ALLCOCK'S POROUS PLASTERS.

The Original and still the Best!

INSIST ON HAVING ALLCOCK'S, THE ONLY GENUINE POROUS PLASTER.

One of the most remarkable inventions o the present age is ALLCOCK'S POROUS PLASTERS. They are the result of years of chemical study, and only time and experience has brought them to their present perfection. Testimonials are received every day of the wonderful cures of Sprains, Weak Back, Rheumatism, Lumbago, Paralysis and hosts of other diseases. Of course the vast sales and great success of ALLCOCK'S POROUS PLASTERS have caused numerous plasters to be brought before the public which, being called porous, would give the world to understand that they were a similar article to the genuine. We would most particularly caution the public against these humbugs. They contain none of the healing gums that are used in ALLCOCK'S, but are simply a combination of lead, red pepper and rubber, and are vaunted in long winded advertisements as an improvement on ALLCOCK'S POROUS PLASTERS. Beware of the hazy and untrue statements and never use any of these so-called porous frauds.

Allcock's Porous Plasters

Relieve Debility and Nervousness.

ALLCOCK'S PLASTERS worn on the region of the kidneys warms the spinal marrow which is a continuation of the brain, imparting new vitality and power to the spine they strengthen that mighty organ and fill it full of foreign electricity or nervous fluid. Thus they will restore to the busy active brain of man or woman, the energy and ability which has been lost by disease, worry or overwork. They restore vitality where there has been debility and nervousness, and prevent loss of memory and paralysis. Physicians highly recommend them for nervous debility, whether arising from dissipation or overwork. They are now known to be the great regenerators of the nervous system and are invaluable in all cases of hysteria.

Weak Kidneys Cured.

CONTOCOOK, N. H., March 3, 1880

I have been greatly troubled with Rheumatism and Weak Kidneys. I was advised to try ALLCOCK'S POROUS PLASTERS (had used two other so-called Porous Plasters which gave me no relief) but one of yours has worked like a charm, giving me complete relief, and I have not been troubled with Rheumatism and Kidney Complaint since using them, and I consider myself cured. EDWARD D. BURNHAM.

Bronchial Troubles.

122 C ST., WASHINGTON, D. C., January 7, 1882.

I take great pleasure in recommending ALLCOCK'S POROUS PLASTERS. I was induced to try them by Mrs. Samuel J. Randall, and I found them everything desired. I used four other so-called Porous Plasters before procuring ALLCOCK'S; they were perfectly useless. But immediately upon applying two of ALLCOCK'S to my chest my cold and bad cough were at once relieved, I want you to send me one dozen forthwith.

JOHN T. INGRAM.

Spinal Disease Cured.

HAMMEL'S HOTEL, ROCKAWAY, BEACH, N. Y., May 19, 1882.

ALLCOCK'S PLASTERS have been of such great service to me and mine that I feel it is a duty to state the facts, as briefly as possible, to induce others to use them. My wife for many years was confined to her bed suffering from spinal disease. After spending a thousand dollars in vain effort to get cured, she applied three ALLCOCK'S PLASTERS to the spinal column, one above the other. In a few days all pain left her. She applied fresh plasters every two weeks and in the course of two months she completely recovered her health. At first she could hardly walk across the room; each day she walked a little further, and now she is able to walk five miles without fatigue. She still occasionally applies the plasters to her back, but she has been perfectly well for upward of a year.

LEWIS L. HAMMEL.

CURE OF SPRAIN.

554 MAIN ST., HARTFORD, CONN., April 26, 1879.

Will you please send me an ALLCOCK'S POROUS PLASTER, 20 inches long by 7 inches wide, to use on my back for weakness of kidneys. I have worn them with the best corrective effect, for a weak side near the heart, many years—for injury caused by strain and lifting in the army. I could not do without them; I use one about every month. I have on a Belladonna Plaster and don't like it at all, for it has not the power or strength of ALLCOCK'S POROUS PLASTERS. B. WELLS SPERRY.

A Blessing in Disguise.

484 ADELPHI ST., BROOKLYN, N.Y., March 29, 1881.

No family should be without ALLCOCK'S POROUS PLASTERS; their healing powers are wonderful and their efficacy far-reaching and lasting. For years past I have seen and known them to cure and relieve the most obstinate and distressing cases of rheumatism, kidney complaint, bronchitis, neuralgia, lumbago, inflammation of the lungs and throat, paralysis, asthma, spinal weakness, and coughs and colds. In my own case they afforded me almost instant and permanent relief. My friends consider them an invaluable and speedy remedy to all kinds of aches and pains. They are a blessing in disguise; and no wife or mother should be without them if she values her peace and comfort and freedom from nervous exhaustion and other ailments. As a strengthening plaster, also for backaches and weakness, they have no equal. I have never yet found a plaster so efficacious and stimulating, or to give so much general satiation. Used in connection with BRAINBRETH's universal life-giving and life-healing PILLS, no one need despair of a speedy restoration to good sound health.

PUBLIC DOCUMENTS—SCRUGHUM.

We are indebted to Hon. R. F. Armfield for a number of public documents, among which is a report on the "Sorghum Sugar Industry," made in response to a request from the Hon. Geo. B. Loring, U. S. Commissioner of Agriculture, by a Committee of the National Academy of Science, at the head of which is the name of B. Silliman, M. D. & C., Prof. of Chemistry, Yale College. It is a closely printed book of 152 pages, and contains a report of thousands of analyses by different chemists in this country and France, and information of all sorts of the various sorghum plants, in all the various stages from full growth to full maturity. A very condensed review of the book would occupy many columns in this paper, and though not without interest to the general reader would not be very profitable. We present, however, as the most acceptable of its contents, the following

It's habits of feeding and its modes of seeking its resting place, which are all dependent on the weather and season, are as variable as the wind, and it is a fact that its form or nest is always changed with the wind.

The jack rabbit is also guilty of many pranks that cannot be accounted for. For instance, a certain prairie may be one day entirely destitute of a single rabbit, while on the following day you may find the usual number. But, as a general thing, they change from high to low ground, or from field to prairie, as the weather or supply of food is altered.
