

LOCAL.

THURSDAY, OCTOBER 27, 1881.

NEW TERMS.

From and after the 1st day of January, 1882, the subscription price of the Watchman will be as follows: One year, paid in advance, \$1.50...

MINING PROPERTY.—Persons having mining property to sell would do well to advertise it. We propose to give room to such notices, to be kept standing under the general caption of "MINING PROPERTIES FOR SALE."

Those having properties the value of which is not generally known, should give references to reputable persons known to be acquainted with such matters. This paper has a good circulation among mining men North, and in the state, and can be of service in the way proposed.

Mrs. Susan Simpson and daughter, of Pensacola, Fla., are the guests of Mrs. Wm. Overman, Jr.

Visitors are beginning to come in next week, the city will be full. A great many not connected with synod are expected.

POSTPONEMENT.—See notice of North State Gold and Copper Mining Company.

The St. Louis Mining News, a sprightly mining paper is on our table. We cheerfully add it to our exchange list.

See ads. of Messrs. R. Holmes and J. Allen Brown. They are in receipt of large quantities of lime which they offer at low figures.

A new industry has lately been started in this county by Mr. John Ingle, a manufacturer of stone ware. His establishment is 8 miles south, near the New Concord road.

The Hook & Ladder Company hold their regular monthly meeting at their hall on Friday night, Oct. 25th, at 7 1/2 o'clock.

Has the Salisbury Watchman hydrophobia, or is it merely a disease that is causing it to snuff around at its inefficient neighbors?—Statesville Landmark.

Will the Landmark prove its own sanity by a proper explanation?

REMOVAL.—Barker's Drug Store will be moved to the vacant room next to Bingham & Company on the 1st of November. The room vacated by him will be occupied by Mr. Chas. Graham with a line of groceries.

Mr. Fred Menus, a workman at the car shops in this place, had his hand caught in a circular saw last Saturday. Three of his fingers were nearly amputated. The hurt is very painful.

RECEPTION AND BIRTH-DAY PARTY.—On last Monday evening Mrs. F. E. Shober gave a reception to Miss Aspinwall, of New York, and a party in honor of the 21st birthday of Mr. Frank Shober, Jr. This gentleman has just returned from an extensive European tour. The evening was joyously spent—a social gem.

Matrimonial.—On last evening (26th) at 8 o'clock, the marriage of Mr. Thomas Frank Young to Miss Mary A. Kliffmuller was celebrated at St. Luke's Episcopal Church Rev. F. J. Murchell, officiating.

The church was filled; expectancy and joy lighting the faces of the fairer portion, while the sterner sex (not so expressive in face) waited with more patience the coming of the happy couple. Presently the organ signaled their approach by sounding the beautiful march in "Massanello."

First came the maids and grooms walking slowly up the aisle and crossing to their places, then the Bride and Groom. She was dressed most exquisitely in white satin and rich lace—a perfect model of beauty, and the groom in full dress. They walked gracefully to the altar where the impressive ceremony was performed. After the old German style, the bride and groom exchanged rings at the altar.

The couple were waited upon by M. S. Brown and Miss Lou Drake, Jas. W. Ransome and Miss Jennie Eames, Dr. A. Baker and Miss Sallie Marsh, W. G. Ramsey and Miss Annie Brown, Earnest Young and Miss Bella Boyden, E. R. Overman and Miss Lena Shober, A. M. Young and Miss Fannie Nordflet. The presents were very handsome and were much admired.

The reception given by Mrs. M. A. Kliffmuller at her residence was an exceedingly pleasant affair. Here the scene was more lively; interchange of thought, congratulations and feasting marked the hour. Until a late hour the guests lingered, reluctant to leave a place so charmed with grace and beauty, but the "good night" must be said, and the happy pair left to their sweet meditations.

On last Monday, Mrs. F. E. Shober received a telegram from Senator Ransom to the effect that Mr. Shober, formerly chief clerk, was that day made acting Secretary of the Senate. The resolution was offered by Senator Edmunds, and was unanimously adopted. This intelligence has been published in the association press dispatches.

THE SYNOD.—Pretty diligent preparations for the assemblage of the Presbyterians of the entire State have been and are still making in certain parts of the town. It is designed to make the occasion pleasant, and morally profitable, to all, whether visitors or citizens of the town. The church repairs are completed, and we think there is little now to do but to welcome those who are expected to compose that body.

In addition to the 86 Delegates reported last week, there have been about 60 new ones; making in all nearly 150 reported thus far. The prospect is that the meeting will be unusually large and interesting. We notice that the Rev. Dr. Peck, of Union Seminary, is down in the list.

The Salisbury Rifles at Yorktown. As most of the papers are filled with descriptions of the Yorktown Centennial, we propose only to speak of the part taken by those in which the people of this immediate section are most interested. As is generally known the Rifles are commanded by Capt. Theo. Parker, formerly Lieutenant in the U. S. Army. He being the Senior Captain of the Western division, was placed in command of the detachment consisting of the Salisbury Rifles, Hornets Nest Rifemen, Winston Light Infantry and Rockingham Guards.

Arriving at Camp, Capt. Parker was made Assistant Adjutant-General on the Staff of General Manly, who had command of the N. C. troops. It is due Capt. Parker to say that as Gen. Manly's Assistant he performed most of the work done in camp. Gen. Manly's time being taken up otherwise. On Thursday evening Capt. Parker drilled his company before the headquarters of Gen. Manly and the drilling was so perfect that the General said he thought there must be some trickery in Parker's drilling and asked that the company be turned over to him. This was done, and the company did as well as when commanded by Parker. Gen. Manly then pronounced them the BEST DRILLED COMPANY.

from North Carolina; and invited them into his tent and ordered refreshments. This is quite a compliment to the Rifles especially when we consider that there were about 600 N. C. troops present.

Capt. Parker was also honored with an invitation to Gen. Hancock's reception, on board a Man of War in the Yorktown Harbor. Returning from Yorktown the Rifles remained in Richmond from Friday noon until Saturday noon. They were the guests of the Richmond Howitzers, who are the oldest, best drilled and best equipped company in the State of Virginia. The Howitzers did all in their power to make the occasion a pleasant one. They have a splendid armory and grounds.

All together, the writer was not pleased with the regimental and battalion drills of the N. C. troops. They lacked that familiarity with the drill which gives assurance and ease. The blame may be traced to several sources. The inefficiency of her officers and the lack of practice. The first may be remedied by appointing competent officers, and the second by enforcing the military laws and by the States doing her duty to her soldiery. They need annual encampments and a reasonable allowance to maintain them. These things must have been apparent to the Governor and State officials present. If not, we are sorry for them.

THE STATE BAND. We are glad to note that this organization, with but part of two days practice, was a success and proved a credit to the State. It too should be encouraged by the State. In fact, each Battalion should have a first class Band, said Band to go into the annual encampment with the soldiers. What has been said has been with the hope that some life may be infused into the Rip Van Winkle State in regard to her soldiery.

DIED. At her residence 3 1/2 miles west of Salisbury, at 1 o'clock, Thursday night last, Mrs. ELIZABETH LOWERY, relict of the late Col. Richard Lowery, aged about 78 years.

The deceased was a severe sufferer for about two years, caused by a fracture of the hip joint. During the most of that time she was closely confined and unable without assistance to get in or out of her bed. Her general health was also impaired, which greatly increased her sufferings. But she bore it all with patience and fortitude. She was fortunate in having the unremitting and loving attention of her niece, Mrs. Bettie Pinkston, whose devotion was the subject of constant gratitude up to the hour of her departure.

The deceased was a person of excellent natural gifts, and though a widow for many years, guided her affairs with wisdom and discretion. Her attachments were strong, and she rarely omitted an opportunity to serve her friends when in need. Her house was the resort of many who shared with pleasure her simple hospitality. It was a resting place for preachers, especially of her own denomination (Presbyterian), who always met a cheerful welcome. Her demise is met the removal of an ancient landmark. It is the obliteration of a once prominent household, as highly esteemed as it was well and widely known. Her immediate neighbors feel and mourn the loss. But they died in faith. Her last words were—"Lord, receive my spirit;" and her breath ceased with the invocation. "The Lord shall preserve thee from all evil; he shall preserve thy soul."

No head-ache or back-ache for ladies who drink "WINE OF CARDUI." At Theo. F. Kluttz's.

MINING INTELLIGENCE.

T. K. BRUNER, MANAGER.

A new engine and pump has arrived for the Yaddin Mine.

Mr. Wm. F. Buckley, proprietor of Dann's Mountain Mine, has been here examining the progress of the work, now going on at that mine.

Atlas and Bame. Prospecting is going on with encouraging results. Several new veins are being developed, with a fair promise of "pay ore." Machinery is soon to be placed on this property.

Copper Knob. It is reported that smelters will be erected at the Copper Knob Mine. If such is the case the North State Company should realize enough to enable them to pay dividends from the ore now on the dump.

Scott Hill Mine, in Burke County, consists of 400 acres of land, 8 miles from the West. N. C. Railroad. It is placer and free milling flint quartz. Veins of quartz from 5 to 30 inches, rich in free gold and nuggets. Also one vein of galena. Up to this time about \$50,000 has been taken from the property, Mr. J. H. Ennis of this city is interested in the property.

Dutch Creek Mining Company. This company was permanently organized under the laws of North Carolina, in this city last week. Mr. John C. Pennington is President and Treasurer; J. J. Newman, Secretary; principal office, Salisbury. Directors: I. W. England, T. F. Hoxsey, J. C. Pennington of New Jersey and J. J. Newman of North Carolina. Capital stock \$150,000 divided into 1500 shares. Stock paid up and now assessable.

A portion of the machinery, for working ores by chlorination, has arrived. The remainder is on the way. Work is progressing at the mines. Down 65 feet; and have a tunnel at water level, through which ore from the "Hill" and "Tip Top" veins will be conducted to machinery. They propose to work from 25 to 50 tons per day.

THE HOOVER HILL MINING Co.'s Official Report to London office dated Sept. 14.

The experience gained so far goes to prove that seventy per cent. if not more, of the gold is sulphurets and that the portion of free gold, minute as are the particles, are coated over with a film of sulphides that resist free amalgamation with quicksilver and that we obtain very little of the gold contents either in the stamp-battery or on the copper plates. I have, therefore, had put two extra runs of blanket flumes. We are going through a systematic series of assays from the mine downwards and through the mill process, and I trust in a short time to send such details as will conclusively point out where our gold is, and what is advisable to be done to get it out. — London Mining World.

This strikes us as being rather a humiliating confession on the part of the Superintendent of Hoover Hill. The public has been led to think otherwise of this property.

There is only about 2 per centum of sulphurets in the ore taken out, and if that 2 per cent. carries 72 per cent. of the gold, it leaves a very short margin—in fact far below what has been represented. It is whispered that there has been foul play, either in the management, or in the sale of this property. We make no charges, but merely state that this whispering is an open secret among mining men.

If either should prove true, the guilty parties, whether those who made the sale, or the management, or both, should be dealt with in the most rigid manner. The time has passed when false statements, "salting" and other "tricks" to swindle unsuspecting capital, in either selling or working mining property can be practiced with impunity. We hope there is nothing of the kind in this instance.

THE WATCHMAN has interested itself in legitimate mining and will never knowingly countenance any fraudulent speculations.

We do more harm to ourselves than to him, when we do injustice to any man, even in our thoughts. To allow in ourselves what we condemn in others is gross hypocrisy. A want of candor injures yourself more than your adversary. One element of the unrivalled power and plausibility of Charles James Fox was a debater was the fairness and force with which he stated the arguments on the other side—in some instances, as was thought, with more clearness and vigor than their advocates and champions.—The injury done to ourselves by the voluntary suppression or violation of the truth occurs not only on account of God's judgment hereafter, but because of the loss of conscious self approval.—Raleigh Record.

Teple letter to New Orleans Times.

EXILED SOUTHERN FAMILIES.—The Tres Marias are three well known small islands, forty miles off the coast from Teple. Maximilian sold these islands to five Confederates in 1864. These men went and purchased them also from Juarez or the Liberal Government, when it was in the field. These three islands have about 8,000,000 acres of sea island cotton land. There are now about seventy-five or eighty Confederate families on these islands. They each have an immense plantation, and one who is here now, Mr. Jacob Ashlock, of Kentucky, says that their crop year after year averages one and three-fourth bales to the acre.

M. S. BROWN HAS NOW HIS FULL STOCK OF FALL AND WINTER CLOTHING.

OVERCOATS FOR MEN AND OVERCOATS FOR BOYS FROM \$2.50 TO \$20.00. DRESS SUITS For Men and Boys From \$8.00 TO \$35.00. BUSINESS SUITS FOR MEN AND BOYS FROM \$3.00 to \$20.00.
