

UGH! CALOMEL MAKES YOU SICK! CLEAN LIVER AND BOWELS MY WAY

Just Once! Try "Dodson's Liver Tone" When Bilious, Constipated, Headachy—Don't Lose a Day's Work.

Liven up your sluggish liver! Feel fine and cheerful; make your work a pleasure; be vigorous and full of ambition. But take no nasty, dangerous calomel, because it makes you sick and you may lose a day's work. Calomel is mercury or quicksilver; which causes necrosis of the bones. Calomel crashes into sour bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

Listen to me! If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning, because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.—Adv.

W. L. DOUGLAS

"THE SHOE THAT HOLDS ITS SHAPE"
\$3 \$3.50 \$4 \$4.50 \$5 \$6 \$7 & \$8 FOR MEN AND WOMEN

Save Money by Wearing W. L. Douglas shoes. For sale by over 9000 shoe dealers. The Best Known Shoes in the World.

W. L. Douglas name and the retail price is stamped on the bottom of all shoes at the factory. The value is guaranteed and the wearer protected against high prices for inferior shoes. The retail prices are the same everywhere. They cost no more in San Francisco than they do in New York. They are always worth the price paid for them.

The quality of W. L. Douglas product is guaranteed by more than 40 years experience in making fine shoes. The smart styles are the leaders in the Fashion Centres of America. They are made in a well-equipped factory at Brockton, Mass., by the highest paid, skilled shoemakers, under the direction and supervision of experienced men, all working with an honest determination to make the best shoes for the price that money can buy.

Ask your shoe dealer for W. L. Douglas shoes. If he cannot supply you with the kind you want, take no other make. Write for interesting booklet explaining how to get shoes of the highest standard of quality for the price, by return mail, postage free.

W. L. Douglas President W. L. Douglas Shoe Co., 185 Spark St., Brockton, Mass.

Habitue.
"Have you a chill?"
"No," replied Mr. Chuggins. "You know how a sailor's sea legs stay by him for a while after he has gone ashore. It's the same with some of us automobilists. I always keep shaking for a while after I've been out with my motorlet."

Malaria on Decline.
Malaria is much less widely prevalent in the United States now than formerly.

Not Serious.
"You seemed to be pretty sick yesterday."
"Yes."
"What did the doctor say?"
"Well, I thought I was sick enough for a trip to California, but all he prescribed was a fishing trip."
An old bachelor says that a woman's tongue is an organ without stops. Straw hats can be easily cleaned with dampened cornmeal.

What Well Dressed Women Will Wear

Consider the Maid of Honor.

When in the course of June events it becomes necessary for the bride to proceed to the altar, she is a wise woman who makes the most of her maid of honor. Let the girls who precede her stately be arranged like the May in costumes that befit their youth and the dignity of their mission, and let the dress of the maid of honor be varied just enough to accent her presence and add another interest to the spectacle.

Those who take upon themselves the delightful task of designing costumes for the wedding procession, have been prodigal of ideas this year. But as one mind they seem to have settled on pale pink for the garb of maids and flower girl. The pink is a mere blush of color through net or lace, or in lovely georgette crepe, and it seems that nothing else could be quite so pretty. Bridesmaids gowns of the net-top laces, worn over underskirts of pink georgette, leave nothing to be desired in beauty. The laces are forty inches wide and not expensive. Dresses of plain net with lace medallions set in, or strips of lace joining the breadths in the skirt, are used instead of net-top laces by way of variety. Nets and malines are the features of this year's bridesmaids' gowns along with the choice of pink as a background.

A scarf, hat and bag of pink georgette crepe, trimmed with small, silk hand-made roses, make up a set for the maid of honor that will enrapture her and all beholders. Let us suppose her in the same sort of gown that the other maids wear, with this addition, she will be placed in the right way. And if there are no other maids, a set of this kind ought to fortify any girl to the point of bearing the responsibility of attending the bride alone. It will cover her with glory.

What Can We Do?

Just now it is likely that every good American woman is asking herself a question, every day, and will continue to ask it until she has found the answer. The question is: "What can I do, now that my country is at war, to help? What shall be my part and how shall I play it with credit to myself and to the advantage of my community?" Probably the answer lies closer home than most of us imagine. The first thing we women must learn is—to not be terrified. Some of those who are dear to us—dearer than life, perhaps—must follow the flag. We must school ourselves to be willing to see them go and acquit ourselves as befits first-class women. There is no use shaking hands with trouble until we meet it, but if we must meet it, let us meet it bravely. The women of France have made a glorious record for themselves and we shall not be less courageous.

We can conserve food and clothing against the time of need. Every housewife who saves foodstuffs and eliminates all waste in her own household is doing a patriotic duty, and therefore it is nothing less than ill-bred to tolerate waste at this time—or any other time, for that matter. In rural communities women can preserve and can and dry more food for use next winter than ever before, and something in excess of the needs of their own families. They may be called upon to help those less fortunate than themselves in the future, those who are powerless to make provision in this way. In some communities housewives have already banded together to can and preserve fruits and vegetables to be put on sale when there is a market for them. This is in excess of the food each provides for the future use of her family.

Clothing is also to be conserved, especially that made of wool. This doesn't mean that it is to be hoarded, but that a use is to be found for it when the times comes, and that substantial garments are not to be thrown away simply because fashions change. Now is the time to be frugal—in order to be generous. Who knows what the fate of France would be but for the frugality of its people?

Then there is a great work to be done for the American Red Cross. Money must be raised, hospital supplies provided, bandages made—and women must do this work. They are ready and willing, and thousands of them will find comfort in devoting their energies to work of this kind.

Julia Bottomley

Tassels of All Kinds.

Tassels are used on afternoon frocks as well as on party dresses. Chinese tassels, which are usually made of green, black and blue, with possibly a bit of jade at the top, give color to a dark gown. One is worn at the girdle or one at each side of the hips. Tassels are worn in every way, but they are not always Chinese. Some are made of colored crystals, of pearls, of rhinestones, of jet beads, of colored silk floss and some of them are apparently the kind that are sold in the upholstery departments. It seems to be the growing fashion to put some kinds of a tassel at each side of the girdle, so that it will hang just in front of the hips. Evening wraps are tied across the chest, with wide streamers that end in tassels; medieval sleeves have their points held down by tassels; trains are weighted with a tassel to keep them on the floor; some of the new high shoes have tassels at the top in the European fashion, and tiny tassels of ostrich feathers or curled silk are used on deep collars.

New Boots for Sport.

For walking boots plaid effects are shown, and with the golf shoes go knitted socks which turn back just under the knee. One of the most interesting of the golf shoes is the "Scotch brogue" with a kiltie tongue, an adaptation of a model that has long been worn by English golfers. The tongue, which is sewed to the shoe on either side and ends about the top in a fringe, prevents water, burs, etc., from getting inside, while a strip of rawhide between the inner and outer soles, makes the sole waterproofed. The counters are on the outside.

Lace.

It is almost impossible to find plain white net which is of a mesh fine enough to allow of its use in mending delicate lace. The problem has been solved by the purchase of plain "footing," which can be had in very fine net. Its invisible selvage is an advantage, as is also the fact that a small piece can be purchased instead of a "double width" strip of the net by the yard.

WRIGLEY'S

Made by machinery—filtered—safe-guarded in every process:

Factories inspected by pure food experts and highly praised:

Contented employees, of whom perfection is the pride:

Such is WRIGLEY'S—the largest selling gum in the world.

Helps appetite and digestion. Keeps teeth clean—breath sweet.

BUILDING GIANT FLY TRAPS

Schoolboys Make Device Which Will Catch Half a Million Disease Spreaders in Season.

Fly traps that will catch 500,000, or 50 quarts of flies in a season will be built this spring by some of the boys in the Grand avenue manual training center. Irving P. Lorentz, the instructor, is making a model, and will soon have some of the boys constructing the device as a side line, according to the Milwaukee Journal.

A square framework is made of narrow strips of wood, and within the frame is placed a cone of wire netting. In the model of Mr. Lorentz an ordinary glass jar is used in place of the wooden frame. A banana peel or similar refuse is placed as a bait at the bottom of the trap. When the trap is crowded with flies, they can be killed by dipping the filled trap into boiling water.

"The idea is excellent," Mr. Lorentz said. "The construction is simple, so that seventh or eighth grade boys should easily be able to make it. At the same time it is inexpensive, the cost of materials probably not exceeding 50 cents. If all the centers encouraged the making of these traps, it would prove a most effective weapon against the fly. Such a trap would kill off the flies before they even got into the homes."

FARMERS ARE WORKING HARDER

And using their feet more than ever before. For all these workers the frequent use of Allen's Foot-Ease, the antiseptic powder to be shaken into the shoes and sprinkled in the foot-bath, increases their efficiency and insures needed physical comfort. It takes the Friction from the Shoe, freshens the feet, and prevents tired, aching and blistered feet. Women everywhere are constant users of Allen's Foot-Ease. Don't get foot sore, get Allen's Foot-Ease. Sold by dealers everywhere, 25c.—Adv.

Equal to It.

Husband (at office telephone)—Hello! Is this you, Henrietta?
 Wife (at home telephone)—It is.
 "You know that matter we were talking about this morning at breakfast?"
 "I do."
 "Well, there's a lot to be said on that subject, I find."
 "Well, come on home and let me say it."

Chicken Killers.

Mistress—I want to kill a couple of chickens for dinner.
 Chaffer—Yes, mum, which car shall I do it with?

Medicine is occasionally necessary to help the system recover its normal functions. That is especially true in Spring. Wright's Indian Vegetable Pills are an ideal medicine. They combine tonic and laxative properties. Adv.

A man is hopelessly ill when he fails to make a fuss about any new experiment that is tried on him.

What a lot of perfect children there are who don't bring home perfect report cards from school!

Soldiers Clad in Steel.

Getting its inspiration from the valuable service already performed by the steel helmet, La Nature of Paris suggests that the soldier's entire body should be cased in armor. It proposes, says Popular Science Monthly, that the sides of the head, neck and upper part of the chest be covered with a gorget, a kind of collar, and the loins with a kind of skirt, like the lower part of a habergeon, both in chain mail. A cuirass, or breastplate, of movable plates of steel would protect the chest and back, and hinged steel elbow pieces and knee pieces would cover the joints. A face mask and goggles would complete the suit. The armor would be light enough to afford perfect freedom of action.

Using His Feet.

"Whom in the world did you take dancing lessons from?"
 "Professor Glide. And I must say he didn't complain like you of my stepping on his feet."
 "No, because you were paying him for the use of his feet and you're not paying me."

Too Deep for Paw.

Little Willie—Say, paw, why is an amateur concert called an entertainment?
 Paw—My son, I cannot tell a lie; I do not know.

SAXON

Strength-Economy-Service

This Car Is Worthy of Your Confidence

You can buy a Saxon car secure in the knowledge that you are getting full value in tried and proven motor car mechanism.

Saxon cars are built to win the confidence of their owner—and they do. But first they must win the confidence of their builders—and this they could not if they embodied any feature or any part of unproved worth.

So no Saxon principle of construction has ever been changed until a better principle has fully proved its greater value. And so no Saxon car has ever embodied features of doubtful worth.

Saxon cars have simply been in a state of transition, passing thru phase after phase of gradual improvement without a break in production. They are refined from time to time, not radically changed.

They are in the fullest sense of the phrase, products of evolution. They are developed rather than built.

Isn't that the kind of a car you want—one that you can feel confident is right before you put down your good money for it? If it is, then you want a Saxon.
