MEET TO TALK OF LIVESTOCK Exposition and Conference to Be Held In Wilmington is Attracting Much Attention in State.

Wilmington.-The live stock exposition and conference to be held here March 28-29, promises to be of equal

Interest and importance to farmers in eastern South Carolina by reason of the fact that the object of this matter is to stimulate the deevlopment of the live stock industry in the coastal plain section. The sessions will be devoted to practical discussions and there will be an exhibit of pure bred cattle, hogs and sheep. The United States department of

agriculture appreciating the significance of this meeting to the people of the two Carolinas, has designated the following officials of the bureau of animal husbandry to attend and address the conference: Dr. W. K. Lewis, inspector in charge of thek eradication for South Carolina; George E. Rommel, chief, animal husbandry division, beef cattle: Fred R. Marshall, senior animal husbandman, sheep; A. J. Reed. dairying: Dr. F. D. Owen, hog cholera, and Dr. E. P. Yager, inspector in charge of tick eradication for North Carolina. The experiment station and extension service will be represented by Prof. B. W. Kilgore,

Dan T. Gray and R. S. Curtis. A large attendance is expected. The meeting is being extensively advertised and 6,000 invitations have been sent out to farmers, bankers, land owners and business men in the two Carolinas. In addition to this, the content themselves with doctoring the the occasion in North Carolina as well | treatments, or baths I ever took." as eastern South Carolina.

North Carolina Statistics.

Washington .- North Carolina's population was 2,339,000, and the value of products of her industries \$289,411,987 in 1914, according to the census of manufactures made in that year by the United States Bureau of Census and just made public here in pamphlet form. The value of her products increased 33.6 per cent in the fiveyear period. Persons engaged in industry in the state numbered 151,335, an increase of 13.4 per cent, and wages and salariés amounted to \$56,282,679. taurant the other day. an increase of 36.4 per cent. Capital invested was \$253,841,808 in 5,507 establishments of all kinds. Capital ber of establishments 11.7 per cent. on yer tips here." Materials used in manufactures amounted to \$169,941,971, an increase of 39.5 per cent, and value added by manufacture was \$119,470,016, an in-

crease of 26 per cent over 1909. There were 10 cities each having a population in 1914 of more than 10,-And Build Up The System 000 inhabitants. WIDE PIAZZA ADDS TO HOME

Part That Is Roofed May Easily Be Converted Into Sun Parlor During the Winter Months.

A good wide piazza or porch adds greatly to the comfort and beauty of most any home. In order to serve the best purpose it should be wide and built around several sides of the house. that was the only ease I could get. This will insure a cool, shady spot to hang the hammock on a hot summer day for rest and reading. A piazza should be at least seven feet wide and may be as deep as 12 feet. It is not necessary to have all the piazza covered with a roof. It is a good idea to have the part which is to be roofed over so constructed that by the erection of glass sides a sun porch can be provided for winter use. In the win-"I was not able to do anything until | ter a piazza which is entirely roofed I took Cardui. I took three bottles in | tends to shut off light from the first floor. For this reason the plazza roof should be high, extending to the bottom of the second floor windows.

TO PLACARD DIRTY PREMISES

California City Adopts Unique Plan to Raise Standard of Cleanliness in Residences and Business Houses.

The city of Alameda, Cal., has adopted a unique plan to raise the standard of cleanliness in residences and business houses. In future the sanitary condition of the various premises is to be shown by placards bearing the in-· scriptions "Clean," "Dirty" or "Filthy." Those places which do not satisfy the board of health will be placarded as Are you keeping your bowels, liver, dirty or filthy until they comply with the demands of the authorities.

This action was decided upon by the board of health, which appointed a care for the general health of the city. The board of health intends to inspect not only the business houses but also the private residences of the city and to affix the placards to every house in the city. Those residences which can be designated as "clean" will not be placarded, but those in which sanitary conditions are disregarded will be designated as "dirty" or "filthy" until the house owners remedy the conditions. upon which the placards will be re-

moved. As the board of health has arbitrary powers under the city charter, the placards must remain on the houses or places of business until the board is satisfied that the conditions therein are sanitary. If any householder tears down the placards, the extreme penalty of the law can be enforced.

Bristol Has City Manager. The adoption of a city manager by

the town of Bristol, Tenn., with a population of about 10,000, may not be of the highest importance from a po--it adds to the evidence that the city inference almost a certainty that it is a question of time only until administration by city manager is taken up by the biggest cities as well as the smaller towns. The choosing of a manager for Bristol for a term of three years promises that the plan is to be given a fair test which it should have if any comwith Cuticura Ointment, wash off in parison that will be satisfying is to be made between the town's old political system and the new. Unless a manager is allowed the necessary time to work reforms and present results, the handicap would probably be too heavy and in case of failure would register a mark against the city manager un-

Shade for Pennsylvania Highways. The Pennsylvania state department of forestry and the state highway department have completed arrangements for co-operation in planting shade trees and fruit trees along the state highways. The trees will be grown from seed by the forestry department in its nurseries, transplanted in areas set the planting at that time. The species already transplanted are Scotch, white and pitch pines, Norway spruce, Douglas fir, sugar maple, white ash, white elm, black cherry, honey locust and European larch.

"Clean-Up Boosters" Organize. A "Society of Clean-up Boosters" has are no dues, no fees, no fines, no expense of any kind for members. They sign a pledge: "I will be a Clean-up Booster and help keep my city clean." In return they receive a tag to hang on the front porch, reading: "I Help Keep My City Clean," This is sent free by the city highway bureau.
