John R. Read, of Philadelphia, who has been visiting Mr. Tilden, says he is in an athletic condition, and that he is a good walker and hearty eater and only 67 years old-just about 10 years less than we had supposed. By the way, if he is to be talked of as a candidate for President, it would be worth while to know Mr. Tilden's age for a certainty.

The Kellog Publishing Company is an accommodating concern : They send out advertisement offering to edit and print newspapers for any political party whatever-Republican, Democratic, neutral or greenback. They seem to have no conscience worth standing in the way of making money. They run a mill which pleads for truth and error at one and the same, setting people at strife among themselves, and graciously leaving them to find their way out of it the best way they can.

Raleigh News Observer : Mr. T. C. Harris, of the Geological Museum, informs ns that there are no less than 306 localities in this State where gold is found.

Mr. Harris is very safe in making the above statement. We think he is greatly under the true mark. The counties of Rowan, Stanly, Montgomery and Davidson alone have gold yielding localities exceeding the number given by him. We believe Mr. Harris might multiply his number of 306 for the State by 3 at least, and then be far short of the time number.

DR. ASHBEL SMITH .- The acquaintan tes of this distinguished gentleman, many years ago a resident of this place, will be pleased to learn that he is an active citizen of Austin, Texas. He is brought to notice at this time as President of the Board of Regents of the University of Texas, of which we have a preliminary announcement. He has long been a citizen of the "lone star" State, and represented her at the Court of St. James while she was an independent republic, and has filled which has extensive mines in Pictou, N in the councils of the State since. Learned, able and energetic he was a fit man to aid in organizing government and like Texas.

Telegraph operators is the biggest thing of the kind ever known in this country, embracing as it is said to do, from 19 to 20 thousand men stretching from Maine to California, and from the lakes to the Gulf of Mexico. How long it will last is of course not known. The proprietors of the lines seem determined not to yield to the demand for higher pay, and the operators equally determined not to return to work without the concession demanded. Public sympathy, so far as we have seen, is all on the side of the operatives, who are, unquestionably, very heavily worked.

The Republican Party Must Go. High handed Proceedings of the Chairman of the North Carolina Ltate Com-

New York Sun.

TO THE EDITOR OF THE SUN-Sir: ommotion among the Federal officeholders here for the past five days has given rise to angry talk and defiant language from some of them. It appears that the chairman of the Republican executive committee, Dr. J. J. Mott, sent his benchman, oneGillespie, here last week to levy au assessment on all the Federal officerolders in the State. When asked what the money was wanted for, he said that Dr. Mott would start a daily Adminis- ever at tration paper at Raleigh with the money. Col. I. J. Young, collector of internal revenue, was told that he must assess his men from \$50 to \$250 apiece, according to their salaries. Young rebelled against also LAME BACK, at the young man's scheme, and told him ie would neither be nor allow his men to be robbed under any such pretext. The ssessment averages about 10 per cent., and would produce about \$75,000, while the paper talked of would consume about \$5,000 if it should be started. Young's resistance to Mott's demands stirred things up, and the doctor appeared here Wednesday and passed through with Young to the seashore. . . There is great excitement among the Republicans about the whole affair, and

alk of a public meeting to call the attention of President Arthur to the proposition of Mott to force this enormous sum of money from the officeholders. Motts says if he cannot dictate who shall hold office, and then, in turn, be allowed to levy on them for everything he needs to run the coalition movement, that he will not keep his chairmanship. Republicans think it is merely a blind to continne a business which has been going on in this State among Federal officials for ten years past. Young's friends say that Mott has threatened to have him removed by the President if he does not consent to the squeezing process. The better class of Republicans do not believe that Arthur is cognizant of the plan on foot by Mott to raise money. It is known here, some say, that Mott aspires to a dictatorship or boss slrip, and has succeeded in getting the departments at Washington to allow him to fill the offices. In turn, he wrings from the officeholders large sums under the plea of a coalition newspaper or something else. A full disclosure of his desingus will bury the Republican party in North Carolina.
