A Sheep Farm in Georgia.

A writer in the Atlanta (Ga.) Con stitution says, in 1871, he bought 400 acres of reputed poor land in Glynn county, Ga., and put upon it 100 sheep. In 1873, by natural increase, he had 376 ewes, and had sent to market 73 wethers. His sheep were penned ed a half acre well. Since that time he had brought into a high state of cultivation one hundred acres of land that seven years ago would have been considered worthless. Since 1871 he has owns 1,690 head. He keeps a shepherd, who is paid to attend to his buscasting up a balance sheet, that it costs exactly fifty-seven cents a head per annum to keep his flock. They Renshaw's Ford, thence down the river which shall adopt this act or adjoining average him about three and a half pounds of wool each. Last year he majority of the qualified voters of said law prevails, may have his or their lands clipped in May, and again in September, and the clip amounted to five and a half pounds per head. Last year he sold in Savannah and Macon 8,000 pounds of wool, at an average of thirty cents per pound, including a few pounds of Merino wool, which makes the gross receipts of \$2,970. The annual expenses of the flock was \$1,-026. So there was an absolute net profit in the wool of \$1,664. Last year he sold in the above cities ninetytwo wethers as mutton for \$343, making a total of \$2,280. Besides this, he has fertilized the poor wire-grass land so that last year he cultivated 84 acres, and from 41 acres in corn he made 56 barrels of syrup; 15 in oats, that av eraged 42 bushels to the acre, and on the remainder an abundance of all kinds of truck-farming, receiving for his sales of vegetables in New York a net

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

Symptoms of a Diseased Liver.

DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low: and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases, have occurred where few of them existed, yet examination of the body. after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND LEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine.
