Mr. Robbin's late Speech .- We copy an tive, Mr. Robbins, on the tariff question; power, I will repay. and as it is a subject which concerns every man, woman and child, we arge our friends to read Mr. R.'s able speech in behalf of his State and section.

The Richmond Dispatch also notices this speech as follows:

THE SPEECH OF MR. ROBBINS.

Mr. Robbins, of North Carolina, followed Mr. Tucker, and made a capital speech of nearly an hour and a half on the same side of the tariff question. It was a clear, able, and carefully-prepared presentation of the arguments on his side of this great question. North Carolina has a first-rate delegation in Congress, and among them there is no better member than Mr. Robbins. Mr. Kelley will speak to-morrow against the bill, and Mr. Garfield will probably fellow him in opposition to it.

The Charlotte Observer says : the seventh district of North Carolina, in canvass. If they are sound they are likely to be popular. Every free man ought to have opinions of his own, and know upon what facts they are based.

How this world is given to injustice.

We are indebted to Hon. Robt. B. Vance for a copy of his speech on the National Banking System as a monopoly, and the taxing of State Banks 10 per cent, a gross injustice. We trust our representatives in Congress will unremittingly demand a repeal of the 10 per cent. tax on State Banks, and also the internal revenue law. The tax completely hobbles enterprise and prosperity in the South; and the internal revenue system is not only a great burden to the people but also a great corrupter and a prolific source of crime.

D. BARRINGER. Mr. Barringer has been voted for by the Conservatives in several of the township meetings, and so far as we know accepts the usual conditions of having his name brought before the County Convention on the 18th May. We understand the above note as designed to convey this idea; and as a rejection of any "independent" movement or purpose on his part. It would not be amiss for him to speak out more pointedly on this subject, since it is apparent that parties without his knowledge or consent are persning a course which

[From the Raleigh Observer.] WEDNESDAY, May 8th, 1878 .- Monday's 'special" to THE OBSERVER reports Mr. Scales as expressing the opinion that the vote on the bill reducing the tax on tobacco was a fair test vote and that the passage of the bill was certain. THE TOBACCO TAX. The bill reported by the Committee of Ways and Means, reducing the tax on tobacco to sixteen cents, was not low enough. He was the first to introduce a bill at the very earliest day of the extra session, reducing the tax to twelve cents on the pound. He believed it was right then and believes it is right now. The agitation of the question had caused great disturbance and very considerable loss to the tobacco trade. He had been held rethe good sense of his constituents, who well knew his zeal and singleness of purpose in behalf of their interests, for his complete vindication. He here carnestly argued the expediency of a reduction. Statistics abundantly showed, he said, what common sense and a knowledge of the laws of trade enabled everybody to foresee, that by lowering the tax and thus lightening the burdens on the tobacco business there has been and will be a large increase in the aggregate of that business. As to the

feasibility of reduction he showed that by the present tariff (assuming that the pending bill would not become a law) will produce next year \$133,000,000; that the Internal Revenue taxes will yield \$120 .-000,000. The proposed reduction on tobacco will reduce the latter amount \$6,-000,000. This leaves \$247,000,000 as the receipts for next year-\$13,000,000 more

I trust I shall be pardoned for dwelling at length upon my own State and her comparative growth

in material wealth. I have done so because slie is so good a representation of that large number of States which have suffered and been retarded in prosperity by unfair legislation and unjust treatment on the part of the Federal government, especially in this matter of taxation and the distribution of favors. She asks to be protected from the so-called protectionists and from the ruinous extertions and oppressions of the internal revenue tax-gatherer. Robin Hood, the free-booter of Sherwood Forest, robbed the rich to help the poor, and yet was accounted an outlaw. What must be said of those who rob the poor to favor the rich, and yet call it protection! I apneal to this House to adopt the very moderate and conservative measures we have reported looking towards a modification of high protective tariff duties now levied for the benefit of the long favored manufacturing classes, and a reduction of the exorbitant taxes now imposed upon the products of the field, and thus give the more even chance in the race for wealth and prosperity."
