Subscription Rates:

The subscription rates of the Carolina Watchman are as follows: 1 year, paid in advance, \$1.50...

Chickens are higher in this market now than ever before known to be.

Charlotte will celebrate in a modest way, the 20th of May.

The first moon-light picnic of the season was given last Monday evening at St. John's Mill, on the River.

Strawberries are exceedingly abundant in the garden. The season has been favorable for them.

The Ice Cream Saloons have opened with taste and beauty. We acknowledge compliments from J. T. Morgan and Mr. Swiergod.

If the weather continues cool for a few more weeks, it will make the June bug crop, something later than usual.

The nite parties for the benefit of the Methodist church have been resumed, and will continue during the Summer and fall.

The Royal Arcanum have settled promptly with the widow of Mr. C. N. Price, deceased. He was insured in that order.

Doctors J. Whitehead, J. J. and E. M. Sumner are at Tarboro, in attendance on the meeting of the State Medical Society.

Another wire was put up last week, from the main line to the Telegraph office, and a new receiving instrument placed. This gives direct communication with Washington City and some points South.

The usual number of canvass covered sheds are being spread in the business part of town. The addition of a few hand organs would give Main street the appearance of a row of side shows. But it is comfort not business or looks that is aimed at.

The Hayden House is coming to the front. The last improvements are electric bells and printed bills of fare. Capt. McNeely has made a reputation and is determined to keep it up. The Hotel will hereafter be known as the McNEELY HOUSE.

ATTENTION, LIPE'S CLUB!—Persons desiring to join this club for the new year, beginning the 5th of June next, who are conversant to China Grove are requested by Mr. Wm. Lipe to leave their subscription money with the Post Master at that place before the above date.

Mr. Chambers Owens lost the index finger of his left hand Monday, by the accidental discharge of a revolver he was handling. The bones of the finger were so completely shattered that amputation was the only alternative. It was taken off at the knuckle joint.

Rev. Dr. E. V. Gerhart, of Lancaster Pa., passed through Salisbury on Tuesday en route to Newton. He preached the annual sermon to the High and Normal school at Newton on Wednesday night. Next Sunday he will preach at Lower Stone, Rowan county, and Bethel, Stanly county.

High WIND.—Tuesday last was a windy day as we ever have in March. The fury of the wind whipped off quantities of the young leaves and twigs of our shade trees, litterally covering the ground with them in places. Cool but dry weather has followed. Farmers are hindered in their work for lack of rain.

Mr. J. J. Foley, of the New Orleans Bar, delivered his lecture, "The Forensic Orators of the Old World," in the Y. M. C. A. Hall on last Friday evening. He had a small, but appreciative audience, who enjoyed his eloquence as he led them in pleasing flights from one to another of the great talkers of Athens, Rome, England and Ireland.

We learn that the Western N. C. R. R. Co. have succeeded in making arrangements with the Tennessee and Western lines by which they secure through connections for freight and passenger service to any part of the west and north-west, on terms which give them the advantages of a fair competition with all other routes. This route will be known as the French Broad route, and the passenger schedule will go into effect on the 4th of June.

It is rumored on the streets that the new board of Aldermen intend clearing the streets of all kinds of merchandise, implements and machinery. There is probably an ordinance to the effect, and if not, they have the right to make one. It would be a splendid joke—another good joke would be to attack the cow sheds. This new board is determined to do something the old board failed to do—who knows what it will be?

Since writing the above the Aldermen have cleared the streets of all the obstructions about referred to.

THE SHARP is getting out some formidable looking blanks. Those who are still behind with their taxes will do well to settle at once to save costs and some trouble besides. His time for indulgence has expired, and the law now steps in and demands a settlement. No excuse is valid. Remember that by leaving the county you do not free your obligation to pay taxes. Under the new law, a man may be indicted and imprisoned for the non-payment of his taxes, and the officers of our county may take a man who is due taxes in another county. This new law goes right in for collecting taxes and there is no dodging.

Rev. J. B. Boone, of this city, delivers the Literary Address at Big Lick Academy, to-morrow. The commencement exercises at Mineral Springs Institute, O. C. Hamilton, principal, in Stanly county, near the Narrows, will begin the 24th instant. Rev. J. B. Davis, D. D., of Mt. Pleasant, will deliver the Literary address.

The commencement exercises at Albemarle Academy, Prof. Spinks, principal, begins May 30th. Hon. Clem. Dowd will be the orator of the occasion.

Neither of these institutions have been in existence exceeding six or eight years, and have already attained a pretty wide reputation. We trust they may long continue to dispense the blessing of education and morality.

The new city dads have been at work. Their first business after being sworn in was to elect town officers. The following names held the lucky numbers: Clerk, Maj. P. N. Smith. Treasurer, O. D. Davis. Tax Collector, T. B. Beall. Cotton Weigher, A. S. Lewter. Hay Weigher, G. W. Wright. Sexton, J. J. Bell.

For some reason, best known to the board, the election of Policemen was postponed for several weeks. It is reported that there are several colored applicants clamoring for these places. While the colored vote entitled them to recognition in the distribution of offices, yet it would hardly work to have colored policemen here. Owing to the prejudice which already exists between the races caused by several unfortunate circumstances, needless to mention,—there would be endless trouble.

Dr. W. A. Wilborn, principal of the Graded school has had a call to go Texas and take charge of a large school.

Mr. J. F. Moser, also a teacher in our graded school, has been offered a professorship in the large and flourishing College, at Conover. There is one thing certain, and that is that the people of Salisbury must have a school for the education of the six or eight hundred white children growing up within her limits. Should all the teachers leave the town, and the graded school building stand idle, two things would follow. First, those who are able to educate their children would support private schools, or send their children away, and second, those who are not able to pay tuition in a private school must grow up in ignorance.

It is a lamentable fact the white people in the county are not so diligent in the pursuit of knowledge, through the medium of the school room, as are the colored people. These few facts are food for thought for the powers that be.

The next best thing that the Commissioners of Salisbury can do in respect to street improvement, since the people have refused to make a debt, will be to begin now to consider the subject in the light of all the facts attainable as to the best possible method of proceeding under the circumstances. And whilst we do not assume to judge for them, we respectfully suggest that our old methods are neither wise nor economical. It does not pay to hire men to work with picks and shovels where it is possible to employ scrapers and horse power. It is not economical to hire men to break stone with hammers where it is practicable to have it done by crushers, as at the gold mines in this vicinity. These and other details are fitting subjects of inquiry when it comes to be considered what can be done on this important subject with the means available for the purpose. And if we are correctly informed this is no trifling sum. It is possible to appropriate from \$1,500 to \$1,800 a year from the receipts per annum, after meeting other necessary expenses and paying off part of the town debt. This ought to be sufficient to accomplish a valuable, permanent improvement every year; and if judiciously managed will certainly do it; and if prosecuted with steadiness, would in a few years accomplish all the good proposed by a public debt. And this is the method of proceeding which seems popular at this particular time; and one of the arguments in support of it is, that it avoids a grinding public debt.

We are aware that there are members in the new Board who are practical on road questions, and who are well aware of the wastefulness of all merely temporary repairs. But with not less than six miles of road-ways and nearly double that of pavements to put in readiness for winter and keep in order, with clamoring citizens in every part of the town for a little work here and a little there, it is feared that they will not be able to accomplish anything in the way of a permanent improvement.

Mrs. Fair has been granted a divorce from her husband with an allowance of \$4,250,000 and the custody of the three youngest children. The oldest son, the same who tried to shoot his father some time ago, remains in custody of the father.

MINING.

T. K. BRUNER, MANAGER.

At the Shaford Gold mine in Catawba county, everything is working satisfactorily. This is among the best properties in the State.

Work is progressing fairly at Morris Mountain, in Montgomery county. Mr. N. M. Thayer, is taking out some good ore on his place, in the same county.

Mr. Geo. B. Kestler, who lives some eleven miles southeast of Salisbury has brought in some fair copper ore taken from a surface outcrop on his farm. The indications seem favorable for finding a marketable ore at a reasonable depth.

Keep your eyes open—the great Americanized land shark will visit this section at short intervals; for the purpose of taking up everything in the shape of mineral lands to be had, i. e. with a bond. Do not bond your lands to adventurers.

THE ISENHOUR GOLD MINE.—Some little work has been done on this property lately, and the vein, three feet wide, exposed and proved for over 500 feet. It is about one and half miles from Gold Hill, on the same run of veins, and embedded in the same formation; some rich ore was taken from this mine before the war. The deepest shaft is 50 feet. Very little work has been done, only a tunnel driven about 20 feet on the lode, and most of the backs stopped away.

The deep Randolph shaft at Gold Hill is clear of water. The forking of the water from this shaft, 750 deep, with some 900 feet of drift and open steps has been the absorbing work for the past few months. The necessary preparations for sinking will be completed in a few days when they will begin to go down in whole ground. Hope to have some more definite news shortly.

HIDDEN MINE.—Prof. Hidden has an open cut 165 feet long and 90 feet wide 28 feet in depth with the original discovery shaft in the center. He has struck many of the deposits of gems in this cut and proposes when he gets up his derrick to put 25 or 30 men at work. At present not more than 10 men are at work going down on the bed rock a very tough geinss. A tramway 600 feet long removes the debris to the waste dump and the Professor is in good heart that the mine will pay good dividends now that the dead work is done. The mine is stocked at \$200,000.00 held in New York City but not on the market. They have paid one dividend of 30 per cent.

There is another company working the same description of property not far from Prof. Hidden.

Scotch Irish Waves.

MT. VERNON, May 12th, 1883.

Mr. Editor:—Since writing my last, the health of this community has remained good. But like all other sections, it is not entirely exempt from sickness, and we often see Dr. J. G. Ramsay, the local physician, making his daily rounds visiting patients.

Mrs. Sibia Haghey, who for several months has been suffering with angina pectoris of the spine, started on Thursday evening for the National Surgical Institute, Atlanta Ga., to which place she has gone for treatment. She was accompanied by her kinsman, Mr. T. N. Reaslaw.

The farmers here have not fully recovered from the damage done by the late rain and hail storm. The plowed and planted lands were so much washed, and beaten down, that much corn planted prior to the storm, failed to come up, consequently the stand is rather poor, and in some instances, they have plowed it up, and planted over again, and in this way they are getting rather a late start.

At this writing, wheat is looking very fine, much of it being in heads.

We learn that a petition will be presented at the next regular meeting of the Board of County Commissioners, asking for the laying out of a public road leading from some point on the Wilkesboro road, near Thos. Niblock's, thence via Baker's mill on 4th creek, to Third Creek on the W. N. C. R. R. If granted there will be a continuous thoroughfare from the Wilkesboro road to China Grove, from which point, there is, we believe, already a road leading to Third Creek Station. It will involve the building of a bridge at public expense across 4th Creek, below Baker's Mill, which we think would be just and proper, as it is a great hardship upon Mrs. Baker, who is a widow lady, to keep up the bridge, especially as the road will not be one of mere local or sectional advantage, but one of absolute public necessity as there is now a large and growing trade at Third Creek station and much of the produce of this section passes over this road, besides its being a Church and mill road.

By an Act of the last General Assembly, the town of Third Creek was chartered. At the recent election, Dr. S. W. Eaton was elected Mayor, with J. A. Lyster, R. M. Roseboro and A. D. Moore as Commissioners, and Rufus Lyerly as Marshal, and the place has regularly and formally assumed the dignity of a Town. Taking the depot as a centre, the village embraces an area of 1/4 of a mile each way, thus making it 1/2 miles square, quite a considerable place.

The village, as we have before stated, has four stores, in which general merchandise is kept. The proprietors are, Messrs. J. A. Lyster, R. M. Roseboro, Allison Bros., and R. A. Burroughs.

The village embraces a population of about 100, including white and colored. The two steam cotton gins at the place ginned about 600 bales, which were all shipped from that point during the last season. The Allison Bros., have now in course of construction, a magnificent dwelling, and many other signs of improvement are to be seen.

The place enjoys as good health as any community, and is located in the very heart of the most fertile lands in Rowan, embracing portions of both Scotch Irish and Mt. Ulla. Having already a large and growing trade, it seems to us to be a very inviting place for men of capital. There was, a few years since, a handle

factory, run by S. F. Lord, which did a good business, and such an establishment would do well again, as it is surrounded by the best timbered land in the county, embracing hickory, white oak, &c. They should put up machinery by all means, sell their lots cheaply, invite capital, and we see no reason why the present little village may not in the near future, aspire to much larger proportions than it can now boast of. Respectfully, W. R. F.

The Board of '78.

Mr. Editor: Hoping that it is not an intrusion upon your columns, I desire to state that, without any intent whatever to cast reflections on the actions of any particular Board of Commissioners, which have heretofore managed the affairs of our town, the writer of the article in the Watchman of the 3d inst., at which the Examiner so readily took exception, did not proceed to charge that the Board which preceded that of 1878 created any debt; neither did he undertake to state what Board did create the debt; nor was he "fibbing" in any "word" or "sentence," for the figures given were anything else than definite as to the real amount of the debt of the town at that period. But he was definite in stating the fact that the board of '78 made a better showing as to economy in the administration of the town government than any other within the writer's knowledge. And, since the Examiner has found fault in a simple suggestion I have gone to the records for the facts and figures, and find that my information, though obtained from personal sources, was not far from correct. For in May, 1878, the debt was \$2,746.18, and at the expiration of the fiscal year, after a reduction of taxes from 50 to 4 1/2 ct. ad valorem, and from \$1.50 to \$1.25 on the poll, this board paid all of the above debt except \$1194.34, and but for the tax reductions would likely have paid the town out of debt. Again, from all that could be gathered from the sources at hand, the board of 1878 can not be more blamed for the bad condition of some of the roads leading into town, than its predecessors. And, furthermore, an erroneous statement is made when it is said that this board brought a heavier debt upon the town by the "Merrison and" than before. The true intent of the writer, however, was to show that if we could be fortunate in securing the election of another such Board, the debt of several thousand dollars which is upon the town might soon be paid off without placing a heavier burden of taxes on the people.

Hope the Examiner may make an exhibit of how the machinery of the town government has been run; for doubtless, the public will properly appreciate whatever facts may be given relating to its affairs. DEX.

The Pope to the Irish Clergy.

Rome, May 15.—The Pope in his circular to the Irish bishops says whatever Parrell's object may be his followers have often adopted a course openly against the rules of the Pope's letter to Cardinal McCabe, and instructions sent to the Bishops which were accepted at their recent meeting in Dublin. While it is lawful for the Irish to seek redress for their grievances and to strive for their rights, they should at the same time seek God's justice and remember the wickedness of illegal means in furthering even a just cause.

It is the duty of the clergy to curb the excited feelings of the people and to urge justice and moderation. The clergy are not permitted to depart from these rules and to join and promote movements inconsistent with them. Collections to relieve the distressed are permitted, but subscriptions to inflame popular passions are condemned. The clergy must hold aloof when it is plain that by such movements hatred and dissension are aroused or distinguished persons insulted, and when crimes and murders go unrebuked and when patriotism is measured by the amount subscribed. Therefore the Parrell fund is disapproved and no clergyman should recommend subscriptions thereto or promote it.

A Hitch in Raleigh.

The Board of Aldermen Get up a Diversion, and Threatens Dual Government.

RALEIGH, N. C., May 15.—At the election of aldermen, May 11th, eleven Democrats and six Republicans were elected. The Democrats refused to affiliate with their party in caucuses for selecting nominees for city officers. Amongst the Republicans were five men holding places under the U. S. government. To-night at a meeting of the board one of these was declared ineligible under section 7, article 14 of the State Constitution, whereupon all the Republicans and three recalcitrant Democrats left the hall. The remaining Democrats proceeded to elect a member to the vacancy and then declared the other four federal place men ineligible and elected another alderman in place of one of them. The Democratic board then proceeded to elect city officers. The three recalcitrant Democrats and all the Republican aldermen reassembled elsewhere and announced their purpose to elect city officers.

SENT TO THE ASYLUM AT MORGANTON.

—Special Deputy J. A. McLure, left last evening for Morganton, having in his charge Mrs. Sarah Wilson who is to be admitted into the Western North Carolina Insane Asylum at that place for treatment. Mrs. Wilson's mind has been badly deranged for a number of months past but it is hoped that she will be improved by her treatment at the asylum and will be eventually returned to her husband and friends in this city fully restored in mind. Mrs. Wilson is the first insane patient sent from Mecklenburg to the new asylum at Morganton. She is the wife of Mr. Sam Wilson, a butcher, of this city.—Journal-Observer.

MARRIED.

In Scotch Irish township, April 5th, by Rev. W. Boyd, Mr. Henry L. Fleming of Iredell co., and Miss Martha, daughter of Mr. Silas Phifer.

DIED.

In this county, May 11th, 1883, Mr. John Peeler, aged 83 years, 4 months and 20 days.

At his residence in this county, May 12th, from inflammation of the brain, Mr. Lawson F. Peeler, aged 35 years and 7 months. The deceased leaves a wife and four children. A good man is gone—full of honors, and whose end was perfect peace. "Asleep in Jesus, blessed sleep."

TAYLORSVILLE, May 11th, 1883. Our County election came off yesterday on the proposition to ratify a county subscription of \$22,000 to the proposed railroad. Our usual vote is about 1,000, but the vote yesterday nearly reached the full registered vote of the county. We suppose when the returns are in, it will be about 1,200 for and about 10 to 20 against. Taylorsville township, 248 for and none against, and several other townships the same. Mc.
