Entered as second-class matter January 19th, 1905, at the postoffice at Salisbury, N. C., under the act of Congress of March 3rd, 1879.

Salisbury, N. C., Sept. 5, 1917

There are said to be twenty-seven millionaires in the training camp at Fort Sheridan, Ill. This ought to put a hush to those fellows who ignorantly and blatantly call this "a rich man's war and a poor man's fight."

Governor Thomas W. Bickett was in Salisbury Monday and inspired a great audience in the tabernacle in the morning by a very able and interesting patriotic speech. While the Governor's address was a splendid effort there was very little need of it. Our people are on the job and we believe will do their part without outside prodding.

When a bell is installed to invite people to join in a course which leads to the ignorant, immoral and degraded condition of the peoples of Mexico, Spain, Italy, Central and South America, where the Roman Catholic church flourishes in unimolested perfection, we suppose, leading downward, it could be properly denominated a "A fire bell."

J. Montague Smith

familiarly known as "Monty boy," young, easy-going bank cashier, darling of society, interested in socks and neckties. Two hours later this same individual is plain John M. Smith, fugitive from justice, charged with murder, hiding in a freight car, beating his way to security.

As swift a metamorphosis then that which transforms this character would be hard to imagine or a better story than that in which he appears hard to find.

The Real Man

is interesting right from the beginning, ingenious, swift-moving and with plenty of exciting moments. It is one of the best pieces of fiction ever written by that popular writer,

MAXWELL ONE-TON TRUCK

The Maxwell Truck is a real truck, not a converted passenger car.

The specifications include a heavy pressed steel frame; Timken-David Brown worm and gear drive; Timken roller bearings; dropped forged I-beam front axle; designed for generous overload stresses; rugged rear axle housing, with worm and axle shafts of specially heat-treated alloy steel; heavy spring steel semi-elliptic springs, designed to overcome any road shock, and artillery type wheels with steel rims and solid tires.

The Maxwell One-Ton Truck has all the features and equipment that have proved their superiority within the experience of this company as well as other truck builders.

The uses to which this truck can be put are almost limitless. Retailers, wholesalers, manufacturing concerns—in fact, nearly every business house in the country, as well as thousands of farmers, are finding in the Maxwell Truck an efficient and economical means of transportation.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway: the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favor—no special privilege not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroad; to see that the public policy in the management of railroads which invites the confidence of governmental agencies to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its niche in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."
