**Schnapps Tobacco is Made ENTIRELY from Flue Cured Tobacco Grown in the Piedmont Country. The Imitation Brands Have Schnapps Quality Only On the Outside Of the Plug**

Hundreds of imitation brands are on sale that look like Schnapps tobacco. The outside of the imitation plugs of tobacco is flue cured the same as Schnapps, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco. One chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco. The color, size and shape of the tags, plugs and packages of certain imitation brands of tobacco have been made so much like Schnapps that they have often been accepted by buyers under the belief that they were getting Schnapps. Sufficient proof has been secured to establish the fact that certain brands are infringements and in violation of the trade mark laws, yet the trade will continue to be imposed upon by these infringers until the suit already entered and now pending to protect Schnapps is decided. A great many of these imitations are

claimed to be "just as good" as Schnapps, but there is only one genuine Schnapps. Be sure the letters on the tag, and stamped on the plug under the tag spell S-C-H-N-A-P-P-S and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the mild, juicy, stimulating quality of the leaf tobacco. Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other and has a wholesome, stimulating, satisfying effect on chewers.

If the tobacco you are chewing don't satisfy you more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco. Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound, in 5c. cuts, strictly 10c. and 15c. plugs.
