

THE COMMITTEE'S REPORT.

In Senator Bailey's Case was Expected to be Ready Yesterday.

Austin, Tex., Feb. 24.—It was expected that the findings of the legislative committee investigating charges against United States Senator Joseph W. Bailey will be reported to the two houses of the Legislature not later than Tuesday.

Senator Bailey and his attorneys are urging upon the committee the need of haste as Senator Bailey announces he will leave Thursday in order to reach Washington by March 4, to be installed as Senator.

A discussion is now on as to whether or not the committee will have any right to report anything but the evidence. The friends of Senator Bailey are of the opinion that the committee can also make its suggestion that there is nothing in the evidence to in any way reflect upon Senator Bailey. If this procedure is followed the minority of the committee will bring in an adverse report asking that the House take full recognition of the evidence and act upon it as they see fit. It is also stated that some of the opponents of Senator Bailey will make an effort to prolong the agitation even to the extent of taking the matter to Washington, in the way of a memorial.

Reward to Widows of Slain Officers.

Asheville, Feb. 24.—At the regular weekly meeting of the board of alderman last night an order was made that the \$500 reward offered by the board for the capture of the negro desperado who in November shot and killed two police officers and three other persons, was ordered paid to Cashier J. E. Rankin, of the Battery Park Bank for disbursement. The money will be paid to the widows of the two slain officers. The posse that overtook and killed the negro desperado, and who were entitled to the money, held a meeting in the big road after the negro's death and unanimously voted to donate the \$500 to the two widows. Application for the money, was made by former Chief of Police F. M. Jordan on behalf of the beneficiaries.

Japanese Immigration.

Viscount Aoki called at the State Department and had a talk with Secretary Root over the programme to be followed in conducting negotiations for the preparation of Japanese coolie immigration into the United States. As the ambassador had been fully informed of all steps leading up to the passage of the immigration act, and, in fact, had really suggested the adoption of measures to exclude Japanese without passports, he was not disposed to criticize adversely what had been done by Congress. The way to resume negotiations for the projected restrictive treaty was regarded as open and it is believed that before the assembling of the next Congress the new convention will be ready for the consideration of the Senate.

It was stated at the White House that the conference held there between President, Secretary Metcalf and the general board of the navy had no bearing on the relations between the United States and Japan.—Washington dispatch.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by all druggists. 50c.

Neglected Colds Threaten Life.

(From the Chicago Tribune.)
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given.
