

# CALOMEL WHEN BILIOUS? NO! STOP! ACTS LIKE DYNAMITE ON LIVER

I Guarantee "Dodson's Liver Tone" Will Give You the Best Liver and Bowel Cleansing You Ever Had—Doesn't Make You Sick!

Stop using calomel! It makes you sick. Don't lose a day's work. If you feel lazy, sluggish, bilious or constipated, listen to me!

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile, crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you feel "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour just try a spoonful of harmless Dodson's Liver Tone.

Here's my guarantee—Go to any drug store or dealer and get a 50-cent bottle of Dodson's Liver Tone. Take a

spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it cannot salfate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste. —Adv.

### That Was Different.

"I want," said the grim-faced commander, "a dozen men who will give their lives to their country." The entire regiment stepped forward. The commander selected twelve.

"Now," said he, "you are to hold this position until you are wiped out."

"But we shall be killed!" quavered one.

"Did you not volunteer to give your life to your country?" asked the commander sternly.

"Oh, life! I thought you said, 'wife!'"

### USES FOR FAMILY UMBRELLA

#### Mind of Woman Devises Two Ways in Which Rainstick May Be Pressed Into Service.

Two novel uses for an umbrella are told in a recent issue of Poplar Mechanics Magazine. The mind of woman devised them both.

Picnickers desiring to go in bathing are often handicapped by the lack of convenient places to change clothes. An umbrella and some paper muslin provides a light portable tent that is practical and inexpensive for such uses. Cut the dark paper muslin into as many nine-foot lengths as there are sections of the umbrella. Sew these strips together. At each seam tie a string about a yard long and a stout cord 15 feet long to the handle to hold up the tent. For use open the umbrella, invert it and to each rib tie one end of the cord to the handle of the umbrella and suspend it from a tree or other support, weighting or tying down the other end.

A clothes dryer that can be easily carried will appeal to travelers and persons living in small quarters. An umbrella, four yards of strong wrapping twine and several small brass rings are required. Knot the rings into the twine at intervals, measuring the distance between the rib points of the umbrella, and hook the twine to the points by the rings, providing considerable drying space for small articles. Hook the umbrella handle over a suitable support or tie it carefully to the supporting pipe of a light fixture in the middle of the room, ready for the articles to be dried.

### Man's Best Friends.

A recent issue of the Canadian Forestry Journal, published by the Canadian Forestry association, contains an interesting article on the damage wrought by insects and the increasing and successful warfare carried on against insects by birds, certain animals and reptiles.

"It has been estimated," says the Journal, "by those who give this question study and thought leading into actual statistics that, were there no friends allied by nature, in the great struggle between man and his enemy insects, that in three years there would be no life left on the earth. Vegetation would disappear first, and animal life would accompany and follow it."

### Where Life is Cheap.

"You found out that there is a tremendous lot of people living in Kansas City, didn't you?" asked old Riley Rezzidew.

"There is a heap more of 'em living than it looks possible there could be, when you see the thousands of motor cars that go ripsnorting up and down Grand avenue," grimly replied Burt Blurg, who had just returned from the Big Burg. "And with sewers blowing up under 'em, footpads slugging 'em, people falling out of seventh-story windows on 'em, elevators dropping 'em into cellars, and all this and that, b'jimminy, I wonder everybody that lives in Kay See six months ain't dead long before the end of that time!"—Kansas City Star.

### Might Happen Again.

Mrs. Euphemia Johnson was attended by a confidential colored friend of her own sex when the railroad company called her in to effect a cash settlement for the death of her husband, killed on his honeymoon.

Mrs. Johnson had clouded her features with a heavy veil up to the time the corporation attorney had mentioned the sum, but when he produced the bills she threw back the badge of mourning and gazed eagerly on the bundle that flashed green and yellow in thick streaks.

The lawyer withdrew after the signing of the release and the two were left alone.

"Euphemia," said the companion, "I suppose you'll be gettin' married again, now that you're so rich."

Euphemia paused with a thick thumb half-way to her mouth for moisture and reflection.

"Ef Ah do," she observed before resuming the counting of the roll, "it'll be some pusson on de Seabode Ayeh Line."
