Kansas Representative in Congress Wants North Carolina to Produce

North Carolina will have to pay to the national government the sum of \$1,448,157.89 if a bill introduced by Representative Murdock, of Kansas, becomes a law, and he declares that it will unquestionably be passed at the next regular session of Congress.

His prediction is somewhat problematical, but the very fact that his measure will apply to only a comparatively few States lends strength to his assertion about its enactment.

The Murdock measure entitled "A bill to secure the re-payment of all money owing to the United States government, re-payment of which has been pledged."

The bill was introduced several days ago, but it was not until today that its real nature became known.

Specifically, the bill relates to moneys advanced to several States of the Union in 1886 under an act of Congress. It appears that the treasury surplus at this time, chiefly from the sale of public lands, has become quite large, and the States were tempted beyond their strength. Consequently a law was passed directing the Secretary of the Treasury to deposit the surplus with the various States, deposits to be made in four instalments and a reserve of five millions to be kept in the treasury.

When three instalments had been paid, Congress repealed the act, in 1889. In the meantime the sum \$28,191,644 had been paid to the States. The repealing act provided that the money already deposited should remain with the States until otherwise directed by Congress.

Mr. Murdock says the bill proposes to have Congress "otherwise direct," and order the money refunded to the treasury. The various accounts are still carried on the books of the treasury department as 'unavailable funds.'

Some of the states have kept these funds segregated, among them New York, which has four million dollars, which is loaned and produces a good rate of interest. New Jersey and Delaware are said to still have their share intact, but North Carolina and others have not thus kept their funds, and the passage of the Murdock bill will cause them a lot of trouble.—Washington correspondent, Raleigh News and Observer.

WHAT IS WHISKEY.
A Question A Number of Wise Ones are Trying to Determine.

What is whiskey? This phase of the whiskey question occupied much of President Taft's time at the White House today, where the champions of "real whiskey" and "imitation whiskey" and "whiskey straight" assembled at noon to settle the controversy as to just what whiskey is, which has been in progress ever since Dr. Wiley's pure food law went into effect. At the end of the session President Taft, who does not drink whiskey, said he had enough of it to last him for months, and he referred the entire controversy to Lloyd Bowers, the new solicitor general, who will take the testimony for both sides and then make a report to the President.

The debate on whiskey to-day enlisted the services of many well-known lawyers, among them Joseph H. Choate, formerly ambassador to Great Britain, and John G. Carlisle, formerly Secretary of the Treasury. There were also present representatives of the big distillery companies of the country.

Under a ruling of former Attorney General Bonaparte, all whiskey not aged and free from fusel oil by several years of storage in white oak barrels, which have been charred on the inside, must be labeled "imitation" or "compound" whiskey. The distillers who purify their products by various methods of redistillation, blending, etc., are anxious to have this ruling reversed, as they say they are suffering damage from the rule now being enforced.—Washington dispatch.

A Funny Situation.
A peculiar thing is taking place in Davison county. At the last election Mr. Ed. Myers was elected on the Republican ticket as county commissioner of this county. It is reported, and it is true, that Mr. Myers moved from this county to Davie county three weeks ago. Notwithstanding the fact that he is now a citizen of Davie he presided as chairman of the board of county commissioners of Davison on last Monday. He says that there is no law to force him to resign and he shall hold his office.—Lexington special to Charlotte Observer.

DON'T EXPERIMENT.
You Will Make No Mistake If You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity.

Can Salisbury residents demand further proof than that contained in the following testimonial?

Mrs. G. W. Clegg, 503 Race St., Statesville N. C., says: I suffered more or less for years from weak kidneys and although I took several remedies in an effort to find relief, I was unsuccessful. Some months ago I procured a box of Doan's Kidney Pills and began using them according to directions. They went directly to the seat of my trouble and since using them the pains have greatly diminished and my kidneys have given me no annoyance whatever. I can heartily recommend Doan's Kidney Pills to anyone suffering from kidney complaint, as they proved of wonderful benefit to me.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."
"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. P. Valentine, 902 Lincoln Ave., Camden, N. J.

Erie, Pa.—"I suffered for five years from female troubles, and at last was almost helpless. I tried three doctors but they did me no good. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and it has made me well and strong. I hope all suffering women will just give Lydia E. Pinkham's Vegetable Compound a trial, for it is worth its weight in gold."—Mrs. J. P. Endlich, R. F. D. 7, Erie, Pa.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. My sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.
If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.
