THURSDAY, JANUARY 31, 1878.

The Special Term of Rowan Spperior Court is still in session, His Honor Judge Kerr, presiding. Too much praise cannot be bestowed

upon His Honor, for the patient and impartial hearing he has given all causes that have come before him, and for the rapid manner in which he has dispatched the business of the Court. We learn that forty-seven cases have already been tried and finally disposed of. Of these, a number have been on the docket for ten or fifteen years; and there were others of long standing, in which sultors had pressed for trial term after term, but in vain; owing, in part, to the incompetency and inefficiency of radical judges, and partly

to the accumulation of criminal business. As the Inferior Court now has jurisdiction of a large majority of the criminal cases, civil suitors and litigants may hereafter expect a trial of their cases at the first term. The cases shall stand for trial, and save, thereby, a great deal time, labor and expense. A number important cases were tried last week, among others that of W. A. Blount, Administrator of L. O. B. Branch, against Alexander Parker.

In the spring of 1865 the administrator of Gen. Branch had deposited ten North Carolina State bonds of the denomination of \$1,000 each, and six Virginia State bonds of the same denomination, in the to do this. iron safe of Maj. W. B. Gulich; the safe was shipped to this place in the month of April 1865, as a place of safety. About the time of Stoneman's Raid, the safe was broken open and rifled of its contents. Three of the Virginia State bonds came into the possession of the defendant, as he alledges, by finding, and were sold by him, and the proceeds converted to his own use. The defendant relied upon the statute of limitation. His Honor, reserving the question of the law. put the case to the jury, who rendered a verdict in favor of the plaintiff for thirtyone hundred and fifty dollars. Afterwards His Honor decided the question of law reserved in favor of the defendant. We presume the case will be finally settled in the Supreme Court.

The remainder of the cases for trial on the civil docket will doubtless be disposed of the present week,

The occupation of Egypt by the French brought on a war between them and the Turks, in which the latter by the aid of the British, were successful in regaining their lost territories, occasioned by the revolt of Egypt in the reign of Mustapha Turkey in Asia, and that part of Turkey II. In revenge for the defeat of his Egyptian expedition, Napoleon contrived to for Hog raising. You can on an acre of your entrap the Sultan into a war with Russia and Britain, which was confined to a struggle in Egypt, in which the British were worsted. Egypt, subsequently, during the reign of Mahmud II, threw off the authority of the Sultan, and is now merely a nominal dependency, Greece, too, about this time, established her independence of Turkey; and the Turkish dominions were still further curtailed by the loss of the country between the Dniester and the Prath, which by the treaty of Bacharest in 1812, was surrendered to Russia.

Abdul Medjid ascended the throne of the Osmanlis in 1839. The time has come when almost every county finds it indispensable to have a ests in the various afficirs of business, local and general. There is no county in the State that would not be greatly benefited by a journal within its bounds especially devoted to the promotion of the local interests of the community, Such a paper appeals very strongly to the partiality and pride of the section it serves; and every citizen should give it his countenance and support it liberally, as a means of increasing its usefulness and extending its influence at home and abroad. The stronger it becomes the more beneficial it will prove; and as the money required for its support is far less than the material good it does, it is the best investment any county can make. The Record will of necessity take part in
