

No Limit!

You too would have to build bigger barns if you would only listen to reason and increase your yields per acre by enriching your soil and feeding your plants with that wonder-worker, **Virginia-Carolina Fertilizer.**

It has been the tremendous success of many farmers all over the South who started life with only a few acres and a one-horse plow. Now, after using these fertilizers for many years, their farms are rich. Read what they say in our Almanac. Ask your dealer for it, or send us in stamps for 15¢ cost of wrapping and postage on a copy. Be sure and ask for Virginia-Carolina Fertilizers, and accept no substitute.

NOTICE TO HORSE OWNERS.

Owing to the fact that many horses are shipped to Rowan county and sold for \$500 and more each, and believing that harder and better horses can be produced here, we have purchased a French Coach Stallion, at a cost of \$3,200. This horse was bred under the supervision of the French government with a view to the combination of speed, power and elegance, which places the French Coach horse easily in the front rank among all breeds of the world. They are known to transmit their qualities to their colts with a surety that cannot be excelled.

This horse will be in Salisbury at Fisher Bro's stable on the following dates: April 19th and 29th and May 8th, 17th and 27th.

Very respectfully,
ROWAN FRENCH COACH HORSE CO.

The certificate of registration can be seen at the office of the undersigned. Address all communications to

BURNED TO DEATH.

Fire in North Carolina Town Brings Fatal Results to Four Persons.

Carolene, April 18.—At 11 o'clock last night a large two-story dwelling house at Henrietta took fire from the closet below, and before the family or neighbors awoke to make the discovery the flames had advanced too far to save the building or any of its occupants.

The most dreadful feature of the disaster was the loss of two little children sleeping up stairs, who were burned to death and their bodies this morning scarcely can be recognized. Two sons of Mrs. McDade, who occupied the house, were so seriously burned and otherwise injured by their efforts to make their escape that it is not thought that they can live.

Also old Mr. McDade was badly burned and may not recover.

Details would pronounce this the saddest calamity in the history of the town.

The two young men of the McDade family have died from the horrible burns received in the fire last night. The young men were 18 and 20 years of age respectively, and nearly gave their lives to save from the flames the two little children, aged 4 and 6 years.

Mrs. McDade may yet die as a fifth victim.—Special to Charlotte Observer.

Where Do the Flies Go?

He is here again—the first house fly of the season. He came sailing and buzzing in today with as much assurance as if his winter vacation had not lasted more than forty-eight hours. Now, where has the house fly been in all of the peaceful weeks and months since he blessed your nerves with a cessation of his pestiferous attentions? He didn't perish or vanish from the earth, for you can easily tell that he is familiar with every spot that he touches. He is full grown and full-fledged. He was not produced yesterday. No stranger could possibly make himself so much at home as your house fly visitor does today as he disports himself with ethereal alacrity throughout your vicinage. "The wind bloweth where it listeth and thou hearest the sound thereof, but thou canst not tell whence it cometh or whither it goeth." So it is with the house fly. We know when he is gone, but nobody has ever uncovered the mystery of his retreat; we know that he will return, and we know when he does return, but it is given even to the angels in heaven to know where he bestows himself between the period of his subsidence and recrudescence.—Kansas City Times.

Wants to be Hanged.

Los Angeles, Cal., April 11.—A man about 45 years of age, travel-strained and weary, claiming to be George W. Bundrick, appeared in Downey, Cal., near here, today, and surrendered to the authorities, asserting that he had killed John Shroeder at Rains, Doolley county, Georgia, in 1902. He said that he had been arrested in Georgia, tried, convicted and sentenced to hang, but had escaped from jail at Americus by overpowering the guards. He said he was weary of being pursued and wanted to be taken back and hanged for his crime.

Another Fool With a Pistol.

Richard Robertson, who is an employe of the Southern, at Spencerville, had a narrow escape from serious, if not fatal injury Friday night. A negro named Lopp was examining a pistol with the purpose of cleaning or repairing it and Mr. Robertson was standing near. The pistol was discharged accidentally and the bullet struck Robertson in the back inflicting a small flesh wound. Lopp was placed under arrest, but was released the next morning upon payment of a small fine. Mr. Robertson being satisfied that the shooting was purely accidental, had no disposition to push the matter.

Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by all druggists. 25c.

TALKS IN RICHMOND.

Governor Glenn Speaks of the Wide Chasm Between the Rich and Poor.

Richmond, Va., April 21.—Governor R. B. Glenn, of North Carolina, addressed a large and representative audience of Richmond people this afternoon on economic and religious conditions now confronting the people of America. The speech, while of a semi-religious nature, was none the less interesting, the speaker receiving the undivided attention of those present. Governor Glenn touched upon the existing evils in the country, giving it as his opinion that unless steps were taken to stop such evils, this country must eventually suffer as Rome and other republics have suffered because of their violation of the laws of God.

The Governor referred especially to the fact that there are in the United States today two men who have amassed more wealth than all that in the possession of the Commonwealth of Virginia; and every man, woman and child in the State, allowing that each inhabitant of the State is possessed of at least \$500, a statement so astounding in its significance as to amaze the audience. The allegation, however, was seemingly borne out by hard facts, with which Governor Glenn proceeded to build and back up what he had said.

The Governor also touched upon the existing fight between capital and labor, and the hard fight which confronts the poor man in the establishment of his confidence. The speaker strongly advocated the eight hour day and more consideration for the working man at the hands of the employers. Much could be done he said, to build up a friendly relation between labor and capital if capital would meet the working man half way and deal justly with his grievances.

Governor Glenn made a strong plea for the observance of the Sabbath as the keynote and foundation for the success of the republic.—Special to Charlotte Observer.

The Compass Was Useless.

From midnight Tuesday night until 5 o'clock Wednesday morning, the steamer La Providence, which arrived in port Wednesday night, passed through a storm which, the officers of the ship say, has rarely been exceeded in violence on the Atlantic.

At dinner time on Tuesday the barometer began to fall rapidly and as midnight approached the ship reached an area where the air was so heavily charged with electricity that the compass was worse than useless. Suddenly a storm swept down upon the ship. Great waves broke over the deck, but no rain fell, the night being perfectly clear. After five hours the storm abated as suddenly as it had come. No one was injured, but many of the passengers were well frightened.

Captain Alix, of the steamer, believes the strange storm was the result of the same forces which caused the earthquake shocks in Mexico.—New York dispatch.

Escapes Pursuers in Wagon.

New York, April 20. A highway robbery, which for audacious boldness, has few parallels in this vicinity, was executed in Hoboken, N. J., today. The victim was Frank Schrenk, superintendent of Sobrenk's Glass works. The robber struck Schrenk down in the street, seized a package containing \$1,000, which was to be used to pay the men in the glass works, and escaped from several hundred pursuers. To accomplish this he commanded a horse and wagon which chanced to be standing nearby and with a revolver pointed at the head of the driver forced him to urge the horse across the city, away from the crowd, at top speed.

A Criminal Attack.

on an inoffensive citizen is frequently made in that apparently useless little tube called the appendix. It's generally the result of protracted constipation, following liver torpor. HEAVY SNOW IN NEBRASKA.

Eastern Section of the State Covered to a Depth of Five Inches.

Omaha, Neb., April 18.—Five inches of snow fell during last night and continued today. The fall was general over eastern Nebraska and is the heaviest known in April for many years.

The snowfall extends over a wide area, according to advices from points in Iowa, Kansas, Missouri and Colorado, to the South, which report a light snow fall, while northern Nebraska, southern South Dakota, northeast Wyoming and the Black Hills are covered with a blanket of snow six inches deep on the level. At the Northwestern headquarters here it was said that the storm is practically the same over their entire system west of the Missouri river.

Opinion as to the effect on early vegetables varies. Along the southern and central belts cherries, peaches, plums and berries are said by some to have been ruined almost entirely, while other growers and dealers report that fruit was not far enough advanced to become seriously endangered. In grain circles it is believed the snow will kill all the green bugs which had been threatening the winter crop.

A New Industry.

The Salisbury correspondent of the Charlotte Observer states that Frank L. Robbins, connected with the Kessler Mill until recently, has gone to New York in the interest of a deal whereby a new industry may be secured for Salisbury. Mr. Robbins has leased L. Littman's plant in North Salisbury and he will stock it with new machinery at once. He will employ forty looms in the mill and will manufacture mercerized table linen.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more ability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—a popular prescription—is alone directed to these weak and wasting nerve centers. It builds, it strengthens; it offers real, genuine heart help. This man bought a supply of tobacco without acquainting himself with the distinctive taste of SCHNAPPS Tobacco, which has the cheering qualities that gratify his desire to chew, and at less expense than cheap tobacco.

SCHNAPPS has been advertised in this paper so that every chewer has had an opportunity to get acquainted with the facts and know that drugs are not used to produce the cheering quality found in the famous Piedmont country flue-cured tobacco, and that SCHNAPPS is what he ought to chew. Still there are chewers who accept other and cheaper tobaccos that do not give the same pleasure.

Some day they'll get a taste of the real Schnapps—they'll realize what enjoyment they've missed by not getting SCHNAPPS long ago—then they'll feel like kicking themselves.

SCHNAPPS is sold everywhere in 5 cent cuts, and 10 and 15 cent plugs. Be sure you get the genuine.
