Don't Poison Baby.

ORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. LESSON FOR AUGUST 5.

MANASSEH'S SIN AND REPENT-ANCE.

LESSON TEXT-II Chronicles \$3:1-20. GOLDEN TEXT-Let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.-Isaiah 65:7.

The reign of Manasseh was the longest of any of the kings of Judah. It is strange that a wicked king should have the distinction of the longest reign. This can be accounted for, perhaps, by the fact that the nation was in such a state that their idolatrous corruption needed to go to its fullest development. It seems to be necessary in a world of free beings, that their actions must go to a certain stage of development. It was so with the inhabitants of Canaan before that land was possessed by Israel. Israel was kept in Egypt until the iniquity of that nation was full. In this case doubtless the Lord permitted this to go on until the idolatrous practices would become extremely obnoxious.

I. Manasseh's Sin (vv. 1-9). Though he had the example of a good father, he with passionate endeavor gave himself up to the imitation of the heathen about him. This shows that grace is not inherited; a good father may have a bad son. It also teaches us that it Do Not Throw It Away Because It is absolutely necessary to bring the grace of God into vital touch with our children, for that grace is absolutely essential to their salvation. Only his grace can counteract the downward

1. He restored the high places which had been destroyed by his father (v. 3). It is thus seen that he sought to undo the good work done by his

2. He erected altars to Baal (v. 3). The idols worshiped on these altars seem to have been images of licentious appearance, provoking the indulgence of the human passion. Therefore, with this worship was coupled the grossest licentiousness.

3. He introduced the star worship of the Chaldeans and Assyrians (v. 3). He even erected these altars in the house of the Lord, placing them on a level with God himself. 4. He set up Moloch in the Vale of

aged this worship on the part of others, but he even caused his own children to pass through the fire. 5. He practiced magic, witchcraft, and dealt with a familiar spirit (v. 6). So gross were these practices that they did even worse than the heathen

whom God had destroyed before the Children of Israel came into the land. 6. He rejected the Lord's testimony (v. 10). Doubtless the prophets had again and again admonished him, but he seems to have turned entirely aside

from such remonstrances. II. Manasseh's Chastisement (vv. 11-13). The Lord in grace used the Assyrians to chastise Manasseh, so as to bring him to see his evil ways. He was captured, perhaps while hiding among the thicket of thorns (v. 11), bound in chains and carried to Babylon. This was most humiliating. His hands were manacled, his ankles fas-

tened together with rings and a bar. III. Manasseh's Repentance. (vv. 12. medicine and recommendable for what it | 13). Fortunately, the chastisement had its desired effect. Manasseh was brought to his senses and turned from his evil ways. The steps in his repentance are as follows:

> 1. Affliction (v. 12). This was most severe. Bound with chains and dragged to Babylon. While this was severe, it was light in comparison with the sins which provoked it.

> 2. Supplication (v. 12). Manasseh had the good sense to cry out to God in this condition. It is the unmistakable evidence that God's chastisement is accomplishing its purpose. We are instructed in James 5:13 in time of affliction to pray.

> 3. Humility (v. 12). This is a common characteristic of penitent souls. Those who come under the hand of God always recognize it in their hum-

4. Forgiveness (v. 13). As soon as God sees the signs of penitence, he turns in mercy to the penitent and enter the body?" "Well," she rejoined, "then foreign grants absolution for sin. No one needs to wait long to receive his for-

> 5. His kingdom restored (v. 13). Manasseh not only was forgiven, but he was actually restored to his kingdom. Those who truly repent, God will not only forgive, but he will restore (Psa. 32:3-5).

6. Apprehension of God (v. 13). Through this experience Manasseh came to know God.

IV. Manasseh's Reformation (vv. 14-20). Manasseh was not content with merely receiving God's forgiveness and restoration to his kingdom, but he sought so far as possible to United States army has bought 4,000 undo the mischief which he had done.

Bullets From Machine Guns Gave Odd Impression to Aviator at Whom They Were Aimed.

It will be easily understood, writes Mr. C. G. Grey, in "Tales of the Flying Service," that before a bullet that has been shot straight upward begins to fall there must be a point where it stands dead still, and that for the last part of its upward path it travels very slowly. One officer of my acquaintance told me, after some months of war, that his most curious experience was when once, and once only, he dis-

covered the exact extreme range point. He was flying along quite peacefully on a bright sunny morning at an altitude of a little over 8,000 feet, without worrying about anything, when suddenly he saw something bright dart past the side of the machine. He began to look about him and saw, a shade below him and a trifle to one side, a whole stream of little bright things glit-

tering in the sun. Then he realized that he had just struck a level that happened to be the extreme vertical range of a machine gun that was making uncommonly on will training.
