiana, phey, Conservative. who was supposed to be suffering from a sore leg. The man had been ailing for near three John W Ellis, Conservative. months, but none of his shipmates supposed anything serious the matter with him. Accordingly, when, a few days before his re-moval to the hospital, he declared himself unable to walk about, the captain of the ship supposed that he was endeavoring to make an excuse for getting away from the vessel, that he might be left in port, the ship was very much swollen and manifested all symptoms of crysipelas, for which malady his Republican. affection was at first mistaken. At the end of a few days, however, an abscess formed on the inner side of the ankle, from which, siter it had bursted, protruded about three inches of a white, membranous looking substances an eighth of an inch in diameter. This singular manifestation induced a careful examination of the leg, which developed the fact that the man was affected with the dracunculus or Gninea worm. This is a horrible parasite. found only along the shores of the Indian Ocean, Red Sea, and certain portions of the Mediterrean. It infests damp and muddy soils and impure water, and generally attacks the feet and legs, but some-times other portions of the body. At the time that it forsakes its native element for the more luxurious habitation of flesh and blood, it is scarcely larger than a flea; but ing, Conservative, having burrowed itself beneath the skin, it 30th district—R. grows with alarming rapidity and will attain a size varying from six inches to six feet in length. by one-twelfth to one-eighh of an iuch in diameter. It lies dormant until it reaches the age of maturity, after which it com mences wandering and meanderings about the muscles and bones, which causes intense pain to the unsuspecting victim. It always Cowles, conservative. ravels downwards, and with such rapidity that it will sometimes travel the whole length of the human frame in twenty-four hours. It will sometimes come to the surface and lie under the skin like long white cord; but should the surgeon attempt to extract it wi h | auga, W B Counceil, conservative. the knife without first securing it with a nipwith the agility of an eel. If a portion of the ming - Gudger, conservatives. worm is removed the remaining portion will not die, but continue as gay and lively as ever. The first symptoms of the Guinea worm are a disagreeable itching and irritation of the infected parts. After it begins to move about its paths are followed by external abscenes also. It always ultimately endeavors to leave the system by working its way through the skin, generally near the ankle, but this only after it has left from ten to fifteen young behind. The usual number of

RICH WITHOUT MONEY.

ever known in Charleston.

the ravages of this worm, and where, it is

generally the result of some disease produced

by the inflamation and other effects of the worm's wanderings. The Guinea worm does

not confine its ravages to man, but will also

attack dog and horses. The sailor in ques-

tion made a voyage to the eastern coast of

Africa about six months ago, and while there

received the parasites into his system. One

of these worms has already been extracted

from his right leg, but another has made its

appearance in the left. He is doing as well

as can be expected under the circumstances.

This is probably the first case of the kind

Many a man is rich without money .-Thousands of men with nothing in their pockets are rich. A man born with a good sound constitution a good stomach, a good heart, good limbs, and a pretty good head piece, is rich. Good bones are better than gold; tough muscles better than silver; and nerves that flash fire and carry energy to every function are better than houses and lands. It is better than a landed estate to have the right kind of father and mother. Good breeds and bad exist among men as really as among reps. herds and horses. Education may do good ones; but it is a great thing to inherit the right proportion of faculties to start with. The man is rich who has a good disposition, who is naturally kind, reps. patient, cheerful, hopeful, and who has a Davie-Charles Anderson, con. Havor of wit and fun in his disposition.— Duplin-Jao B Standford, The hardest thing to get on with in this life is a man's own self. A cross selfish fellow-a despending and complaining fellow-a timid and care-burdened man -these are all born deformed on the inside. Their feet do not limp, but their thoughts do.

The Lowery Outlaws .- The Robesonian tells us that Stephen Lowery was present at a Justice's Court in Burnt Swamp township, in the Scuffletown district, on last Saturday. He was armed to the teeth, holding in his hands all of the time a Spen ser rifle and having his belt stock full of revolvers. There were on the ground a large number of mulattoes and half a dozen whites. He seemed entirely at ease, and during the progress of the trial manifested considerable interest in it. The trial was beld in the church, a close log building, from which it would have been impossible for him to escape otherwise than by the door, yet he seemed to feel on apprebension and but for the fact that he constantly held his rifle in his hands a stranger would not have seen anything in his manner to betray the peculiar relation in which he stood to society.

Prospectus for 1873.—Sixth Year. THE ALDINE,

An Illustrated Monthly Journal, universally admited to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

Not for Sale in Book or News Stores. THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. graceful literature; and a collection of pictuers, the rarest specimens of artistic skill, in black and whit. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publication 34th district-Iredell, Wilkes, and Almay claim superior cheapness, as compared exander, Thos A Nicholson, Phineas with rivals of a similar class, THE ALDINE is a unique and original conception-alone and unapproached-absolutely without competition in price or character. The possessor of a complete volume connot duplicate the quan-36th district-Caldweil, Burke, Mc- tity of fine paper and engravings in any other cost; and then, there are the chromos, besides!

ART DEPARTMENT. Notwithstanding the increase in the price of subscription last Fall, when THE ALDINI assumed its present noble proportions and rep-39the district -- Rutherford and Polk, doubled during the past year; proving that the resentative character, the edition was more than American public appreciate, and will support, a sincere effort in the cause of Art. The pubfishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work and the plans for the coming year, as unfolded

by the monthly issues, will astonish and delight even the most sanguine friends of TIII ALDINE. The publishers are authorized to announce lesigns from many of the most eminent artists

In addition, THE ALDINE will reproduce with a view to the highest artistic success, and | do. greatest general interest; avoiding such as have of any kind. The quarterly tinted plates for 1872, will reproduce four of John S. Davis' inimitable child-

sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription. The popular feature of a copiously illustrated 'Christmas" number will be continued. To possess such a valuable epitome of the ar

world, at a cost so trifling, will command the subscriptions of thousands in every section of the country; but, as the usefulness and attractions solicit calls from all who have it to sell. They of THE ALDINE can be enhanced, in propo . pay the highest market cash prices. tion to the numerical increase of its supporters, the publishers propose to make "assurance dou-ble sure," by the following unparalleled offer of

Premium Chromos For 1873. pays in advance for the year 1873, will receive, tra, and Super. without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled, "The Village Belle," and "Crossing the Moor," are 14 x 20 inches-are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for \$30 per pair, in the art stores. As it is the deermination of its conductors to keep THE AL-DINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, quaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and, considering the unprecedented cheapness of the price of THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of

THE ALDINE.) The Literary Department will continue under the care of MR. RICHARD HENRY STODDARD, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINF always in keeping with its artistic attractions,

TERMS.

\$5 per annum, in advance with Oil Chromos Free. THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given,

bearing the fac-simile signature of JAMES SUT-AGENTS WANTED. Any person, wishing to act permanently as a local agent, will receive full and prompt infor-

mation by applying to JAMES SUTTON & Co., Publishers, 58 MAIDEN LANE, NEW YORK.

Button-Hole, Overseaming

Complete Sewing MACHINE

The first and only BUTTON-HOLE AND SEWING MACHINE combined that has made its advent in this or any other country. The following reasons are given why this is the best
