Three sisters, all of Yadkin county, at three births, delivered six girl children, says the Mt. Airy Watchman. Virtue is its own reward. The pews in Plymouth church sold for \$12,000 more this year than when last rented. Another scandal and their value will be doubled. Gerrit Smith's estate is valued at two million dollars. He made his will twenty years ago, and all is left to his wife and children. His ruling passion of misplaced philanthropy was not so strong in death as in life. Statisticians declare a marked difference between Jews and Christians as to longevity. In one hundred Christians fifty die before the age of fifty-seven, and with Jews the same proportion reaches beyond sixty-seven. A man was seen coming out of a Texas newspaper office with one eye gouged out, and his nose spread all over his face like a piece of raw beef, and one of his ears chawed off. To a policeman who interviewed him, he replied; "I didn't like an article that 'peared in the paper last week; and I went in to see the man who wrote it. He was that stranger." A man, praising porter, said it was so excellent a beverage that, though taken in large quantities, it always made him fat. "I have seen the time," said another, "when it made you lean." "When I should be glad to know," said the eulogist, "why, no longer than last night—against a wall." When old Sam Crowder, down in Pike, was running for Justice of the Peace, his wife, in anticipation of honors in store for her, said; "My dear, when you get to be Justice of the Peace, what will I be?" "You!" said old Sam; "why, you'll be the same old fool you always was!" RUM.—One of Boston's sources of revenue is its rum trade with the Gold Coast of Africa. At the time the British authorities raised the duty on rum, last year, to 60 cents a gallon, there were 7 American steamers on the coast with about 387,000 gallons, 2 others were on their way with 147,000 gallons more, and another vessel (the Starr King) was getting ready to start with a matter of 75,000 gallons. DETERMINED TO WIN.—The Danville (Ky.) Advocate says:—There is a student attending Centre College this session who is a citizen of an adjoining county, is married and has two children. He can be found promptly at his post on Monday morning, with a wallet of provisions sufficient to supply him until Friday evening, when he returns to his home. The only expense that he incurs is a small fee for a bed in the dormitory during his stay from Monday to Friday, which is a mere trifle, the college generously furnishing tuition free. It is safe to predict an honorable future for that student. Here is a touching picture of a mother's love: A tin pal containing an inflammable mixture that had been heated burst in the hands of Mrs. Perry Bushnell, of Auburn, N. Y., a few days ago, and the burning material was thrown over Mrs. Bushnell and her little child on the floor. Mrs. Bushnell's eyes were put out, and she was enveloped in flame, but she began crawling about the floor to know if the child was safe. The latter was burned to a crisp, and the mother lived but a short time. To find out how deep the coal veins run, the Philadelphia and Reading Coal and Iron Company have drilled down two thousand feet. At fifteen hundred feet a vein fourteen feet thick was found, and at nineteen hundred feet a seven feet vein was discovered. The coal was at both places excellent in quality. If estimates made are correct, fifty million tons of coal can be raised before this bed is exhausted. POLITICS IN THE PULPIT.—The Rev. Dr. J. D. Fulton, of the Hanson Place Baptist Church, New York, preached a sermon on Sabbath morning last on the "Nation's perils and the way out," in which he undertook to defend the course of the administration and Gen. Sheridan in the Louisiana business. He evidently knows about as much about religion as he does about republican government. We have spoken of the English candidates at Woolwich passing an examination in English literature. Would it not be well if our students at West Point were taught something besides the manual of arms? A short course of constitutional law would have been a benefit to Sheridan and Grant, and even to the bellicose Belknap, who, we presume, was also a graduate at West Point. Two other Republican heroes of New Orleans had not the benefit of a military education, although from their warlike utterances the public might judge that they had graduated at two or three different schools, and smelt gunpowder from infancy—"Shoot him on the spot." Dix, and Ben Butler, who on the floor of Congress has said that he longed to "get at" New Orleans. If he is spending for a fight there are more ditchers in Essex, his native home, than the one who summarily knocked him down.—Balt. Gazette. THE HEART SHINING IN THE FACE.—I love a minister whose face invites me to make him my friend—a man upon whose doorstep you read, "Salve." "Welcome." Give me the man around whom the children come, like flies around the honey-pots; they are first-class judges of a good man. When Solomon was tried by the Queen of Sheba, as to his wisdom, he rabbit tell as that she brought some artificial flowers with her so beautifully made and delicately scented as to be a fac simile of real flowers. She asked Solomon to discover which were real. The wise man had his servants open the windows, and when the bees flew in they flew at the natural flowers, and cared nothing for the artificial. So you will find that children have their instincts and discover very speedily who is their friend, and depend upon it the children's friend is one who will be worth knowing. Have a good word to each and every member of the family—the big boys and the young ladies, to the little girls and everybody. No one knows how much a smile and a hearty sentence may do. A man who is to do much with men must love them and feel at home with them.

The New-York Tribune. "The Leading American Newspaper." FOUNDED BY HORACE GREELY. In the recent elections the people have declared in favor of honesty in politics and independence in journalism. The Tribune, which years ago declared that it was not and never would be a party organ, claims the verdict, as the popular vindication of its course, and recognizes in the result the voice of the people for reform and integrity in government, for order and independence among newspapers. During the campaign which has just closed THE TRIBUNE has fully maintained its right to the title of the "Leading American Newspaper." This position it has earned and retains for the following, among other reasons: It publishes all the news, earlier, more fully, and more intelligently than any other paper. It insists on peace throughout the whole country, the right of local self government, and the protection of all classes in the exercise of their just and legal rights. It advocates confidence and good feeling between North and South, and labors for an honest and abiding reconciliation. It maintains fairness and candor toward all public men and questions, and dignity and courtesy toward all classes of the community. It publishes scientific news, reports, discussions and discoveries to a degree of fullness and accuracy never before attained by any paper. It gives every week ten or more columns of the most carefully prepared agricultural matter during the year, much more in the aggregate than the entire contents of any other agricultural publication, and the whole forming a department of which an eminent agricultural editor said: "It has done more to make good farmers than any other influence which ever existed." It has published a series of scientific and literary extras which have met a wider sale and more emphatic popular approval than any similar publication of the kind. WHAT THE SOUTHERN PRESS SAY OF THE TRIBUNE. We consider THE TRIBUNE a very valuable paper.—(Asheville (N. C.) Citizen. THE NEW YORK TRIBUNE, in its faithful and searching exposure of outrage slanders on Alabama and other States, has done immense service to truth and justice.—(Macon (Ga.) Telegraph and Messenger. We thank THE NEW YORK TRIBUNE for its manly and powerful words in demanding justice for the people of Alabama.—(Montgomery (Ala.) News. The best newspaper in the world is the NEW YORK TRIBUNE. It combines the dignity and sagacity of the London Times with the representation of which an eminent agricultural editor said: "It has done more to make good farmers than any other influence which ever existed." A paper to be admired for its independence of tone and its reliability of news.—(Episcopal Methodist, Baltimore, Md. Any one who wants a first-class paper which keeps fully up with the times in literature, science and art should subscribe for THE TRIBUNE.—(Spartanburg (S. C.) Carolina Spartan. The imperial sheet of the world. The New York Tribune.—(The Jacksonville (Fla.) New South. We regard it as the best paper all in, published in the United States.—(Morristown (Tenn.) Gazette. To THE NEW YORK TRIBUNE is undoubtedly the first of American newspapers; whatever may be said of its rivals, it has clearly won precedence of all, and very creditably does it represent the journalism of the country. While dealing with the topics common to the range of a newspaper, THE TRIBUNE has the specialty of the great subject of agriculture. It becomes therefore a matter of vital importance to the country that the direction of the ideas of this paper should be in able and conscientious hands and a matter of congratulation that the farmer's newspaper far excellence has the high standing of THE TRIBUNE.—(The N. Y. South. THE NEW YORK TRIBUNE is doing a great work in popularizing science, by the publication of cheap extras to that great daily.—(Our Monthly, Clinton S. C. American newspaper enterprise is probably at this time more fully illustrated in the daily issues of THE NEW YORK TRIBUNE than in any other journal.—(Wilmingon (S. C.) Star. Unequaled in culture, dignity, comprehensiveness, and political independence, and intellectual fervor, no party ties, bold in its opinions of speech, and witty with no wild sensations.—(Raleigh N. C. Agricultural Journal. Surely the paper has maintained successfully the high popularity which he has been the name of an able conducted and independent journal, which is now deserving even more justly than at any time during Mr. Greeley's life.—(Petersburg Va. Index and Appeal. TERMS OF THE TRIBUNE. Daily, by mail, \$10 per year; Semi-Weekly \$3 per year; five copies, \$2 50 each; Weekly, \$2 per year; ten copies, \$1 25 each; twenty copies \$1 10 each. Postage and expenses are paid by THE TRIBUNE, and papers addressed to each subscriber, without extra charge. Agents wanted in every town, to whom liberal cash commissions will be paid. Salisbury, N. C., May 13-1f. Blackmer and Henderson, Attorneys, Counsellors and Solicitors. SALISBU, N. C. January 22 1874.—4t. A REPRESENTATIVE AND CHAMPION OF AMERICAN-ART TASTE! Prospectus for 1875—Eighth Year. THE ALDINE, THE ART JOURNAL OF AMERICA, Issued Monthly. "A Magnificent Conception Wonderfully Carried Out." The necessity of a popular medium for the representation of the productions of our great artists has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commercial triumph.—THE ALDINE. THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although the succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—one and unapproached—absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and thus, there is the chronic, better. The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself to the production of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters, giving subscribers all the pleasure and instruction obtainable from home or foreign sources. The artistic illustration of American scenery, original with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior paper. The judicious interspersal of landscape, marine, figure, and animal subjects, sustain an intense interest, and render the whole a work of art. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical distinctions do not interfere with the popular interest of the work. PREMIUM FOR 1875. Every subscriber for 1875 will receive a beautiful portrait, in oil colors, of the same noble dog whose picture in a former issue attracted so much attention. "Man's Unselfish Friend" will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to life, that it seems the veritable presence of the animal itself. The Rev. T. De Witt Talmage tells that his own Newfoundland dog (the finest in Brooklyn) barks at it! Although so natural, no one who sees this premium chromo will have the slightest fear of being bitten. Besides the chromo, every advance subscriber to THE ALDINE for 1875 is constituted a member, and entitled to all the privileges of the Union. THE ALDINE ART UNION. The Union owns the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5,000 subscribers, 100 different pieces, valued at over \$2,500 are distributed as soon as the series is full, and the awards of each series as made, are to be published in the next succeeding issue of THE ALDINE. This feature only applies to subscribers who pay for one year in advance. Full particulars in circular sent on application enclosing a stamp. TERMS. One Subscription, entitling to THE ALDINE one year, the Chromo and the Art Union, \$6.00 per annum, in advance. (No charge for postage.) Specimen Copies of THE ALDINE, 50 Cents. THE ALDINE will hereafter be obtainable only by subscription. There will be no reduced or club rates; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac-simile signature of JAMES B. CANNASSERS WANTED. Any person wishing to act permanently as local canvasser will receive full and prompt information by applying to THE ALDINE COMPANY, 58 MAIDEN LANE, NEW YORK

We claim and can show that it is the CHEAPEST, most beautiful, delicately arranged, nicely adjusted, easily operated, and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and the variety of work it will do, but also for the variety and different kinds of texture which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the INTERLOCKED-ELASTIC-STITCH, alike on both sides of the fabric sewn. Thus, heavier cloth, or leather, may be sewn with great strength and uniformity of stitch; and, in a moment, this willing and never-wearying instrument may be adjusted for fine work on gauze or gossamer tissue, or on tacking of tarlatan, or ruffling, or almost any other work which delicate fingers have been known to perform. And with its simplicity of construction; ease of operation; uniformity of precise action; and its speed; capacity for range and variety of work, fine or coarse—leaving all rivals behind it. We will pleasure refer the public to the Gold Medal and Bronze Medal and Diplomas awarded our Machines in America, Prussia, England, and recently in Austria at the Exposition in Vienna, where we were awarded five Medals, Merit, Progress, and three for articles manufactured on our Machines. But it gives us much greater pleasure, to present to the public the sworn returns of sale, (to which any one can have access) of the different Manufacturers of Machines, for the last four years, made to the receiver appointed by the owners of valuable Sewing Machine Patents, and which shows the precise number of machines sold by each company.
